Non-Technical Summary

Introduction

This Non-Technical Summary (NTS) provides an overview of the March 2020 Addendum to the Sustainability Appraisal (SA) Report of the Chesterfield Borough Pre-Submission Local Plan (January 2019). The addendum presents the findings of the SA of the proposed Main Modifications (MMs) to the draft Local Plan. The addendum presents the findings of the appraisal of the likely significant effects of the proposed modifications and additional changes to the proposed modifications in order to update the 2019 SA Report (as appropriate) and ensure that all the likely significant effects of the draft Local Plan (as proposed to be modified) have been identified, described and evaluated. A draft set of MMs were provided by the Council to Wood Environment and Infrastructure Solutions Ltd. (Wood) on 31st December 2019. These were screened to determine whether any of the MMs were likely to have significant effects and where the potential for effects was indicated, the relevant MMs were then subject to SA. The final set of MMs that the Council are consulting on was then considered and the results of the previous screening exercise updated.

The following section of this NTS:

- provide an overview of the Local Plan and the process to date;
- describe the approach to identifying the MMs that are considered significant for the purposes of the SA and the approach to the appraisal (consistent with the previous SA work);
- summarise the findings of the SA of the MMs; and
- sets out the next steps in the SA of the Local Plan.

The Draft Local Plan and Modifications

The Local Plan sets out the vision, objectives, planning policies and site allocations that will guide development in the Borough to 2035.

The Local Plan (together with supporting information including assessments and evidence-base studies) was submitted to the government (Secretary of State for Housing, Communities and Local Government) on 28th June 2019. The government appointed two planning inspectors to conduct an independent examination (known as an "Examination in Public" or "EiP") into the Local Plan. EiP hearings took place between the 15th of October and 6th of November 2019. During the hearings, a number of MMs to the Local Plan were proposed. At the conclusion of the hearings, the Inspectors requested that the Council confirm the proposed changes in a Schedule of MMs. The Inspectors reviewed the Schedule of MMs and confirmed that the Council can consult on the proposed MMs.

Sustainability Appraisal

National planning policy¹ states that local plans are prepared with the objective of contributing to sustainable development. Sustainable development is that which seeks to secure net gains across economic, environmental and social objectives to meet the needs of the present without compromising the ability of future generations to meet their own needs.

¹ See paragraph 16 of the National Planning Policy Framework (Ministry for Housing, Communities and Local Government, 2019).

The Chesterfield Local Plan should contribute to a sustainable future for the plan area. To support this objective, the Council is required to carry out a SA of the Local Plan². SA is a means of ensuring that the likely social, economic and environmental effects of the Local Plan are identified, described and appraised and also incorporates³ a process set out under a European Directive⁴ and related UK regulations⁵ called Strategic Environmental Assessment (SEA). Where negative effects are identified, measures are proposed to avoid, minimise or mitigate such effects. Where any positive effects are identified, measures are considered that could enhance such effects. SA is therefore an integral part of the preparation of the Local Plan and has been undertaken at all of the key stages in the development of the Local Plan.

How Have the Main Modifications Been Appraised?

The first step in the process was to decide which of the Main Modifications were significant for the purposes of the SA (with reference to the requirements of the SEA Directive and implementing regulations).

Some of the changes have been made to make policies compliant with planning policy at the national level, which requires policies to be expressed positively, e.g. '*development will be permitted if*', rather than '*development will only be permitted if*.' Such changes were not considered significant for the purposes of the appraisal because the intent of policies that are modified in this way remains the same. As such, any changes made for these reasons were therefore not considered to affect the previous results of the appraisal of the policy against the SA objectives.

Similarly, a number of modifications are proposed to make the wording and/or intent of policies clearer, for example, Policy LP11 on social infrastructure has criteria relating to the loss of facilities and the need to demonstrate that sites have been marketed. It is proposed to amend the criteria to ensure that marketing is over a continuous 12-month period and that the price for letting or sale of a site is marketed as realistic. Such changes are not considered to be significant for the purposes of the appraisal, e.g. because significant positive effects have already been identified for the previous version of the policy but the relevant text in the SA has been amended (and presented in this addendum) to ensure consistency with the modified version of the Local Plan.

The modifications to supporting text to clarify how policies will be implemented and/or provide justification for them are not considered to be significant in SA terms because they do not impact on the findings of the SA or assumptions underlying the appraisal.

The modifications that involve the deletion of text from a policy and the introduction of revised wording have been considered to see if the changes have any implications for the SA, both in terms of the conclusions of the SA or the commentary accompanying relevant parts of the assessment.

Any modifications that involve the introduction of a new policy or site would be treated as significant, although no such instances in these MMs were identified.

Where a modification to a policy introduces an additional criterion, a judgement is made as to whether or not the modification would affect the previous appraisal and/or should be acknowledged in the appraisal. In such instances, significance is determined on a case by case basis and a comment made in **Appendix A** on whether or not the previous appraisal required updating and a broad indication of which SA objectives were affected.

Table 3.1 in the main report provides details of those changes to policy that were considered significant for the purposes of the appraisal. The MMs are reviewed in **Appendix A** of this addendum report. The final

² The requirement for SA of local plans is set out under section 19(5) of the Planning and Compulsory Purchase Act 2004.

³ See paragraph 32 of the National Planning Policy Framework (Ministry for Housing, Communities and Local Government, 2019).

⁴ Directive 2001/42/EC on the assessment of the effects of certain plans and programmes on the environment.

⁵ Environmental Assessment of Plans and Programmes Regulations 2004 (statutory instrument 2004 No. 1633).

column of the table indicates, for each modification, whether or not it was considered significant for the purposes of the SA and why.

Where the MM has been considered significant for the purposes of the SA, this addendum draws on, and updates, earlier SA work to ensure the effects of all significant changes have been identified, described and evaluated. Section 3 of the main report summarises the findings of the SA of the MMs and **Appendix B** provides an update to the matrix for the overall housing target. **Appendix C** updates the SA matrices for housing site options. **Appendix D** provides updates to the SA matrices for each relevant policy chapter. **Appendix E** provides an update for matrices for the housing allocations and **Appendix F** sets out a review of the monitoring framework for the Local Plan as proposed to be modified

To support the appraisal of the Local Plan, a SA Framework was developed. This contains a series of sustainability objectives and guide questions that reflect both the current socio-economic and environmental issues which may affect (or be affected by) the Local Plan and the objectives contained within other plans and programmes reviewed for their relevance to the SA and Local Plan. The SA objectives and guide questions are shown in **Table NTS 1**.

Table NTS.1 SA Objectives and Guide Questions

SA Objective	Guide Questions	
1.To ensure that housing stock meets the needs of all communities in the Borough	Q1a	Will it ensure all groups have access to decent, appropriate, well designed and affordable housing?
	Q1b	Will it ensure that all new development contributes to local distinctiveness and improves the local environment?
2. To improve health and reduce health inequalities	Q2a	Will it improve access for all to health facilities?
	Q2b	Will it provide sufficient areas of open space for all?
	Q2c	Will it encourage healthy and active lifestyles?
	Q2d	Will it encourage sporting activities?
	Q2e	Will it help reduce obesity
	Q2f	Will it avoid locating sensitive development where environmental circumstances could negatively impact on people's health?
3. To create sustainable communities	Q3a	Will it help achieve life-long learning?
	Q3b	Will it enable communities to influence the decisions that affect their neighbourhoods and quality of life?
	Q3c	Will it ensure people are not disadvantaged with regard to ethnicity, gender, age, disability, faith, sexuality, background or location?
	Q3d	Will it help to reduce crime and the fear of crime?
	Q3e	Will it help reduce deprivation in the Borough's most deprived areas?
	Q3f	Will it protect and enhance the vitality and viability of the Borough's settlements?
	Q3g	Will it contribute to regeneration initiatives?
4. To enhance and conserve the cultural heritage of the Borough	Q4a	Will it protect, enhance and manage the local character and accessibility of the landscape across the Borough?
	Q4b	Will it protect and enhance the character of the built environment?
	Q4c	Will it conserve and enhance heritage assets (designated and non-designated) and their setting?
	Q4d	Will it promote high quality urban and rural design?
5. To protect and enhance biodiversity	Q5a	Will it lead to habitat creation matching BAP priorities?

SA Objective	Guide Questions	
	Q5b	Will it maintain and enhance sites designated for their nature biodiversity interest?
6. Protect and manage the landscape of North East Derbyshire	Q6a	Will it reduce the amount of contaminated, derelict, degraded and under-used land?
	Q6b	Will it improve tranquillity?
	Q6c	Will it protect and improve the distinctive local character of the Borough (such as stone walls)?
	Q6d	Will it provide adequate green space and environmental capital (green infrastructure)?
7. To manage prudently the natural resources of the region including water, air quality, soil and minerals	Q7a	Will it lead to reduced consumption of materials and resources?
	Q7b	Will it reduce water consumption?
	Q7c	Will it exacerbate water abstraction levels?
	Q7d	Will it include energy efficiency measures?
	Q7e	Will it encourage energy production from sustainable sources?
	Q7f	Will it maintain and enhance soil quality?
8. Plan for the anticipated different levels of climate change	Q8a	Will it facilitate landscape change for climate change adaptation (e.g. by protecting key landscape and biodiversity features and improving links between them to reduce fragmentation)?
	Q8b	Will it be built outside of the floodplain and not exacerbate flooding in any way?
	Q8c	Will it reduce the risk of damage to property from storm events?
9. Minimise the Borough's contribution to climate change	Q9a	Will it lead to reduced greenhouse gas emissions?
	Q9b	Will it have a low or neutral carbon footprint?
10. Minimise the environmental impacts of waste and pollution	Q10a	Will it provide an increased variety and capacity of reuse and recycling facilities?
	Q10b	Will it reduce waste from construction?
	Q10c	Will it lead to improved water quality?
11. Develop a strong culture of enterprise and innovation	Q11a	Will it ensure that new employment sites are located in the more sustainable locations?
	Q11b	Will it promote environmental technology initiatives?
	Q11c	Will it help diversify the local economy?
	Q11d	Will it provide good quality, well paid employment opportunities that meet the needs of local people?
	Q11e	Will it help promote local procurement and recruitment?
	Q11f	Will it promote tourism?
	Q11g	Will it support rural diversification?
12. Improve the accessibility to jobs and services	Q12a	Will it ensure people are not disadvantaged with regard to ethnicity, gender, age, disability, faith, sexuality, background or location?
	Q12b	Will it improve local accessibility of employment, services and amenities?
	Q12c	Will it increase provision of local services and facilities and reduce centralisation?
	Q12d	Will it reduce car use?
	Q12e	Will it encourage use of public transport?

Policies, options and strategic sites in the draft Local Plan were appraised using matrices to identify likely significant effects on the SA objectives. A qualitative scoring system was adopted which is set out in **Table NTS.2**

Table NTS.2 Scoring System for the Sustainability Appraisal

Score	Description	Symbol
Significant Positive Effect	The proposed option/policy contributes significantly to the achievement of the objective.	++
Minor Positive Effect	The proposed option/policy contributes to the achievement of the objective but not significantly.	+
Neutral	The proposed option/policy does not have any effect on the achievement of the objective	0
Minor Negative Effect	The proposed option/policy detracts from the achievement of the objective but not significantly.	-
Significant Negative Effect	The proposed option/policy detracts significantly from the achievement of the objective.	--
No Relationship	There is no clear relationship between the proposed option/policy and the achievement of the objective, or the relationship is negligible.	~
Uncertain	The proposed option/policy has an uncertain relationship to the objective, or the relationship is dependent on the way in which the aspect is managed. In addition, insufficient information may be available to enable an appraisal to be made.	?
Mixed score	Note where a score is positive or negative but there is uncertainty hatching is used, e.g.	+/?

What are the Findings of the Appraisal of the Main Modifications?

The sections below provide an overview of the findings of the appraisal of the MMs.

Plan Period

The Plan Period is proposed to be amended to cover the period 2018 to 2035, previously it was 2033. All references in the SA Report (January 2019) to the plan period should be taken as referring to the revised plan period of 2035. This addendum includes instances where the text has been updated. The change to the plan period does not have any impact on other aspects of the SA Report (January 2019) or the conclusions of the SA.

Strategic Objectives

The MMs include amendments to strategic objectives S2 and S6, reflecting the change to the plan period, minimum number of homes to be built over the plan period and the amount of housing land to be provided over the revised plan period.

These changes do not impact on the findings of the SA in relation to the compatibility of the vision and strategic objectives.

The Local Plan's strategic objectives are quoted at paragraph 5.2.9 of the SA Report and S2 and S6 should be amended as follows to reflect the MMs:

- *S2: Provide sites for at least ~~4,374~~ 4,080 homes to be built between 2018 and ~~2033~~ 2035 to meet the housing requirement for Chesterfield Borough; and*
- *S6: Provide at least ~~44-50~~ 50 ha of new employment land between 2016 and ~~2033~~ 2035.*

Revised Housing Number

MM15 identifies a minimum housing need figure of 4,080 dwellings (consistent with the Local Housing Need (LHN) methodology), this equates to 240 dwellings per annum over the period 2018 to 2035. This modification is required to make the Local Plan compliant with the NPPF and PPG. Whilst it is recognised that the revised figure of 240 dwellings per annum is close to the options previously appraised, Table 5.2 has been amended to provide the re-assurance that the preferred housing number has been appraised.

The text at paragraph 5.3.9 of the SA Report (2019) summarises the effects of all of the options and has been updated as set out in paragraph 3.5.4 below.

Appendix F of the SA Report (2019) has been updated to include an appraisal of an option based on meeting the minimum housing target set out in the LHN. The updated matrix is provided at **Appendix B**.

Paragraph 5.3.10 of the SA Report should be deleted and replaced with the text set out in paragraph 3.5.6 of this addendum below.

Revised Employment Land Provision

The Council identified three options relating to the quantum of new employment land to be delivered in the Borough over the plan period. The options were as follows:

- Option 1 - 77 hectares meeting identified need;
- Option 2 - 83 hectares LEP aspirational growth scenario A; and
- Option 3 - 90 hectares LEP aspirational growth scenario B.

Section 5.4 of the SA Report (January 2019) summarised the significant effects associated with each of the options and Appendix G of that report provides an appraisal matrix for the options.

Paragraph 5.48 of the SA Report (January 2019) sets out the Preferred Option. This text should be deleted and replaced with text set out in paragraph 3.6.3 of this addendum below.

Options for Housing Sites

The Council considered a number of smaller sites that could provide housing. The sites considered and the significant environmental effects associated with them are summarised in Section 5.7 of the SA Report (January 2019). More detail on the results for each site is provided at Appendix J of that report. The MMs include changes to the names of a number of sites and / or changes to the site area and number of homes a site could accommodate (MM18).

Table 5.7 of the SA Report has been updated below to reflect these changes. The appraisal matrices for individual sites have also been updated as outlined above (see **Appendix C** of this Addendum). There are no impacts on the conclusions of the SA.

Local Plan Policies

This addendum has focussed on MMs to Policies that are considered to be significant. The relevant MM is indicated by the Modification Reference, e.g. MM12 and full details of each MM are provided in **Appendix A**.

In relation to the spatial strategy MM12 to Policy LP2 sets out criteria that would apply to sites that are not allocated in the Local Plan, includes amendments to criterion d) referencing opportunities for walking access to a range of key services⁶ via safe, lit and convenient walking routes. This would replace a requirement in the draft policy for such development to be within walking distance (800m) of a Local, District or Town Centre or the ability to deliver appropriate provision on site.

The proposed changes do not alter the results of the SA of the policy, but the matrix has been updated at **Appendix D** of this report to remove reference to the 800m threshold.

Policy LP3 'Presumption in favour of sustainable development' is proposed to be deleted because it duplicates the NPPF. Deletion of the policy is not expected to affect the outcomes of the SA but references to the policy in the 2019 SA report should be deleted and so the relevant paragraphs and text updates are set out in Section 3.8 below.

In relation to jobs, centres and facilities a minor positive effect was identified in the appraisal matrix against SA Objective 1 'Housing.' This has been updated to reflect the fact that the explicit reference to housing is proposed to be deleted from the policy. There are no amendments required to the text of the SA Report.

MM 45 to Policy LP20 'River Corridors' adds additional criteria to the policy to protect existing biodiversity and ecological value and habitat connectivity. This modification is judged to have a significant positive effect in relation to SA Objective 5 'Biodiversity.'

In relation to strategic sites, MM 56 modifies the number of dwellings that will be granted planning permission for residential development at SS6 'Land at Dunston' to "from approximately 800 dwellings" to "approximately 500 dwellings." This reflects the remaining site capacity after an initial development phase, which is already under construction, has been taken into account. The modification does not alter the outcome of the SA but the SA Report (January 2019) and matrix for the Policy SS6 has been updated to reflect the revised number. The MM also adds an additional criterion to the policy identifying the need for development to demonstrate mitigation to minimise any adverse impacts on nearby heritage assets and their settings. The modification to the policy provides additional assurance in respect of heritage, and so a minor positive effect is identified on this basis, given that the emphasis is on mitigation rather than enhancement.

MM 56 also identifies the need to provide transport mitigation for all users and so a significant positive effect was identified in relation to SA Objective 9 in relation to climate change, partly on the basis that the policy requirements would help reduce emissions associated with the use of motorised transport and the MM provides additional reassurance. The updated SA matrix is included at **Appendix D**. Relevant paragraphs from the SA Report (January 2019) have been updated and the text is included in section 3.8 of this addendum.

Appraisal of Allocated Housing Sites

Significant effects associated with allocated housing sites are summarised in Section 5.12 of the SA Report (January 2019). Relevant paragraphs are updated in the main report (see paragraphs 5.12.3, 5.12.4 and 5.12.5 below) to reflect instances where sites have been deleted as allocations or other updates to the results of the SA.

⁶ Employment centres, primary schools, secondary schools, further education institutions, GPs, hospitals, food stores and town centres

Cumulative Synergistic and Secondary Effects of Policies and Sites

Section 5.14 of the SA Report (January 2019) sets out the cumulative effects of policies and these are summarised in Table 5.15 of that report. Table 5.15 also considers the potential for in-combination effects associated with other plans and programmes. There are no changes to the assessment of cumulative effects as a result of the proposed modifications.

Compliance with the NPPF

The Ministry of Housing, Communities and Local Government (MHCLG) published the revised National Planning Policy Framework (NPPF) on 24th July 2018. This was the first revision of the NPPF since its publication in 2012. The SA Report and appendices (notably Appendix Q which contains a high-level review of the Local Plan against the requirements of the NPPF, e.g. to identify any potential policy gaps) included references to the 2018 NPPF and cited specific paragraphs.

Following a technical consultation on updates to national planning policy, MHCLG made very minor changes to the text and published an updated Framework on 19th February 2019.

The various references in the SA Report to specific paragraph numbers in the NPPF were reviewed as part of the preparation of the Addendum to the SA Report dated June 2019 and the conclusion was that the various references remained valid. The MMs are partly driven by the Inspectors review of the Local Plan against the NPPF and where any additional modifications are proposed by the Inspectors to make the Local Plan compliant with the NPPF these are indicated at **Appendix A** of this addendum.

Recommendations (including Mitigation)

Sections 5.17 and Table 5.17 of the SA Report (January 2019) set out recommendations arising from the SA of the regulation 19 Local Plan. No additional recommendations have arisen following a review of the MMs in this addendum.

Monitoring

Section 6.6 of the SA Report (January 2019) sets out the requirements for monitoring in relation to the SA and the opportunity to integrate monitoring of the Local Plan with the requirements for monitoring in relation to the SA. MM 66 sets out changes to the monitoring framework. The revised framework has been reviewed to assess the extent to which the proposed indicators align with the SA Objectives. The results of the exercise are set out at **Appendix F** of this addendum. This shows the monitoring framework, including changes proposed in the MM. The last column of the table has been added by Wood to highlight which SA objectives each of the proposed indicators would help monitoring.

From the review at **Appendix F** no instances where a SA objective was not supported by at least one indicator were identified it is therefore concluded that the updated monitoring framework provides the basis for meeting monitoring requirements for the Local Plan associated with the SA and this will be confirmed in the Post Adoption Statement.

Conclusions and Next Steps

The appraisal has demonstrated that the proposed modifications do not impact on the previous conclusions of the SA.

This addendum to the SA report is a supporting document to the consultation on the Local Plan Modifications. Comments are invited on the findings and recommendations of this report.

The consultation runs from **Friday 6th March to Friday 17th April 5pm.**

Please note: the **consultation is only related to the content of the Modifications (soundness) and how they have been prepared (legal compliance)**. Other parts of the plan will not, however, be considered.

If you wish to make comments, please use one of the following methods:

- Email: Please complete the consultation response form and send it to Local.plan@chesterfield.gov.uk; or
- Post: Please complete the consultation response form and send it to: Strategic Planning and Key Sites, Chesterfield Borough Council, Town Hall, Rose Hill, Chesterfield, S40 1LP

Please quote the relevant main modification reference, policy or paragraph to which your response relates.

Following the close of the consultation, the inspectors will complete and publish their final report, recommending any changes that are considered necessary to make the Local Plan sound.

1. Introduction

1.1 Background

- 1.1.1 Chesterfield Borough Council (the Council) is currently preparing a new Local Plan for Chesterfield Borough (the Local Plan). The Local Plan will set out the vision, objectives, planning policies and site allocations that will guide development in the Borough to 2035.
- 1.1.2 The Local Plan (together with supporting information including assessments and evidence-base studies) was submitted to the government (Secretary of State for Housing, Communities and Local Government) on 28th June 2019. The government appointed two planning inspectors to conduct an independent examination (known as an "Examination in Public" or "EiP") into the Local Plan. EiP hearings took place between the 15th of October and the 6th of November 2019. During the hearings, a number of Main Modifications (MMs) to the Local Plan were proposed. At the conclusion of the hearings, the Inspectors requested that the Council confirm the proposed changes in a Schedule of MMs. The Inspectors have reviewed the Schedule of MMs and provided comments to assist the Council in finalising the MMs and confirmed that the Council can publish the schedule for consultation.
- 1.1.3 Wood Environment and Infrastructure Solutions Ltd. (Wood), formerly Amec Foster Wheeler, was commissioned by the Council to undertake a Sustainability Appraisal (SA) of the Local Plan. The SA appraised the environmental, social and economic performance of the emerging Local Plan proposals and any reasonable alternatives. In doing so, it helped to inform the selection of Plan options, policies and sites concerning (in particular) the quantum, distribution and location of future development in the Borough and to identify measures to avoid, minimise or mitigate any potential negative effects that may arise from the Plan's implementation as well as opportunities to improve the contribution of the Local Plan towards sustainability. SA Reports, containing the findings of the appraisal have been completed to accompany each stage of the development of the Local Plan, to ensure that any likely significant effects have been identified, described and evaluated. The Inspectors requested that the Council consider the sustainability implications of the draft MMs, prior to their finalisation. A draft set of MMs were provided by the Council to Wood Environment and Infrastructure Solutions Ltd. (Wood) on 31st December 2019. These were screened to determine whether any of the MMs were likely to have significant effects and where the potential for effects was indicated, the relevant MMs were then subject to SA. The final set of MMs that the Council are consulting on was then considered and the results of the previous screening exercise updated.

Purpose of this Report

- 1.1.4 This document is the March 2020 Addendum to the SA Report of the Pre-Submission Local Plan (January 2019) and has been prepared in order to take account of, and appraise, the proposed modifications to the draft Local Plan. The addendum presents the findings of the appraisal of the likely significant effects of the proposed modifications and additional changes to the proposed modifications in order to update the 2019 SA Report (as appropriate) and ensure that all the likely significant effects of the draft Local Plan (as proposed to be modified) have been identified, described and evaluated. This document also updates the SA Report to reflect any relevant changes (e.g. changes to the wording of policies).

- 1.1.5 This report should be read in conjunction with the Local Plan SA Report (January 2019) which can be accessed through the Council's website.⁷

1.2 The Draft Local Plan

- 1.2.1 This section sets out the legislative background to preparation of the Local Plan, the role of the Local Plan and the intended content.

Requirement to Prepare a Local Plan

- 1.2.2 The Town and Country Planning (Local Planning) (England) Regulations 2012 sets out the regulatory requirements for developing and adopting a Local Plan. Before adoption, this involves preparing and consulting on a draft Local Plan (Regulation 18), producing a Pre-Submission Draft Local Plan (Regulation 19), submitting the Local Plan to the Secretary of State for Communities and Local Government (Regulation 22) and subjecting the Local Plan to public examination (Regulation 24). The preparation, consultation, submission and examination of the Chesterfield Borough Local Plan has followed these regulatory stages.

Modifications

- 1.2.3 The Inspector's Post Hearing Advice⁸ was published on 13th November 2019. It noted that during the hearing sessions a number of potential MMs were discussed. It requested that:

"The Council should now prepare a consolidated schedule of all the potential MMs identified during the hearing sessions. The Council should also consider the need for any consequential changes that might be required in connection with any potential MMs such as changes to the policies map and any additional modifications (AMs) that would assist the presentation and comprehension of the Plan. (Paragraph 3)

The MMs should be expressed as changes from the pre-Submission Version of the plan (December 2018). (Paragraph 5)

The Council should also satisfy itself that it has met the requirements for sustainability appraisal by producing an addendum in relation to the potential MMs, as appropriate...The addendum should be published as part of the public consultation". (Paragraph 6)

- 1.2.4 The Post Hearing Advice contained a number of actions for the Council in respect of the following elements of the draft Local Plan: housing need; housing trajectory; and site allocations.
- 1.2.5 The approach to modifications reflects Section 20(7) of the Planning and Compulsory Purchase Act (2004), as revised by Section 112 of the Localism Act (2011) where modifications are either classified as "main" or "additional" modifications.
- 1.2.6 The proposed MMs are set out in **Appendix A** of this report.

Scope and Content of the Local Plan

- 1.2.7 The Local Plan will:
- provide a blueprint to guide development in the Borough to 2035;

⁷ https://www.chesterfield.gov.uk/media/829137/chesterfield-local-plan-reg-19-sustainability-appraisal_v3-final.pdf

⁸ Letter from Bryn Bowker and David Spencer, Planning Inspector dated 13.11.19. Available from <https://www.chesterfield.gov.uk/media/1006839/exins019-inspectors-post-hearings-advice-note-november-2019.pdf> [Accessed January 2020].

- contribute to achieving sustainable development;
- set out strategic policies for the provision of homes, jobs, retail, leisure, infrastructure, social and community facilities, climate change mitigation / adaptation and conservation / enhancement of the natural and historic environment;
- set out the allocation of sites to promote development and flexible use of land, bringing forward new land where necessary;
- identify areas or land where limits to development will be required or where development would be inappropriate;
- set out detailed policies on form, scale, access and quantum of development where appropriate;
- set out detailed policies providing the criteria against which proposals for development will be determined;
- carefully consider deliverability and viability when assessing options and policies for the Plan;
- be accompanied by a proposals map to illustrate geographically the policies in the Plan;
- include a monitoring and implementation framework;
- have regard to any other issues to meet Government, or other emerging policy areas (for example taking account of progress on the proposed HS2 rail line);
- be produced through on-going co-operation with neighbouring authorities and other bodies to reflect issues and sites that are wider than Borough level; and
- be produced through a consultative process so that the Plan reflects the collective vision of communities in the Borough.

1.2.8 The Local Plan sets out the vision, objectives, planning policies and site allocations that will guide development in the Borough to 2035.

1.2.9 The vision for the Borough is based on 5 principles:

- a thriving Borough where everyone has access to jobs, training and support they need;
- a clean, green and attractive Borough where open space and built heritage are valued;
- a healthy and safe Borough, where the community is free from the fear of crime;
- a place where everyone has fair access to a decent and affordable home; and
- an inclusive Borough, where everyone feels value and has equal and fair access to local services.

1.2.10 The vision was revised to include a new objective on health and wellbeing to reflect recent evidence (the 2015 Index of Multiple Deprivation) which showed that the health of the Borough has decreased since 2010.

1.2.11 To support the vision, the Local Plan includes 13 strategic objectives covering greenhouse gases, the amount of development required, the need to support growth, new homes, flood risk, jobs, the natural environment, heritage, transport and movement, quality of place, the Green Belt, the Chesterfield canal and health and well-being.

1.2.12 The Local Plan contains some 30 policies presented under a range of revised topic areas. **Table 1.1** presents the revised topic areas and policy titles (as proposed to be modified).

Table 1.1 Local Plan Policy Topics and Titles

Topic	Policy Title
Spatial Strategy	LP1 Spatial Strategy
	LP2 Principles for Location of Development
	LP3 Presumption in favour of sustainable development
Homes and Housing	LP4 Flexibility in Delivery of Housing
	LP5 Range of Housing
	LP6 Sites for Travellers
Jobs, Centres and Facilities	LP7 Economic Growth
	LP8 Tourism and the Visitor Economy
	LP9 Vitality and Viability of Centres
	LP10 Retail
	LP11 Social Infrastructure
Infrastructure Delivery	LP12 Infrastructure Delivery
A Changing Climate	LP13 Renewable Energy
	LP14 Managing the Water Cycle
Environmental Quality	LP15 A Healthy Environment
	LP16 Green Infrastructure
	LP17 Biodiversity, Geodiversity and the Ecological Network (new)
	LP18 Open Space, Play Provision, Sports and Recreational Facilities and Allotments
	LP19 Chesterfield Canal
	LP20 River Corridors
Design and Built Environment	LP21 Design
	LP22 Historic Environment
Travel and Transport	LP23 Influencing the Demand for Travel
	LP24 Major Transport Infrastructure
Regeneration Priority Areas	RP1 Regeneration Priority Areas
Strategic Sites & Locations	SS1 Chesterfield Town Centre
	SS2 Chatsworth Road Corridor
	SS3 Chesterfield Waterside and the Potteries
	SS4 Markham Vale

Topic	Policy Title
	SS5 Staveley and Rother Valley Corridor
	SS6 Land at Dunston (new)
	SS7 Chesterfield Railway Station (new)
	SS8 Neighbourhood Plans

- 1.2.13 With regard to housing need (covered in Policy LP1), the MMs include a change in the objective housing need for the Borough, which should be 240 dwellings per annum (dpa) and the plan period extended from 2032/33 to 2034/35 to ensure consistency with national policy and the latest evidence.
- 1.2.14 Further information in respect of the preparation of the Local Plan is available via the Council's website.⁹
- 1.2.15 The principles, objectives, policies, and options to them, were subjected to sustainability appraisal. Details of the SA process are provided below.

1.3 The Sustainability Appraisal

The Requirement for Sustainability Appraisal

- 1.3.1 Under Section 19(5) of the Planning and Compulsory Purchase Act 2004, the Council is required to carry out a SA of the Local Plan to help guide the selection and development of policies and proposals in terms of their potential social, environmental and economic effects. In undertaking this requirement, local planning authorities must also incorporate the requirements of European Union Directive 2001/42/EC on the assessment of the effects of certain plans and programmes on the environment, referred to as the SEA Directive, and its transposing regulations the Environmental Assessment of Plans and Programmes Regulations 2004 (statutory instrument 2004 No. 1633).
- 1.3.2 The SEA Directive and transposing regulations seek to provide a high level of protection of the environment by integrating environmental considerations into the process of preparing certain plans and programmes. The aim of the Directive is *"to contribute to the integration of environmental considerations into the preparation and adoption of plans and programmes with a view to promoting sustainable development, by ensuring that, in accordance with this Directive, an environmental assessment is carried out of certain plans and programmes which are likely to have significant effects on the environment."*
- 1.3.3 At paragraph 16, the National Planning Policy Framework¹⁰ (NPPF) (2019) sets out that local plans should be prepared with the objective of contributing to the achievement of sustainable development.¹¹ In this context, paragraph 32 of the NPPF reiterates the requirement for SA/SEA as it relates to local plan preparation:

"Local plans and spatial development strategies should be informed throughout their preparation by a sustainability appraisal that meets the relevant legal requirements.¹² This should demonstrate how

⁹ <https://www.chesterfield.gov.uk/planning-and-building-control/planning-policy-and-the-local-plan/new-local-plan.aspx>

¹⁰ Ministry of Housing, Communities and Local Government (2019) *National Planning Policy Framework*. Available from https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/779764/NPPF_Feb_2019_web.pdf

¹¹ This is a legal requirement of local planning authorities exercising their plan-making functions (section 39(2) of the Planning and Compulsory Purchase Act, 2004)

¹² The reference to relevant legal requirements in the NPPF relates to Strategic Environmental Assessment

the plan has addressed relevant economic, social and environmental objectives (including opportunities for net gains). Significant adverse impacts on these objectives should be avoided and, wherever possible, alternative options which reduce or eliminate such impacts should be pursued. Where significant adverse impacts are unavoidable, suitable mitigation measures should be proposed (or, where this is not possible, compensatory measures should be considered)."

- 1.3.4 The Planning Practice Guidance¹³ makes clear that SA plays an important role in demonstrating that a local plan reflects sustainability objectives and has considered reasonable alternatives. In this regard, SA will help to ensure that a local plan is "justified", a key test of soundness that concerns the extent to which the plan provides an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.

Sustainability Appraisal Process To-Date

- 1.3.5 The contextual information and approach to SA was set out in a draft Scoping Report which was consulted on between October and November 2016 and was revised, as appropriate, to reflect the 7 responses received¹⁴. The updated approach was then applied to each stage of the emerging Local Plan, with findings documented in SA Reports.
- 1.3.6 **Table 1.2** summarises the SA Reports prepared to date:

Table 1.2 Local Plan stages and SA reports

Local Plan stage	Title	SA Stage	Period of consultation
Regulation 18	Chesterfield Borough Local Plan, Consultation Draft January 2017	SA Report, January 2017	January – February 2017
Regulation 18	Potential Gypsy and Traveller sites in the Borough	Chesterfield Borough Council Gypsy and Traveller Sites SA Report	February – March 2018
Regulation 19	Chesterfield Borough Local Plan, Pre-submission consultation, January 2019.	Draft SA Report, January 2019	January – February 2019
Regulation 22	Proposed submission Local Plan, June 2019	Addendum to SA Report, June 2019	-

- 1.3.7 The SA of the Pre-Submission Local Plan (draft Local Plan) was published in January 2019. The SA Report was prepared to meet the reporting requirements of the SEA Directive and assessed the following key components of the document: vision, objectives, planning policies and site allocations that will guide development in the Borough to 2035 (and relevant reasonable alternatives).
- 1.3.8 To ensure that the Local Plan takes into account sustainability considerations, and to meet the Council's responsibilities under the SEA Directive, this addendum report has been prepared to

¹³ MHCLG (2019) *Planning Practice Guidance (PPG): Strategic environmental assessment and sustainability appraisal*, Paragraph: 001 Reference ID: 11-001-20190722. Available from: <https://www.gov.uk/guidance/strategic-environmental-assessment-and-sustainability-appraisal>

¹⁴ Responses were received from the Environment Agency, Natural England, Historic England, Derbyshire Wildlife Trust, Highways England, Derby and Derbyshire Development Control Archaeologist and Derbyshire County Council

screen and, where necessary, appraise, the Council's proposed MMs to the draft Local Plan in order to update the 2019 SA Report. This is consistent with the Inspector's Post Hearing Advice (paragraphs 6 and 10).

- 1.3.9 Subject to the outcome of the consultation on the MMs and any further amendments, the Council anticipates that it would adopt the final version of the Local Plan. As soon as reasonably practicable after the adoption of the Local Plan, the Council will complete the final stage and output of the SA process, the Post Adoption Statement. This will set out the results of the consultation and SA process and the extent to which the findings of the SA have been accommodated in the adopted Local Plan.
- 1.3.10 During the period of the Local Plan, the Council will monitor its implementation and any significant social, economic and environmental effects. These are anticipated to be reported through the Authority Monitoring Report (AMR).

1.4 Habitats Regulations Assessment

- 1.4.1 Regulation 105 of the Conservation of Habitats and Species Regulations 2017 (the 'Habitats Regulations') requires that competent authorities assess the potential impacts of land use plans on the Natura 2000 network of European protected sites¹⁵ to determine whether there will be any 'likely significant effects' (LSE) on any European site as a result of the plan's implementation (either alone or 'in combination' with other plans or projects); and, if so, whether these effects will result in any adverse effects on that site's integrity with reference to the site's conservation objectives. The process by which the effects of a plan or programme on European sites are assessed is known as 'Habitats Regulations Assessment' (HRA)¹⁶.
- 1.4.2 In accordance with the Habitats Regulations, what is commonly referred to as a HRA screening exercise has been undertaken to identify the likely impacts of the Local Plan upon European sites, either alone or 'in combination' with other projects or plans, and to consider whether these impacts are likely to be significant. Where there are likely significant impacts, more detailed Appropriate Assessment will be required.
- 1.4.3 The HRA screening exercise was reported separately from the SA of the Local Plan but importantly helped inform the appraisal process, particularly in respect of the potential effects of proposals on biodiversity. A separate addendum to the HRA has been prepared in light of the MMs.

¹⁵ Strictly, 'European sites' are any Special Area of Conservation (SAC) from the point at which the European Commission and the UK Government agree the site as a 'Site of Community Importance' (SCI); any classified Special Protection Area (SPA); any candidate SAC (cSAC); and (exceptionally) any other site or area that the Commission believes should be considered as an SAC but which has not been identified by the Government. However, the term is also commonly used when referring to potential SPAs (pSPAs), to which the provisions of Article 4(4) of Directive 2009/147/EC (the 'new wild birds directive') are applied; and to possible SACs (pSACs) and listed Ramsar Sites, to which the provisions of the Conservation of Habitats and Species Regulations 2017 are applied a matter of Government policy when considering development proposals that may affect them (NPPF para 176). 'European site' is therefore used in this report in its broadest sense, as an umbrella term for all of the above designated sites

¹⁶ 'Appropriate Assessment' has been historically used as an umbrella term to describe the process of assessment as a whole. The whole process is now more usually termed 'Habitats Regulations Assessment' (HRA), and 'Appropriate Assessment' is used to indicate a specific stage within the HRA.

1.5 Structure of this Addendum

1.5.1 The remainder of this addendum to the draft Local Plan SA Report is structured as follows:

- **Section 2: Approach to the SA** - describes the approach to identifying those MMs that are considered significant for the purposes of the SA and the approach to their assessment.
- **Section 3: Appraisal of Effects** – identifies the modifications that are considered significant to the SA and summarises the findings of the SA of the MMs.
- **Section 4: Conclusions and Next Steps** – presents the conclusions of the SA and the next steps in the process.
- **Appendix A** provides a detailed review of the MMs. **Appendix B** provides an update to the matrix for the overall housing target. **Appendix C** updates the SA matrices for housing site options. **Appendix D** provides updates to the SA matrices for each relevant policy chapter. **Appendix E** provides an update for matrices for the housing allocations and **Appendix F** sets out a review of the monitoring framework for the Local Plan as proposed to be modified.

2. Approach to the SA

2.1 Introduction

- 2.1.1 This section outlines the methodology used to appraise the MMs to the draft Local Plan and sets out the SA objectives used to identify any likely significant effects. The SA objectives used for this appraisal are consistent with those developed to appraise the draft Local Plan, as set out in the Scoping Report, which was consulted on between 19th October and 23rd November 2016. The appraisal objectives reflect an analysis of baseline conditions, review of plans and programmes and the subsequent identification of key sustainability issues which are contained in the draft Local Plan SA Report.

2.2 Determining the Significance for the SA of the MMs

- 2.2.1 This section sets out the approach to determining the significance of the MMs. Planning Practice Guidance states¹⁷(PPG):

"It is up to the local planning authority to decide whether the sustainability appraisal report should be amended following proposed changes to an emerging plan. A local planning authority can ask the Inspector to recommend changes to the submission Local Plan to make it sound or they can propose their own changes.

If the local planning authority assesses that necessary changes are significant, and were not previously subject to sustainability appraisal, then further sustainability appraisal may be required and the sustainability appraisal report should be updated and amended accordingly."

- 2.2.2 The Council provided a draft version of the MMs to the Local Plan to Wood on 31st December 2019. These were reviewed by Wood to determine whether or not they were significant and the need for any consequential changes to the previous appraisal work. The final set of MMs that the Council are consulting on was then considered and the results of the previous screening exercise updated. The modifications are reviewed in **Appendix A** of this report. The final column of the table indicates, for each modification, whether or not it was considered significant for the purposes of the SA and why.
- 2.2.3 There is no detailed guidance on how to determine significance in this context. The following text sets out how screening of the proposed MMs to the draft Local Plan was undertaken.
- 2.2.4 The National Planning Policy Framework (NPPF) requires that Local Plans are positively prepared. This means that policies must be positively worded, for example:¹⁸
- 'Planning permission will be granted provided that...'* and *'development will be encouraged where it...'* rather than
- 'We will not allow development unless...'*
- 2.2.5 A number of MMs to the draft Local Plan are changes of this nature. They are not considered significant for the purposes of the appraisal because they involve re-wording the policy to ensure

¹⁷ HMCLG (2014) *Strategic environmental assessment and sustainability appraisal*: Paragraph: 023 Reference ID: 11-023-20140306: Revision date: 06 03 2014

¹⁸ The NPPF was first published in 2012 and revised in 2018. Under transitional arrangements in the NPPF (2018), any plan submitted before 24th January 2019 will be assessed against previous NPPF; both versions of the NPPF set out the requirement for plans to be positively prepared.

that it complies with national planning policy. The intent of policies that are modified in this way remains the same, but they are cast in a positive manner as outlined above. Such changes are therefore not considered to affect the previous results of the appraisal of the policy against the SA objectives and are not considered to be significant for the purposes of the SA.

- 2.2.6 Similarly, a number of modifications are proposed to make the wording and/or intent of policies clearer, for example, for example, Policy LP11 on social infrastructure has criteria relating to the loss of facilities and the need to demonstrate that sites have been marketed. It is proposed to amend the criteria to ensure that marketing is over a continuous 12-month period and that the price for letting or sale of a site is marketed as realistic. Such changes are not considered to be significant for the purposes of the appraisal, e.g. because significant positive effects have already been identified for the previous version of the policy but the relevant text in the SA has been amended (and presented in this addendum) to ensure consistency with the modified version of the Local Plan.
- 2.2.7 The modifications to supporting text to clarify how policies will be implemented and/or provide justification for them are not considered to be significant because they do not impact on the findings of the SA or assumptions underlying the appraisal.
- 2.2.8 The modifications that involve the deletion of text from a policy and the introduction of revised wording have been considered to see if the changes have any implications for the SA, both in terms of the conclusions of the SA or the commentary accompanying relevant parts of the assessment.
- 2.2.9 Any modifications that involve the introduction of a new policy or site would be treated as significant, although no such instances in these MMs were identified.
- 2.2.10 Where a modification to a policy introduces an additional criterion, a judgement is made as to whether or not the modification would affect the previous appraisal and/or should be acknowledged in the appraisal. In such instances, significance is determined on a case by case basis and a comment made in **Appendix A** on whether or not the previous appraisal required updating and a broad indication of which SA objectives were affected.
- 2.2.11 There is one instance of a policy being proposed to be deleted, Policy LP3 relating to the presumption in favour of sustainable development. The deletion of the policy is noted but it is not considered to be significant because the presumption is set out in the NPPF. At this stage there is no indication that remaining policies will be re-numbered, so no adjustment has been made to the numbering of remaining policies.
- 2.2.12 The Local Plan has been updated to indicate which policies are strategic, as required by the NPPF. This change is not considered significant for the purposes of the SA as it does not influence the outcome of the appraisal of relevant policies.
- 2.2.13 Although not affecting the results of the assessment, there are instances of site names and/or site capacities changing and sites being deleted from the list of allocated sites and relevant tables and matrices have been amended to reflect any such changes to assist readers.

2.3 Sustainability Appraisal Framework

- 2.3.1 To support the appraisal of the draft Local Plan, a SA framework was developed. This contains a series of sustainability objectives and guide questions that reflect both the current socio-economic and environmental issues which may affect (or be affected by) the Local Plan and the objectives contained within other plans and programmes reviewed for their relevance to the SA and Local Plan. The objectives are accompanied by a set of guide questions and criteria that were used to assess options, policies and sites. The SA objectives are shown in **Table 2.1**.

Table 2.1 SA Objectives and Guide Questions

SA Objective	Guide Questions	
1. To ensure that housing stock meets the needs of all communities in the Borough	Q1a	Will it ensure all groups have access to decent, appropriate, well designed and affordable housing?
	Q1b	Will it ensure that all new development contributes to local distinctiveness and improves the local environment?
2. To improve health and reduce health inequalities	Q2a	Will it improve access for all to health facilities?
	Q2b	Will it provide sufficient areas of open space for all?
	Q2c	Will it encourage healthy and active lifestyles?
	Q2d	Will it encourage sporting activities?
	Q2e	Will it help reduce obesity
	Q2f	Will it avoid locating sensitive development where environmental circumstances could negatively impact on people's health?
3. To create sustainable communities	Q3a	Will it help achieve life-long learning?
	Q3b	Will it enable communities to influence the decisions that affect their neighbourhoods and quality of life?
	Q3c	Will it ensure people are not disadvantaged with regard to ethnicity, gender, age, disability, faith, sexuality, background or location?
	Q3d	Will it help to reduce crime and the fear of crime?
	Q3e	Will it help reduce deprivation in the Borough's most deprived areas?
	Q3f	Will it protect and enhance the vitality and viability of the Borough's settlements?
	Q3g	Will it contribute to regeneration initiatives?
4. To enhance and conserve the cultural heritage of the Borough	Q4a	Will it protect, enhance and manage the local character and accessibility of the landscape across the Borough?
	Q4b	Will it protect and enhance the character of the built environment?
	Q4c	Will it conserve and enhance heritage assets (designated and non-designated) and their setting?
	Q4d	Will it promote high quality urban and rural design?
5. To protect and enhance biodiversity	Q5a	Will it lead to habitat creation matching BAP priorities?
	Q5b	Will it maintain and enhance sites designated for their nature biodiversity interest?
6. Protect and manage the landscape of North East Derbyshire	Q6a	Will it reduce the amount of contaminated, derelict, degraded and under-used land?
	Q6b	Will it improve tranquillity?
	Q6c	Will it protect and improve the distinctive local character of the Borough (such as stone walls)?
	Q6d	Will it provide adequate green space and environmental capital (green infrastructure)?
7. To manage prudently the natural resources of the region including water, air quality, soil and minerals	Q7a	Will it lead to reduced consumption of materials and resources?
	Q7b	Will it reduce water consumption?
	Q7c	Will it exacerbate water abstraction levels?
	Q7d	Will it include energy efficiency measures?
	Q7e	Will it encourage energy production from sustainable sources?
	Q7f	Will it maintain and enhance soil quality?

SA Objective	Guide Questions	
8. Plan for the anticipated different levels of climate change	Q8a	Will it facilitate landscape change for climate change adaptation (e.g. by protecting key landscape and biodiversity features and improving links between them to reduce fragmentation)?
	Q8b	Will it be built outside of the floodplain and not exacerbate flooding in any way?
	Q8c	Will it reduce the risk of damage to property from storm events?
9. Minimise the Borough's contribution to climate change	Q9a	Will it lead to reduced greenhouse gas emissions?
	Q9b	Will it have a low or neutral carbon footprint?
10. Minimise the environmental impacts of waste and pollution	Q10a	Will it provide an increased variety and capacity of reuse and recycling facilities?
	Q10b	Will it reduce waste from construction?
	Q10c	Will it lead to improved water quality?
11. Develop a strong culture of enterprise and innovation	Q11a	Will it ensure that new employment sites are located in the more sustainable locations?
	Q11b	Will it promote environmental technology initiatives?
	Q11c	Will it help diversify the local economy?
	Q11d	Will it provide good quality, well paid employment opportunities that meet the needs of local people?
	Q11e	Will it help promote local procurement and recruitment?
	Q11f	Will it promote tourism?
	Q11g	Will it support rural diversification?
12. Improve the accessibility to jobs and services	Q12a	Will it ensure people are not disadvantaged with regard to ethnicity, gender, age, disability, faith, sexuality, background or location?
	Q12b	Will it improve local accessibility of employment, services and amenities?
	Q12c	Will it increase provision of local services and facilities and reduce centralisation?
	Q12d	Will it reduce car use?
	Q12e	Will it encourage use of public transport?

2.3.2 Policies, options and strategic sites in the draft Local Plan were appraised using matrices to identify likely significant effects on the SA objectives. A qualitative scoring system was adopted which is set out in **Table 2.2**.

Table 2.2 Scoring System for the Sustainability Appraisal

Score	Description	Symbol
Significant Positive Effect	The proposed option/policy contributes significantly to the achievement of the objective.	++
Minor Positive Effect	The proposed option/policy contributes to the achievement of the objective but not significantly.	+
Neutral	The proposed option/policy does not have any effect on the achievement of the objective	0
Minor Negative Effect	The proposed option/policy detracts from the achievement of the objective but not significantly.	-

Score	Description	Symbol
Significant Negative Effect	The proposed option/policy detracts significantly from the achievement of the objective.	--
No Relationship	There is no clear relationship between the proposed option/policy and the achievement of the objective, or the relationship is negligible.	~
Uncertain	The proposed option/policy has an uncertain relationship to the objective, or the relationship is dependent on the way in which the aspect is managed. In addition, insufficient information may be available to enable an appraisal to be made.	?
Mixed score	Note where a score is positive or negative but there is uncertainty hatching is used, e.g.	+/?

- 2.3.3 MMs screened in for appraisal have been appraised using the approach applied to the Local plan with the results of the SA updated to reflect any changes.

2.4 Difficulties Encountered in Compiling the Report

- 2.4.1 Section 4.4 of the SA Report set out uncertainties and assumptions in undertaking the SA. In terms of screening the MMs, the approach to determining as to whether or not a MM is significant or not for the purposes of the SA is set out in Section 2.2 of this report, with the results summarised in **Table 3.1**. A screening exercise is presented in **Appendix A** of this report. Professional judgement has been used to determine whether or not a MM should be considered significant and consultation on this report provides an opportunity for consultees to provide their opinions on such judgements.

3. Appraisal of Effects

3.1 Introduction

- 3.1.1 Section 3 of the SA Report (January 2019) identifies, describes and appraises the likely significant effects of each of the key stages of the Local Plan development. It documents the process of the selection and refinement of the preferred development option leading up to the submission of the draft plan. This is not repeated here.
- 3.1.2 This section summarises the findings of the review of the MMs to ensure that the sustainability implications of the 'screened in' modifications have been identified and evaluated and where appropriate, have been used to provide updates to the SA.

3.2 Identification of Potentially Significant Modifications

- 3.2.1 **Table 3.1** below identifies the MMs that are considered to be significant for the purposes of the SA. The results of the review of all of the MMs are set out in **Appendix A**.

Table 3.1 Summary of MMs to the Local Plan that are considered significant to the SA

Modification Reference	Policy/ Paragraph/Page	Proposed Modification	Why this change is considered significant for the SA
MM1	Contents Page	Insert revised contents page. See Associated Figures, Tables and Diagrams (Proposed Modifications) for the proposed modification.	The change to the contents page does not impact on the SA, e.g. there has been no re-ordering of the chapters that needs to be reflected in the SA Report. One policy (LP3) has been deleted and this is noted in the appropriate modification relating to that. Where there are specific changes that are significant for the purposes of the SA, e.g. amendments to Table 4 'Housing Allocations' these are referred to under the modification that they relate to.
MM3	Paragraph 1.3 (page 9)	There will be 44 <u>50</u> ha of land provided between 2018 and 2033 <u>2035</u> for new high-quality employment development so that together with existing employment areas, a range of jobs and training opportunities are easily accessible to those who need them. All this new development will be in areas with an established industrial character or areas of regeneration specifically designated for mixed use.	Yes – references to the amount of employment land to be provided and extension of the plan period to 2035 need to be updated in the SA Report. The change in the residual need for employment land is not considered to impact on the results of the SA, e.g. significant positive effects are already identified in relation to SA Objective 11 in relation to employment and the amendment simply reflects extension of the plan period to 2035.
MM4	Paragraph 1.20 (page 12)	Sites are made available for at least 4374 <u>4,080</u> homes between 2018 and 2033 <u>2035</u> to meet the Objectively Assessed Need (OAN), the majority of which are located within easy walking and cycling reach of the existing district and town centres. Some new housing development will be directed to areas suffering from deprivation to aid the regeneration of these communities. Some of this housing will need to be in well-designed, sensitive urban extensions on greenfield sites. Local centres and community facilities there will need to be improved. In addition, some housing is also concentrated around 'Local Service Centres'.	Yes – references to the number of homes provided and the plan period will need updating throughout the SA Report as appropriate. The revised number is not considered significant in terms of the findings of the SA, e.g. significant positive benefits are already identified in relation to SA Objective 1 on housing. The revised number reflects the LHN methodology. It is also noted under MM15 that the Local Plan can demonstrate a supply of 6,247 dwellings over the plan period against the minimum requirement of 4080 dwellings between 2018 and 2035.
MM5	Objective 2 (page 14)	S2 Provide sites for at least 4374 <u>4080</u> homes to be built between 2018 and 2033 <u>2035</u> to meet the housing requirement for Chesterfield borough	See comments at MM4
MM6	Objective S6 (page 14)	S6: Provide 44 <u>at least 50</u> ha of new employment land between 2018 and 2033 <u>2035</u> .	See comments at MM3
MM7	Paragraphs 2.2 to 2.6 and table 1	The MM includes the addition of the following text: <u>The Local Housing Need (LHN) methodology set out in the NPPF indicates a minimum housing need of 240 new dwellings per annum. No further adjustments</u>	Yes – the SA should be updated to reflect the revised annual target and that this reflects the approach in the LHN. The fact that no further adjustments to the figure are

Modification Reference	Policy/ Paragraph/Page	Proposed Modification	Why this change is considered significant for the SA
		<p>to this figure are required to account for unmet need in neighbouring areas or other demographic or economic factors.</p> <p>2.3. Between 2014-2033 2035, this equates to <u>a minimum housing requirement of 5035 4,080 new dwellings (240 dwellings per year).</u></p>	deemed necessary should also be reflected in the SA commentary.
MM8	Paragraph 2.8 (page 16)	2.8. This work concludes that 44 hectares of employment land are required between 2018-2033, split into B1 5.2 ha, B2 – 21 ha and B8 – 17.6 ha. <u>This equates to a minimum of 50ha across the Local Plan period of 2018 to 2035.</u> Chesterfield needs to be able to offer an appropriate range of employment sites, in terms of quantity, size and location. The quality of site provision is key, and the best employment sites must be protected.	See comments at MM3
MM12	Policy LP2	<p>LP2 Principles for Location of Development</p> <p>The MM deletes the requirement for development to be within 800m of an existing or proposed Local, District or Town Centre but includes criteria relating to accessibility (see Appendix A for full details of the MM).</p> <p>d) maximise provide <u>opportunities through their location for walking and cycling and the use of public transport (policy LP23) to access to a range of key services¹ via a safe, lit, convenient walking routes;</u></p> <p>e) <u>maximise opportunities through their location for cycling and the use of public transport to access a range of key services;</u></p> <p>New residential development will be expected to be within walking distance (800m) of an existing or proposed Local, District or Town Centre, via a safe, lit, convenient walking route, or demonstrate the ability to deliver appropriate provision on-site.</p> <p>¹DfT Accessibility Indicators:</p> <ul style="list-style-type: none"> • Employment centres • Primary schools • Secondary schools • Further Education institutions • GPs • Hospitals • Food stores • Town Centres 	Yes – update detailed appraisal matrix to remove reference to 800m threshold. The policy, as amended, promotes walkable neighbourhoods so no amendments to the outcome of the SA are identified.

Modification Reference	Policy/ Paragraph/Page	Proposed Modification	Why this change is considered significant for the SA
MM13	Policy LP3	Delete all of paragraph 2.18 and Policy LP3 and the associated heading.	Yes – all references to LP3 in the SA should be deleted. Deletion of the policy does not affect the overall conclusions of the SA, given that the policy mirrored the NPPF.
MM18	Table 4	See Associated Figures, Tables and Diagrams (Proposed Modifications) for the proposed modification.	Yes – the modifications to Table 4 on housing allocations need to be reflected in the SA, e.g. where a site name has been amended.
MM25	paragraphs 4.8, page 31	The 2018 Employment Land study recommended that Chesterfield Borough should provide approximately 44 ha of new land for Business and Industrial use between 2018 and 2033 in order to provide sufficient jobs for the borough's population and wider catchment. <u>This requirement figure has been extended to align with the plan period end date of 2035, which results in a total employment land requirement of 50 ha between 2018 and 2035.</u>	See comments at MM3.
MM30	Policy LP9	LP9 Vitality and Viability of Centres The proposed MM includes deletion of the following text relating to the provision of residential use in centres. See Appendix A for full details on the MM. Residential uses (C3) will normally only be permitted at first floor level and above (with the exception of suitable provision for access)	Yes – a minor positive effect was identified on the basis that LP9 made provision for housing. Whilst the policy as re-worded could still enable this, the change means that it is not explicit. The commentary to the SA should be updated to reflect this change.
MM45	Policy LP20	LP20 River Corridors The proposed modification protects biodiversity, ecological value and connectivity and ecological buffer strips (see Appendix A for full details).	Yes – a minor positive effect was identified in relation to Policy LP20 and SA Objective 5 on biodiversity. The proposed modification protects biodiversity, ecological value and connectivity and ecological buffer strips. A significant positive effect is identified in light of the modification and the SA should be updated to reflect this.
MM57	Policy SS6	SS6 Land at Dunston Allocation amended to 500 dwellings from 800 dwellings because 300 dwellings are already under construction (see Appendix A for full details).	Yes – SA matrix referred to provision of 800 dwellings on site and should be updated to reflect the revised figure. The revised figure of 500 dwellings still has a significant effect on SA Objective 1 'Housing' so no amendments to the assessment of the policy are considered necessary. In addition, the commentary to the SA could acknowledge the new criterion (iv) relating to mitigation to minimise adverse impacts on heritage assets and their settings and transport mitigation. A minor positive effect was identified in relation to SA Objective 4 'cultural heritage' and the

Modification Reference	Policy/ Paragraph/Page	Proposed Modification	Why this change is considered significant for the SA
			<p>proposed change provides further reassurance, however as the emphasis is on mitigation, rather than enhancement a minor positive effect (rather than a significant positive) is still considered appropriate. Policy LP22 'Historic Environment' encourages the enhancement of heritage assets and their setting wherever possible.</p> <p>A significant positive effect was identified previously in relation to SA Objective 9 'climate change' because the policy provided for walking and cycling within the site and the provision of a new local centre (which would help reduce the need to travel and associated greenhouse gas emissions). The proposed modification provides further reassurance in relation to transport mitigation for all users but does not affect the outcome of the appraisal.</p>
MM59	Policy SS7	<p>SS7 Chesterfield Railway Station</p> <p>The MM includes the addition of the following criteria (see Appendix A for full details)</p> <p><u>Appropriate assessment, evaluation and, if necessary, recording of archaeological remains</u></p> <p><u>Improved inclusive accessibility to Chesterfield Railway Station and within the masterplan/development framework area.</u></p> <p>Planning Permission will not be granted for development that would prevent the delivery of the above improvements.</p>	<p>Yes – the new criterion relating to the assessment, evaluation and, if necessary, recording of archaeological remains improves the performance of the policy against SA Objective 4 'Cultural heritage.' The SA should be updated to include a significant positive effect against the objective.</p>
MM66	Monitoring framework	Revised monitoring framework (see Appendix F for details).	<p>Yes – modifications to the monitoring framework need to be acknowledged in the SA and the extent to which they will help meet monitoring requirements for the Strategic Environmental Assessment reviewed.</p>
MM67	Monitoring framework	<p>Housing Trajectory</p> <p>See Appendices (Proposed Modifications) for the proposed modification.</p>	See comment at MM66
MM68	Monitoring framework	<p>Employment Trajectory</p> <p>See Appendices (Proposed Modifications) for the proposed modification.</p>	See comment at MM66

3.3 Plan Period

- 3.3.1 The Plan Period is proposed to be amended to cover the period 2018 to 2035, previously it was 2033. All references in the SA Report (January 2019) to the plan period should be taken as referring to the revised plan period of 2035. This addendum includes instances where the text has been updated. The change to the plan period does not have any impact on other aspects of the SA Report (January 2019) or the conclusions of the SA.

3.4 Strategic Objectives

- 3.4.1 Section 5.2 of the SA Report (January 2019) includes an exercise looking at the compatibility of the Local Plan's vision and strategic objectives.
- 3.4.2 The MMs include amendments to strategic objectives S2 and S6, reflecting the change to the plan period, minimum number of homes to be built over the plan period and the amount of housing land to be provided over the revised plan period.
- 3.4.3 These changes do not impact on the findings of the SA in relation to the compatibility of the vision and strategic objectives.
- 3.4.4 The Local Plan's strategic objectives are quoted at paragraph 5.2.9 of the SA Report and S2 and S6 should be amended as follows to reflect the MMs:
- *S2: Provide sites for at least ~~4,374~~ 4080 homes to be built between 2018 and ~~2033~~ 2035 to meet the housing requirement for Chesterfield Borough; and*
 - *S6: Provide at least ~~44-50~~ 50 ha of new employment land between 2016 and ~~2033~~ 2035.*

3.5 Revised Housing Number

- 3.5.1 In earlier iterations of the SA the Council identified three options relating to the quantum of new housing to be delivered in the Borough over the plan period. The options were as follows:
- Option 1 – Strategic Housing Market Assessment (SHMA) Objectively Assessed Need (OAN) 244 homes per annum plus an allowance for historic under delivery which equated to a total requirement of 270 homes per annum;
 - Option 2 - LEP aspirational growth 345 homes per annum; and
 - Option 3 - As per option 1 plus Reserve Sites (up to c1,260 dwellings) in order to provide additional flexibility to bring forward sites should growth be faster/greater than expected.
- 3.5.2 Section 5.3 and Table 5.2 of the SA Report (January 2019) summarised the significant environmental effects associated with each of the options and Appendix F of that Report provides an appraisal matrix for the options.
- 3.5.3 The MMs identify a minimum housing need figure of 4,080 dwellings (consistent with the Local Housing Need (LHN) methodology), this equates to 240 dwellings per annum over the period 2018 to 2035. This modification is required to make the Local Plan compliant with the NPPF and PPG. Whilst it is recognised that the revised figure of 240 dwellings per annum is close to the options previously appraised, Table 5.2 should be amended as follows to provide the re-assurance that the preferred housing number has been appraised.

Update to Table 5.2 Housing Growth Options Appraisal (Homes per Year, 2018-2035)

Option	1. Housing	2. Health	3. Sustainable Communities	4. Cultural Heritage	5. Biodiversity	6. Landscape	7. Natural Resources	8. Climate Change Adaptation	9. Climate Change Mitigation	10. Waste and Pollution	11. Enterprise and Innovation	12. Access to Jobs and Services
LHN (minimum 240 homes per annum)	++	++	++	?	?	?	-/?	0	-/?	-/?	0	+/?

3.5.4 The text at paragraph 5.3.9 of the SA Report (2019) summarises the effects of all of the options and should be updated as follows:

"Adopting the LHN (minimum 240 homes per annum) as the minimum housing requirement will make a significant positive contribution towards SA objectives 1 'Housing' and 2 'Health' as there are benefits associated with good quality affordable housing. It could also make a significant contribution to SA objective 3 'Sustainable Communities' by helping to support new facilities and services and help deliver them. As with other options uncertainties are identified in relation to natural resources (7), climate change mitigation (9) and waste and pollution (10). This is a minimum figure but the SA has assessed a range of options, which have considered the potential effects associated with a higher level of housing provision."

3.5.5 Appendix F of the SA Report (2019) has been updated to include an appraisal of an option based on meeting the minimum housing target set out in the LHN. The updated matrix is provided at **Appendix B**.

3.5.6 Paragraph 5.3.10 of the SA Report should be deleted and replaced with the following text:

"At the time of submission, the Council's preferred option was Option 3 above because it provided greater flexibility and was therefore preferred over Option 1. Option 2 was rejected because it would require additional greenfield releases and was not considered by the Council to be realistic or deliverable, it was however assessed on a precautionary basis to ensure compliance with the SEA Directive. The Main Modifications align the housing requirement with the LHN methodology, identifying a minimum housing need of 240 dwellings per annum and a minimum requirement over the plan period of 4,080 new dwellings. The Main Modifications state that there is no requirement for further adjustment to this figure to meet unmet need in neighbouring areas or other demographic or economic factors. The Council's Preferred Option is to align the housing requirement with the LHN methodology as this complies with the NPPF and PPG, identifying a minimum housing need of 240 dwellings per annum and a minimum requirement over the plan period of 4,080 new dwellings, consistent with the Main Modification. Over the whole plan period the Council can demonstrate a supply of 6,247 dwellings to provide flexibility over the plan period."

3.6 Revised Employment Land Provision

3.6.1 The Council identified three options relating to the quantum of new employment land to be delivered in the Borough over the plan period. The options were as follows:

- Option 1 - 77 hectares meeting identified need;
- Option 2 - 83 hectares LEP aspirational growth scenario A; and
- Option 3 - 90 hectares LEP aspirational growth scenario B.

3.6.2 Section 5.4 of the SA Report (January 2019) summarised the significant effects associated with each of the options and Appendix G of that report provides an appraisal matrix for the options.

3.6.3 Paragraph 5.48 of the SA Report (January 2019) sets out the Preferred Option. This should be deleted and replaced with the following text:

"Option 2 was the Council's preferred at the time of submitting the Local Plan because it provided some flexibility and choice of sites. It may also stimulate competition in the local market, encouraging sites to be brought forward. The Council rejected Option 1 because it does not provide the necessary flexibility and choice required. Option 3 was rejected because it could lead to competition with housing sites and also questions over the ability to deliver this level of growth within the plan period. In preparing the submission version of the Local Plan the Council reviewed the position in respect of existing completions and commitments and identified a residual need for 44ha of employment land over the plan period. This provision is broadly compatible with Option 2, which reflects gross need, i.e. not allowing for completions and commitments. The Main Modifications identify provision for 50ha of employment land, but this simply reflects the change to the plan period to 2035 (which would have affected all options equally). The change in the amount of land to be provided is not therefore significant for the purposes of the SA, however all references to 44ha of employment land in the SA Report should be taken as referring to 50ha."

3.7 Options for Housing Sites

3.7.1 The Council considered a number of smaller sites that could provide housing. The sites considered and significant environmental effects associated with them are summarised in Section 5.7 of the SA Report (January 2019). More detail on the results for each site is provided at Appendix J of that report. The MMs include changes to the names of a number of sites and / or changes to the site area and number of homes a site could accommodate (MM18).

3.7.2 The SA Addendum (June 2019) confirmed that land west of Duckmanton would also be taken forward as an allocation (site reference 247). The updated SA matrix for the site based on the revised site area of 23.39 ha is included at **Appendix E**. The Council concluded that the extent of the allocation should be limited to the western extent of a current planning application, based on submitted evidence on landscape impact, however the high-level nature of the SA means that the scoring for the site remains the same as the previous assessment. In the case of landscape (SA objective 6), the site still scores significant negative (pre-mitigation) because the site is over 5ha and scores amber in the LAA against landscape and local character. Scoring against all other objectives is the same as the previous assessment of the site based on the larger site area.

3.7.3 **Table 5.7** of the SA Report has been updated below to reflect these changes. The appraisal matrices for individual sites have also been updated as outlined above (see **Appendix C** of this Addendum). There are no impacts on the conclusions of the SA.

Table 5.7 Summary of SA Results for Housing Site Options

Site ref	Site name	Site Area	1 score	2 score	3 score	4 score	5 score	6 score	7 score	8 score	9 score	10 score	11 score	12 score	Summary Comment
14	Hady Lane (Land around 146-152), Hady	1.50	+	+	0	0	0	0	0	++	0	0	0	0	This is a small (1.5 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the Coalfield Village Farmlands landscape character area. It is within open land but close to existing development and existing vegetation and topography should reduce any impact. The site has an extant permission where mitigation has been accepted as feasible. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and a relatively low density will permit a layout that avoids surface water flood risk area.

Site ref	Site name	Site Area	1 score	2 score	3 score	4 score	5 score	6 score	7 score	8 score	9 score	10 score	11 score	12 score	Summary Comment
15	Brampton Manor, Old Road, Chesterfield S40 1HX	1.80	+	+	0	-	0	+	0	++		0	0	0	This is a small (1.8 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. Listed buildings are present within the site: Manor House Hall Grade II Listed, Manor House Barn Grade II, Manor House Gazebo II*. The Cruck Beam present in the barn is a scheduled ancient monument. However, given the extent of the site some development is likely to be feasible with mitigation and might sustain the listed buildings on the property. However, as the site does not have detailed permission it is considered that without further evidence development of the site could have a significant negative effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and has a very low risk of surface water flooding.
16	Brockwell Court (Former), Cheedale Avenue, Newbold	0.74	+	+	0	?	0	+	0	-	0	0	0	0	This is a small (0.74 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as part of site is within 800m of a GP, and the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site is within 500m of some listed buildings (including Nags Head, Eyre Chapel and 39 & 41 Newbold Road). Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there is a small area of medium surface water flood risk on site.

Site ref	Site name	Site Area	1 score	2 score	3 score	4 score	5 score	6 score	7 score	8 score	9 score	10 score	11 score	12 score	Summary Comment
17	Catherine Street Garages Court Bank Street, and Catherine Street Chesterfield	0.25 7	+	++	0	?	0	+	0	++	0	0	0	0	This is a small (0.257 hectare) previously developed site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) the site is within 800m of a GP surgery and leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play. The site is adjacent to a conservation area and within 500m of a number of listed buildings and conservation assets. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and at low risk of surface water flooding.
18	Land at Duell Court (Land at), Station Road, Barrow Hill	1.43 18	+	+	+	?	0	+	0	--	0	0	0	0	This is a small (1.43 18 hectare) previously developed site in a rural area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site intersects the Barrow Hill conservation area, is within 500m of a listed building and sits adjacent to a site that appears on the draft Local List. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the 'Estate Farmlands' landscape character area albeit within a settlement and redevelopment of an existing residential area. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there is some surface water flood risk.

Site ref	Site name	Site Area	1 score	2 score	3 score	4 score	5 score	6 score	7 score	8 score	9 score	10 score	11 score	12 score	Summary Comment
19	Calow Lane (Land to the South East of), Chesterfield	10.52	++	+	0	0	0	-	0	-	0	0	0	0	This is a large (10.52 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of a recreational open space and therefore provides opportunities for exercise, sport and play. It is within 2km buffer of 2 GPs (St Philips Drive and Hasland Medical Centre) that are at capacity. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the Coalfield Village Farmlands landscape character area. It is a large site away from existing settlements in a landscape character type which is vulnerable to such a scale and location of development. No information has been submitted to demonstrate that the landscape and visual impact of development could be mitigated therefore there could be a significant negative effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there is an area of Flood Zone 3a and an area at high risk of surface water flooding.
23	Heaton Court (Former), Meynell Close, Chesterfield (Brampton)	0.34	+	+	0	?	0	+	0	--	0	0	0	0	This is a small (0.34 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as part of site is within 800m of a GP, and the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site is within 500m of a listed building, scheduled monument and conservation area. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a significant negative effect on climate change as there is surface water flood risk on site.

32	Miller Avenue Mastin Moor	0.41	+	+	+	0	0	0	0	++	0	0	0	0	This is a small (0.41 hectare) previously developed site in a rural area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of a recreational open space and therefore provides opportunities for exercise, sport and play. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), although very small, the site is an extension of an existing settlement into open countryside and would require a landscape character and visual amenity assessment. It is considered to have a neutral effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and at low risk of surface water flooding.
35	Staveley Canal Basin Eckington Road Staveley	2.99 3.22	+	++	0	?	0	0	0	-	0	0	0	0	This is a small (2.99 3.22 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) the site is within 800m of a GP surgery and leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play. The site is within 500m of a listed building and conservation area, with potential impact on setting of canal. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls partly within the urban area and partly within the Riverside Meadows type. The site has the potential in terms of location and scale to have an adverse effect but mitigation is likely to be feasible therefore it is considered to have a neutral effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there is some flood risk although the canal infrastructure should reduce risk to an appropriate level for vulnerable uses.

38	Edward Street, Middlecroft Staveley	0.41	+	++	0	0	0	+	0	-	0	0	0	0	This is a small (0.41 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) the site is within 800m of a GP surgery and leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there is some low to medium surface water flood risk in the North West corner of the site.
47	Manor House Farm 118 The Green Hasland Chesterfield S41 0JU	0.40	+	++	0	?	0	0	0	++	0	0	0	0	This is a small (0.40 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) the site is within 800m of a GP surgery and leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play. The site is adjacent to the curtilage of a listed building. Development could affect the setting especially if access is taken from The Green. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site is within the urban area but does encroach on open land therefore it is considered to have a neutral effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and at low risk of surface water flooding.

53	Allotment Gardens Campbell Drive, Barrow Hill,	1.96	+	+	+	?	0	0	0	++	0	0	0	0	This is a small (1.96 hectare) greenfield site in a rural area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. Barrow Hill Conservation Area is immediately to the east of the site, which is also within a 500m buffer zone of a listed building. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the 'Estate Farmlands' landscape character area and is at the edge of an existing development. The site is not within an area identified as sensitive in terms of landscape character, therefore the effect is considered to be neutral. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and has a very low risk of surface water flooding.
63	Walton Works (Former) Factory Street Chesterfield, Brampton	3.6	++	++	0	--	0	+	0	-	0	0	0	0	This is a large (3.60 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of a leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play, and the majority of the site is within 800m of a GP. The site contains a listed building which is at risk. The site's development could protect the listed building and enhance its setting, however, a detailed proposal has yet to be accepted on the site. The site is also partly within a conservation area and wholly within its 500m boundary. The effect on heritage (Objective 4) is considered to be potentially significant negative. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there are areas of flood risk on site although an adequate FRA was undertaken for a planning application.

Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site lies within a Regeneration Priority Area and therefore has potential for positive effects on Objective 3. The site is within 500m of a listed building, and without further information the effect on Objective 4 is uncertain. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as is wholly within flood zone 1 with low risk of surface water flooding.

Site ref	Site name	Site Area	1 score	2 score	3 score	4 score	5 score	6 score	7 score	8 score	9 score	10 score	11 score	12 score	Summary Comment
326	Varley Park, Staveley Road, <u>Poolsbrook</u>	65.16	++	+	+	0	0	-	0	++	0	0	0	0	This is a large (65.16 hectare) greenfield site in the rural area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of recreational open space and therefore provides opportunities for exercise, sport and play. The site lies within a Regeneration Priority Area and therefore has potential for positive effects on Objective 3. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site is open space adjacent to a number of properties within the Estate Farmlands landscape character type. There is likely to be a negative effect on Objective 6. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 with low risk of surface water flooding.
328	Whitecotes Recreation Ground, off Hazel Drive	1.68	+	++	0	0	0	+	0	--	0	0	0	0	This is a small (1.68 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) as the site is within 800 metres of a GP and recreational open space and therefore provides opportunities for exercise, sport and play. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site is within the urban area and its development is considered to have a positive effect. The site is within 500m of an Air Quality Management Area and is considered to have a negative effect on Objective 7. Development of the site would have a significant negative effect on climate change if there is some high surface water flood risk.

30 & 401	Inkersall Road (Land at west of Staveley (Site AInkersall	22.7 856	++	+	0	?	0	-	0	-	0	0	0	0	<p>This is a large (22.78 56 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. Part of the site is within 800m of a GP. The site is within 500m of a Listed Building (Grade II Inkersall Farmhouse). Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site is a large extension into open farmland. The site is within the Coalfield Landscape Character Area and within the Estate Farmlands landscape character type. An adverse impact on landscape character is likely and therefore there could be a negative effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a significant negative effect on climate change as there is an area of high risk of surface water flooding.</p>

Reason for Selecting and Rejecting Housing Site Options

3.7.4 **Table 5.8** of the SA Report set out the reasons for selecting and rejecting sites. This has been updated below to reflect changes to site names and / or any revision to the number of homes that could be provided on site as well as any changes on the decision to allocate a site since the SA Report was prepared.

Table 5.8 Reason for Selecting and Rejecting Housing Site Options

Address	Housing Potential Capacity	Allocation	Policy Justification
Hady Lane (Land around 146-152), Hady	10	No	The site is not previously developed land, is not within walking distance of a centre and does not deliver any identified regeneration benefits. Whilst it is recognised that there is an outstanding outline planning permission that can be implemented, the site does not accord with the spatial strategy of concentration and regeneration set out in submission policies LP1 and LP2 and is not considered suitable for allocation for development.
Brampton Manor, Old Road, Chesterfield S40 1HX	10	No	Parts of the site contains sports facilities. Insufficient evidence is available to conclude that the site is surplus to open space requirements to satisfy the test set out in paragraph 97 of the NPPF. The site should not be allocated as residential. This would not prevent those parts of the site not in sports use being developed through planning applications.
Brockwell Court (Former), Cheedale Avenue, Newbold	20	No	The site is already being brought forward for development; no allocation is required
Catherine Street Garages Court Bank Street, and Catherine Street Chesterfield	12 10	Yes	The site is previously developed land within walking distance of Chatsworth Road District Centre and is most appropriate for residential development given the residential character around the site and its accessible location. Local Authority ownership ensures the site is available and deliverable. There is no conflict with other proposed policies or allocations of the Local Plan. Development of the site for housing would support the 'concentration and regeneration' aspects of the Spatial Strategy set out in submission policies LP1 and LP2. The site should be allocated for residential development.
Land at Duewell Court (land at), Station Road, Barrow Hill	35	Yes	The site is previously developed land within a regeneration priority area and is suitable in principle for a residential (housing) development. The site has no significant environmental or physical constraints. Local Authority ownership ensures the site is available and deliverable. There is no conflict with other proposed policies or allocations of the Local Plan. The site is located within an area identified as a Regeneration Priority area in the Submission Local Plan. Development of the site for housing would support the 'regeneration' aspect of the Spatial Strategy. The site should be allocated for residential development.
Calow Lane (Land to the South East of), Chesterfield	200	No	The site is not previously developed land, and the majority of the site is not within walking distance of a centre and does not deliver any identified regeneration benefits. The scale of the site would not deliver an opportunity for local retail provision on site. Whilst recognising that the site is at the margins of the 'concentration' aspect of the spatial strategy, there are outstanding concerns over the impact on landscape. Capacity in local schools is limited with no realistic prospect of physical expansion. When compared with similar greenfield sites that have a development partner on board, better access

Address	Housing Potential Capacity	Allocation	Policy Justification
			to a centre or the scale to support internal provision, the site does not accord with the spatial strategy of concentration and regeneration set out in submission policies LP1 and LP2 and it is not necessary to allocate the site for residential development in spite of these issues in order to meet the OAN for housing set out in the submission version of the plan.
Heaton Court (Former), Meynell Close, Chesterfield Brampton	1510	Yes	The site is previously developed land within walking distance of a centre and therefore accords with the concentration and regeneration approach set out in submission policies LP1 and LP2. There is no conflict with other proposed policies or allocations of the Local Plan. Local Authority ownership ensures the site is available and deliverable and it forms part of the council Housing programme for 2017-2022. There are no constraints that cannot be mitigated. The site should be allocated for residential development.
KM Office Furniture (Former) Pottery Lane West Whittington Moor Chesterfield	0	No	Given the location on the edge of a District Centre the site has potential for a range of uses, including commercial, retail, employment use and possibly for some housing and it would be most appropriate to retain flexibility in the Local Plan for a range of land uses rather than allocate for purely housing or employment use. Such an approach should maximise the opportunities for regeneration of the site. The site should remain unallocated in the Local Plan.
Land North of Chesterfield Road (Land North of), Staveley	14	Yes	The site is previously developed land within walking distance of a centre and therefore accords with the concentration and regeneration approach set out in submission policies LP1 and LP2. There is no conflict with other proposed policies or allocations of the Local Plan. There are no constraints that cannot be mitigated. The site should be allocated for residential development.
Inkersall Road (Land west of), Staveley (Site A)	200	Yes	The site is greenfield land, the majority of which is within walking distance of Inkersall Local centre and local schools. With the borough having insufficient previously developed land to meet the full OAN, the site has the potential to be developed to meet the spatial strategy of concentration in combination with LAA site 401. The site should be allocated for residential developments.
Miller Avenue Mastin Moor	14	Yes	The site is previously developed land within a regeneration priority area and is suitable in principle for a residential (housing) development despite being currently distant from existing services and facilities. The site has no significant environmental or physical constraints. Local Authority ownership ensures the site is available and deliverable. The site is subject to discussion with landowners of other sites in Mastin Moor as a potential off-site affordable housing contribution although the council's housing services have confirmed that the site would still be developed as such if this proposal does not come forwards There is no conflict with other proposed policies or allocations of the Local Plan. Development of the site for housing would support the 'regeneration' aspect of the Spatial Strategy set out in LP1 and LP2. The site should be allocated for residential development.
Staveley Canal Basin Eckington Road Staveley	3690	Yes	The site has been laid out as a canal basin as part of the restoration of Chesterfield Canal to provide future provision for visiting boats. Development of the site for a mix of uses including residential and commercial would support the ongoing regeneration and sustainability of the canal which is a key objective of the Local Plan (Strategic Objective S12). Residential development in this location would be within

Address	Housing Potential Capacity	Allocation	Policy Justification
			walking distance of Staveley Town Centre and therefore would accord with the Spatial Strategy of Concentration and Regeneration set out in Local Plan policies LP1 and LP2.
Edward Street, Middlecroft Staveley	12	No	The site is in existing residential use and allocation for residential development would not be necessary in order to bring forward a planning application for replacement dwellings.
Manor House Farm 118 The Green Hasland Chesterfield S41 0JU	10	Yes No	Site is within walking distance of a centre but does encroach onto open land. The impact upon the adjacent listed building will have to be considered under submission policy LP22 but suitable mitigation is considered feasible. There is no conflict with other proposed policies or allocations of the Local Plan. Allocation of the site would support the 'concentration' aspect of the Spatial Strategy set out in submission policies LP1 and LP2. <u>Following further consideration of the heritage impacts of the scheme through the Heritage Impact Assessment process, it is clear that the potential capacity of the site is significantly constrained and is not likely to meet the five dwelling minimum threshold for allocation in the Local Plan. The site has therefore been removed from the Local Plan on the basis that it could still be brought forward as a windfall site via the normal planning application process, provided the heritage issues can be addressed.</u>
Allotment Gardens Campbell Drive, Barrow Hill,	53	No	The site is not previously developed land. There is insufficient evidence to demonstrate that the site is surplus to requirements as required by paragraph 97 of the NPPF.
Walton Works (Former) Factory Street Chesterfield <u>Brampton</u>	150	Yes	The site is previously developed land within walking distance of Chatsworth Road District Centre. The site includes a Grade II* listed mill, redevelopment for residential use would support the preservation and restoration of the listed building, enhancing the borough's historic environment in support of objective S8 and submission policy LP22. There is potential for some commercial development of the site as part of a mix of uses. The site contains areas of flood zone 2; development of the site would accord with the approach to redevelopment of previously developed land flood risk set out in proposed submission policy LP14 (i to iv) and there is scope within the site to provide adequate flood mitigation measures. The site should be allocated for residential development in accordance with the spatial strategy of 'concentration and regeneration' as set out in submission policies LP1 and LP2 with the provision that a mix of uses is allowed for in submission policy SS2 (Chatsworth Road Corridor).
Boythorpe Works (Former) Goytside Road Chesterfield	135	No Yes	The site is previously developed land with employment use to east and west. The site would continue to be suitable for employment development <u>and was allocated for employment land.</u>
Hady Hill (Land at)	18	No	Greenfield site not within walking distance of a centre. Development of the site would be incompatible with the spatial strategy of concentration and regeneration.
Ashbrooke Centre (Former) Cuttholme Road Chesterfield <u>Loundsley Green</u>	209	Yes	The site is previously developed land within walking distance of a centre and therefore accords with the concentration and regeneration approach set out in submission policies LP1 and LP2. There is no conflict with other proposed policies or allocations of the Local Plan. There are no constraints that

Address	Housing Potential Capacity	Allocation	Policy Justification
			cannot be mitigated. The site should be allocated for residential development.
Allen & Orr Timber Yard Marsden Street Saltergate Chesterfield	39	Yes	The site is previously developed land within walking distance of Chesterfield Town Centre. The current occupier is intending to move to an alternative site. Development of the site for residential purposes would replace a non-conforming use with one more compatible with surrounding uses and listed buildings and would be in line with the 'concentration and Regeneration' requirements of the Spatial Strategy as set out in submission policies LP1 and LP2.
Swaddale Avenue Allotments (Former) Swaddale Avenue (Land to the west of) Tapton	21	Yes	Whilst not within 800m of a centre, the site <u>is within 800m of an out of centre store providing for day to day needs and in an otherwise accessible location with frequent bus routes and connections to strategic walking and cycling network. The site has an extent planning permission for residential development (which although this has lapsed it demonstrated potential solutions to the site-specific constraints), it has been cleared and is considered suitable.</u>
Goldwell Rooms (Former) and 6 Ashgate Road Chesterfield**	2570	Yes	The site is previously developed land within walking distance of Chesterfield Town Centre, in temporary use for a surface car park. The site has been the subject of a planning brief for residential development and has now been disposed of to a developer and is the subject of a planning application and pre-application discussions for a further application. The site meets the spatial strategy requirements of 'concentration and regeneration' and should be allocated for residential development.
Adult Training Centre (Former) Ringwood Road Hollingwood	37	No	The site has now been substantially completed for housing under permission CHE/15/00838/REM and there would be no need to continue to safeguard as a housing allocation. The site is considered under the committed developments contributing to housing supply in the submission plan.
Bent Lane Staveley	140	Yes	The site is within walking distance of a centre. The site is a greenfield site but, in the absence of sufficient previously developed land to meet to full OAN within the plan period is considered suitable for development. Part of the site is in an area of high flood risk. However, the site is of sufficient scale to allow development to avoid this part of the site. In terms of application of the flood risk sequential test, there are no alternative greenfield sites at lower flood risk, <u>however, following comments from the Environment Agency, the developable site area has been reduced to avoid areas at flood risk.</u> In terms of application of the exceptions test, a) the site delivers wider sustainability benefits in terms of housing to meet the OAN of the borough on a site that meets the council's spatial strategy of concentrating development within walking distance of centres and; b) the scale of the site allows sufficient space for a scheme to be designed that would be safe for its lifetime, without increasing flood risk elsewhere.
Poultry Farm (Former) Manor Road Brimington	3126	Yes	Although the site is not within walking distance of a centre, it is within walking distance of other facilities including a primary school and facilities in Calow in North East Derbyshire. The site is previously developed land and surrounded by residential development. Allocation and development would remove a non-conforming use that conflicts with the amenity of existing residents. Allocation of

Address	Housing Potential Capacity	Allocation	Policy Justification
			the site would meet the regeneration requirement of the Spatial Strategy set out in submission policies LP1 and LP2.
Inkersall Social Club Inkersall Green	16	No	The site is within 800m of a centre, is previously developed and is not required to be retained in its current community use. Allocation of the site would meet the concentration and regeneration requirement of the Spatial Strategy set out in submission policies LP1 and LP2. However, there is little evidence of the site being brought forwards since planning permission was granted in 2010. The lack of an allocation would not prevent the site being brought forward through a planning application. There is therefore no benefit to allocating the site for residential purposes.
North East Derbyshire District Council Offices (Former) Saltergate Chesterfield	29	No	The site is previously developed land within walking distance of Chesterfield Town Centre and is subject to a pending application for extra care accommodation and pre-application discussions on commercial use. Given the town centre location the site would be suitable for a range of uses including both commercial and residential and would be best left unallocated for a specific use but covered by the Chesterfield Town Centre Policy (SS1)
Linacre Road, <u>Holme Hall</u>	300	Yes	Holme Hall is identified as a Regeneration Priority Area in the submission Local Plan on the basis of the results of the Indices of Multiple Deprivation. The site is within 800m of a centre and allocation of the site would meet the concentration and regeneration requirement of the Spatial Strategy set out in submission policies LP1 and LP2.
Elm Street, (Land at) Hollingwood, Brimington,	23	Yes	The site is a previously developed land. The site is neglected and in need of regeneration. It is within walking distance of Brimington Local Service Centre. The site would meet the Spatial Strategy requirements of 'concentration and regeneration' and should be allocated for residential development.
Sycamore Road (land at), Hollingwood, Brimington	18	Yes	The site is a combination of previously developed land and privately owned open space which is considered surplus. The site is neglected and in need of regeneration. It is within walking distance of Brimington Local Service Centre. The site would meet the Spatial Strategy requirements of 'concentration and regeneration' and should be allocated for residential development.
Derwent House HOP Ulverston Road Chesterfield-Newbold S41 8EW	17	Yes	The site is previously developed land within walking distance of a centre and therefore accords with the concentration and regeneration approach set out in submission policies LP1 and LP2. There is no conflict with other proposed policies or allocations of the Local Plan. There are no constraints that cannot be mitigated. The site should be allocated for residential development.
Red House HOP & Spire Lodge Sheffield Road Chesterfield S41 7JH	25	Yes	The site is previously developed land within walking distance of a centre and meets the Spatial Strategy objectives of 'Consultation and Regeneration'
Ash Glen Nursery (Former) Sheffield Road Unstone	30	Yes	The site is previously developed land, historically allocated for employment use. The site is not considered to be attractive to employment users compared to alternative sites and its loss from the employment land supply would not result in a quantitative or qualitative deficiency. Although the site is not within walking distance of a centre, as previously developed land its allocation for residential development would be in

Address	Housing Potential Capacity	Allocation	Policy Justification
			line with the 'regeneration' aspect of the spatial strategy as set out in submission policies LP1 and LP2.
Listers Car Sales (Former) Sheffield Road Unstone	38	<u>Yes</u> <u>No</u>	The site is previously developed land, historically allocated for employment use. The site is not considered to be attractive to employment users compared to alternative sites and its loss from the employment land supply would not result in a quantitative or qualitative deficiency. Although the site is not within walking distance of a centre, as previously developed land its allocation for residential development would be in line with the 'regeneration' aspect of the spatial strategy as set out in submission policies LP1 and LP2. <u>The site is currently occupied by a number of active businesses and the landowner has asked that the site be withdrawn from consideration as a housing site. The site is no longer considered to be 'available' for residential development due to the lack of a willing landowner. It therefore no longer meets the tests set out in the council's Land Availability Assessment methodology and has been withdrawn as an allocation in the local plan.</u>
Boat Sales (Former) Sheffield Road Unstone	4850	Yes	The site is previously developed land, historically allocated for employment use. The site is not considered to be attractive to employment users compared to alternative sites and its loss from the employment land supply would not result in a quantitative or qualitative deficiency. Although the site is not within walking distance of a centre, as previously developed land its allocation for residential development would be in line with the 'regeneration' aspect of the spatial strategy as set out in submission policies LP1 and LP2.
Garage Site Barker Lane	10	No	The site has now been developed
Walton Hospital (land at) Whitecotes Lane Chesterfield <u>Walton</u>	90	Yes	The site is previously developed land within walking distance of a centre. Allocation for residential development would be in accordance with the spatial strategy of 'concentration and regeneration' set out in submission policies LP1 and LP2.
Walton Hospital (land at) Harehill Road <u>Walton</u>	60	Yes	The site is previously developed land within walking distance of a centre. Allocation for residential development would be in accordance with the spatial strategy of 'concentration and regeneration' set out in submission policies LP1 and LP2.
ATS Euromaster Garage Sheffield Road Whittington Moor	5	No	The site is in the heart of the Whittington Moor District Centre. Allocation as part of the centre would not preclude alternative development provided retail policies of the NPPF and Local Plan are applied. Allocate as district centre.
Hollythorpe Close (Land off), <u>Hasland</u>	14	Yes	The site is within walking distance of Hasland Local Service Centre. Although previously identified as POS the site has been used as open storage for the adjacent depot and does not serve a POS function and has been identified for disposal. Development of the site for housing would support the 'concentration and regeneration' aspects of the Spatial Strategy set out in submission policies LP1 and LP2. The site should be allocated for residential development.
Land off The Grove, Poolsbrook (Southern site)	24	<u>No</u> <u>Yes</u>	The site is not within walking distance of a local centre but it is within an identified Regeneration Priority Area. Planning permission has been granted for the development of this and the adjacent site (LAA reference 326) for residential development for 175 dwellings. The permission is subject to a

Address	Housing Potential Capacity	Allocation	Policy Justification
			S106 agreement to deliver regeneration benefits including replacement planting and habitat creation to offset the loss of open space. The development of this site would secure regeneration benefits including supporting the viability of the local primary school and convenience retail. however The site is only considered suitable if developed in conjunction with part of H31 Varley Park. This is not feasible as H31 has a full permission.
White Bank Close (land at), <u>Hasland</u>	<u>9</u> 15	Yes	The site is within walking distance of a centre and therefore accords with the concentration and regeneration approach set out in submission policies LP1 and LP2. The site has been accepted as surplus to POS requirements and a planning brief is in place for the development of the site. There are no constraints that cannot be mitigated. The site should be allocated for residential development.
Extension to Pondwell Drive, Brimington	55	No	Greenfield site. The site would be within walking distance of the centre of Brimington. The site would conflict with the proposed Hollingwood/Ringwood Strategic Gap (SG2) and there are significant concerns over impact on landscape character.
Bevan Drive (Land off), Inkersall Green (Northedge)	103	No	The site is not previously developed land but is within walking distance of a centre. It does not deliver any identified regeneration benefits. The site clashes with extent of the proposed Ringwood and Hollingwood Strategic Gap (SG2). Whilst it is recognised that there was an outline planning permission, this was permitted in the absence of a five year supply of deliverable housing sites and has subsequently lapsed. The site does not accord with the spatial strategy of concentration and regeneration set out in submission policies LP1 and LP2 and is not considered suitable for allocation for development.
East of Manor Avenue, Brimington	148	No	Greenfield site. The site would be within walking distance of the centre of Brimington. The site would conflict with the proposed Hollingwood/Ringwood Strategic Gap (SG2) and there are significant concerns over impact on landscape character.
Land adjacent Rectory Road (<u>Land adjacent</u>), Duckmanton	<u>33-55</u>	Yes	The site is within the Duckmanton Regeneration Priority Area. Outline planning permission has been granted and reserved matters approval submitted (30/11/2018) with a developer attached.
<u>Tom Lane (Land South of) West of Rectory Road, Duckmanton</u>	<u>275</u>	<u>Yes</u>	<u>The site is within the Duckmanton Regeneration Priority Area. Although it would not be within walking distance of a centre, residential development would support the viability of local facilities including neighbourhood retail and primary school. The site has the potential to have a significant impact on the character of the landscape. Allocation for housing would support the 'regeneration' aspect of the Spatial Strategy as set out in policies LP1 and LP2, but the extent of the allocation should be limited to the western extent of a current planning application, based on submitted evidence on landscape impact.</u>
The Conservatory Centre (Land at) Hazelhurst Lane, Stonegravels, Chesterfield	9	No	The site has planning permission and is included as a commitment
Land adj 222 High Street New Whittington Chesterfield	6	No	This is a greenfield site on the edge of the urban area. Isolated development of this location would form an incongruous form of ribbon development.

Address	Housing Potential Capacity	Allocation	Policy Justification
Former Devonshire Cottages Barrow Hill	50	No	The site is part of the wider Staveley and Rother Valley Regeneration area. There is a clear regeneration need for the strategic allocation of the site to ensure the comprehensive approach to regeneration and delivery of critical infrastructure, including roads, a primary school and new local centre to support regeneration of the site. A masterplan for the regeneration of this site (and adjacent LAA sites 311 and 312) has been in preparation since 2009 in consultation with landowners and is the subject of a current outline planning application. Although delivery of the site is expected to extend beyond the plan period, the need for a comprehensive approach and the preparation of the site and infrastructure mean that the site should be allocated as a part of a Strategic Site in the submission Local Plan.
Troughbrook Road (Land off), {Pondhouse Farm} Troughbrook Road Hollingwood Chesterfield S43 2JP	2023	Yes	The site is predominantly previously developed land within walking distance of a centre. However, part of the site is not previously developed and contains a UK BAP Priority Habitat of Traditional Orchard. There is also semi-improved grassland and tall ruderal vegetation within the site. There is a conflict with the extent of the proposed Ringwood and Hollingwood Strategic Gap (SG2). The site should be allocated for residential development on the basis of a revised boundary that is limited to the previously developed land that is outside the Strategic Gap and would accord with the spatial strategy of concentration and regeneration set out in submission policies LP1 and LP2.
Pump House Farm Woodthorpe	9	No	This site forms part of the wider Mastin Moor Regeneration Priority Area. However, access to the site is limited and reliant upon improvements being brought forward through the redevelopment of the wider site. If these are delivered the potential for additional residential development can be adequately explored through the development management process
Edale Road (garage court), Mastin Moor	6	Yes	The site is predominantly previously developed land (with a small portion of amenity open space) within a regeneration priority area and is suitable in principle for a residential (housing) development despite being currently distant from existing services and facilities. The site has no significant environmental or physical constraints. Local Authority ownership ensure the site is available and deliverable. There is no conflict with other proposed policies or allocations of the Local Plan. Development of the site for housing would support the 'regeneration' aspect of the Spatial Strategy. The site should be allocated for residential development.
Varley Park, Staveley Road, <u>Poolsbrook</u>	<u>175-167</u>	Yes	The site is not within walking distance of a local centre but it is within an identified Regeneration Priority Area. Planning permission has been granted for the development of this and the adjacent site (LAA reference 225) for residential development for 175 dwellings. The permission is subject to a S106 agreement to deliver regeneration benefits including replacement planting and habitat creation to offset the loss of open space. The development of this site will secure regeneration benefits including supporting the viability of the local primary school and convenience retail.
Whitecotes Recreation Ground, off Hazel Drive	45	No	There is insufficient evidence that the site is surplus to meeting local open space requirements or that it is fundamentally unsuitable as open space.

Address	Housing Potential Capacity	Allocation	Policy Justification
Registry Office, Beetwell Street	7	<u>No</u> Yes	The site has potential for a range of uses including residential, commercial or retail. CBC is working with DCC to prepare a planning brief exploring the options. The site should be allocated as part of the Town Centre Policy SS1. <u>Since the site was originally considered the Council has been advised that the site is not available.</u>
The Laurels, Wensley Way	5	No	The site is in existing residential use and allocation for residential development would not be necessary in order to bring forward a planning application for replacement dwellings.
Barker Lane (GK Group premises)	40	Yes- <u>No</u>	The site is previously developed land which is due to be vacated by the existing user following completion of an alternative facility at Spire Walk. The site is within walking distance of Chatsworth Road District Centre. <u>Allocation for residential development would be in accordance with the spatial strategy of 'concentration and regeneration' set out in submission policies LP1 and LP2. Although at the time of plan preparation the site benefitted from an outline planning permission for residential development, this has subsequently lapsed and the previous landowner has sold the site to another commercial user who is operating the site for its existing, permitted commercial use. The site is no longer considered to be 'available' for residential development due to the lack of a willing landowner. It therefore no longer meets the tests set out in the council's Land Availability Assessment methodology and has been withdrawn as an allocation in the local plan.</u>
Foljambe Road, Brimington	4	No	With an anticipated yield of 4 dwellings the site is considered to be too small to allocate.
Basil Close, Chesterfield, S41 7SL	22	No	Notwithstanding the current planning permission, the site is suitable for a range of uses including commercial, residential, hotel or other main town centre uses. The site should be allocated as part of the town centre policy area (SS1).
Ryro Engineering, Shaw Street, Chesterfield, Derbyshire, S41 9AY	4	No	Although the site has outline and reserved matters planning permission. There is currently no evidence of the permission being implemented in the near future. The lack of allocation would not prevent the permission being implemented should this change of a fresh permission being sought.
Former Social Club, Saltergate, Chesterfield, Derbyshire, S40 1NH	10	<u>No</u> Yes	The site is within 800m of the Town Centre and is relatively accessible to essential services. Its redevelopment has the potential to enhance local character and visual amenity and its allocation for residential development would be in accordance with the spatial strategy of 'concentration and regeneration' set out in submission policies LP1 and LP2. <u>The site has planning permission and will be treated as a commitment rather than an allocation.</u>
Littlemoor Shopping Centre, Littlemoor Centre, S41 8QW	11	No	The site has permission for residential development as an extension of a mixed use unit in a Local Centre with retail on the ground floor. Allocation as a residential site would not be appropriate. Should permission lapse, the Local Centre designation would not prevent a similar scheme being pursued through a planning application.
Hady Miners Welfare Club, Houldsworth Drive, Hady, S41 0BS	6	<u>No</u> Yes	The site <u>has was previously acknowledged has having</u> potential for redevelopment including a small convenience store and would represent regeneration if such a facility were included. <u>A permission has previously been granted for such a use albeit has lapsed. The historical permission established that the existing club premises was not required to meet</u>

Address	Housing Potential Capacity	Allocation	Policy Justification
			community needs and an allocation for residential development would be in accordance with the spatial strategy of 'concentration and regeneration' set out in submission policies LP1 and LP2. <u>Since the site was originally identified for consideration planning permission was granted 6 dwellings and the site is now under construction.</u>
Post Office, 1, Market Place, S40 1TL		No	The site is within the Town Centre and residential use has permission and it is appropriate to retain flexibility in uses rather than give any specific allocation for such a site and location, to ensure that the site can make a full contribution to the vitality and viability of the centre.
Jacksons Bakery, New Hall Road, S40 1HE	7	No	The site has planning permission for 7 dwellings and is included as a commitment. Its location and brownfield character are such that the local plan would support development of the site and an allocation is unnecessary to bring housing forward.
Fridays Chip Shop, 109 Highfield Road, Chesterfield, Derbyshire, S41 7HS	5	No	The site has planning permission for 5 dwellings and is included as a commitment. Its location and brownfield character are such that the local plan would support development of the site and an allocation is unnecessary to bring housing forward.
Inkersall Road (Land west of), Staveley (Site B)	200	Yes	The site is greenfield land, the majority of which is within walking distance of Inkersall Local centre and local schools. With the borough having insufficient previously developed land to meet the full OAN, the site has the potential to be developed to meet the spatial strategy of concentration in combination with LAA site 30. The site should be allocated for residential developments.
Commerce Centre, Canal Wharf, Chesterfield, Derbyshire, S41 7NA	31	Yes-No	The site is vacant previously developed land within walking distance of a centre. Allocation of the site for residential development would accord with the Spatial Strategy of 'concentration and regeneration' set out in submission policies LP1 and LP2, <u>however construction for residential development has commenced on site since the original consideration of sites was undertaken, so it is no longer appropriate to allocate it.</u>
325 Ashgate Road, Ashgate, S40, 4DB	5	No	The site has planning permission and is included as a commitment. Its location and brownfield character are such that the local plan would support development of the site and an allocation is unnecessary to bring housing forward.
Moorlea Ashgate Road, Chesterfield, Derbyshire, S42 7JE	7	No	The site has planning permission and is included as a commitment.

3.8 Local Plan Policies

3.8.1 This section of the SA focusses on MMs to Policies that are considered to be significant. The relevant Main Modification is indicated by the Modification Reference, e.g. MM12 and full details of each Main Modification are provided in **Appendix A**.

Spatial Strategy

3.8.2 MM12 to Policy LP2 sets out criteria that would apply to sites that are not allocated in the Local Plan, includes amendments to criterion d) referencing opportunities for walking access to a range

of key services¹⁹ via a safe, lit, convenient walking routes. This would replace a requirement in the draft policy for such development to be within walking distance (800m) of a Local, District or Town Centre or the ability to deliver appropriate provision on site.

- 3.8.3 The proposed changes do not alter the results of the SA of the policy (described in paragraphs 5.10.5 to 5.10.12 of the SA Report (January 2019) but the matrix has been updated at **Appendix D** of this report to remove reference to the 800m threshold.
- 3.8.4 Policy LP3 'Presumption in favour of sustainable development' is proposed to be deleted because it duplicates the NPPF. Deletion of the policy is not expected to affect the outcomes of the SA but specific references to the Policy should be deleted from the SA Report (January 2019). The text has been updated below.

"5.10.5 Significant positive effects are anticipated for ~~all of these~~ both policies in relation to SA objective 1 'Housing'. Policy LP1 establishes the council's intent to make provision for 4,374 dwellings over a period of 2018 to 2033, ensuring the housing stock of the Borough better meets the needs of its residents. Policies LP2 ~~and LP3 both~~ requires residential developments to be situated carefully and to be sustainable. This aids in the creation of locally distinctive areas alongside providing housing which should be long lasting.

5.10.6 Significant positive effects are also anticipated for ~~all of these~~ policies in relation to SA objective 2 'Improve Health' through the protection of important green/open spaces and requiring developments to be connected to their surroundings and sited carefully. This would result in improving the accessibility of key health services alongside enabling the residents of the Borough to take up a healthier lifestyle e.g. walking/cycling.

5.10.7 In relation to SA objective 3 'Sustainable Communities', Policy LP1 seeks to regenerate certain key areas, potentially strengthening communities located within these areas. Policy LP1 also affords protection to important green/open spaces that are important for ensuring that residents can access the countryside. ~~Policies LP2 and LP3~~ would all improve the connectivity of new developments, requiring them to have sufficient infrastructure to meet the needs of the Borough alongside being sited carefully and sustainably. This would all strengthen the Borough's existing communities and facilitate the creation of new, sustainable communities.

5.10.8 These policies would ~~all~~ contribute to the Borough's ability to enhance and conserve its cultural heritage (SA objective 4). Policy LP1 achieves this through protecting the green belt, strategic gaps and green wedges which are often important to the character and setting of the Borough's existing cultural heritage. Policy LP2 goes further, requiring developments to be carefully sited and not negatively impact upon their surrounding area. ~~Policy LP3 provides a presumption in favour of sustainable development, affording some protection to the Borough's cultural heritage.~~

5.10.9 ~~Policy LP2 and LP3~~ would ~~both~~ have a significant positive effect on SA objective 5 'Biodiversity' through requiring developments to be sited carefully and sustainably. This would mean important areas of biodiversity are protected from development.

5.10.10 In relation to SA objective 6 'Landscape', both policies LP1 and LP2 ~~and LP3~~ would ~~all~~ have a significant positive effect. This is because the policies require the protection of the green belt, important green/open spaces and for developments to be located in sustainable areas.

5.10.11 Significant positive effects are also anticipated for ~~all of these~~ both policies in relation to SA objective 11 'Enterprise and Innovation'. ~~All of these~~ The policies support the creation of new developments that are connected to their surroundings, sited carefully and are sustainable. It is

¹⁹ Employment centres, primary schools, secondary schools, further education institutions, GPs, hospitals, food stores and town centres

anticipated that this would foster a culture of innovation, as developers work to meet these needs. Policy LP1 would also foster a culture of enterprise through providing more employment land.

5.10.12 Objective 12 'Jobs and Services' would receive significant positive effects from these policies. Policy LP1 establishes the council's intent to provide 44 50 hectares of new employment land (in addition to completions and commitments) over the period 2018 to 2033~~5~~, which would improve access to both jobs and services. ~~Policies Policy LP2 and LP3~~ would ensure new developments are located in sensible, sustainable locations that can be accessed by the residents of the Borough."

- 3.8.5 The appraisal matrix has also been updated at **Appendix D** to reflect the deletion of Policy LP3.

Jobs, Centres and Facilities

- 3.8.6 Policy LP9 'Vitality and Viability of Centres' included the following criterion: "Residential uses (C3) will normally only be permitted at first floor level and above (with the exception of suitable provision for access)". This is proposed to be deleted (MM30) and there is now no explicit reference to the provision of housing in centres.
- 3.8.7 A minor positive effect was identified in the appraisal matrix against SA Objective 1 'Housing.' This has been updated to reflect the fact that the explicit reference to housing is proposed to be deleted from the policy. There are no amendments required to the text of the SA Report.

Environmental Quality

- 3.8.8 MM 45 to Policy LP20 'River Corridors' adds additional criteria to the policy to protect existing biodiversity and ecological value and habitat connectivity. It also requires new development proposals on or adjacent to the river corridor to investigate the creation and management, of ecological buffer strips and corridors to preserve and enhance the biodiversity of the area. This modification is judged to have a significant positive effect in relation to SA Objective 5 'Biodiversity.' The SA matrix has been updated to reflect this change in the appraisal. The text of the SA Report (January 2019) does not need updating as it already states that policies, including LP20 will make a significant contribution to a range of SA objectives, with examples given.

Strategic Sites and Locations

- 3.8.9 MM 56 modifies the number of dwellings that will be granted planning permission for residential development at SS6 'Land at Dunston' to "from approximately 800 dwellings" to "approximately 500 dwellings." This reflects the remaining site capacity after an initial development phase, which is already under construction, has been taken into account. The modification does not alter the outcome of the SA but the SA Report (January 2019) and matrix for the Policy SS6 has been updated to reflect the revised number. The MM also adds an additional criterion to the policy identifying the need for development to demonstrate mitigation to minimise any adverse impacts on nearby heritage assets and their settings. The previous SA noted the requirement for heritage to be considered through a masterplan and identified a minor positive effect on that basis but the modification to the policy provides additional assurance, and the commentary in the SA has been updated to reflect that, however a minor positive effect is identified on this basis, given that the emphasis is on mitigation rather than enhancement. The MM also the need to provide transport mitigation for all users, a significant positive effect was identified in relation to SA Objective 9 in relation to climate change, partly on the basis that the policy requirements would help reduce emissions associated with the use of motorised transport and the MM provides additional reassurance. The updated SA matrix is included at **Appendix D**. The relevant SA Report (January 2019) text has been updated as follows:

"5.10.74 Policy SS6 relates to the Land at Dunston site which seeks to provide approximately 800 an additional 500 dwellings on land located to the north of Dunston and to the south east of Dunston Road (800 dwellings in total allowing for an initial development phase that is currently under construction). A comprehensive masterplanned approach to the whole site is required to ensure new housing is provided alongside sensible access arrangements along Dunston Road and Dunston Lane, encouraging the use of walking and cycling within the site, transport mitigation measures for all users and the creation of a new local centre. SS6 would also require the use of green infrastructure including landscaping and the provision of sporting/open space elements within the site, appropriate mitigation to minimise any adverse impacts on nearby heritage assets and their settings and a specified planting scheme to be carried out along Dunston Road."

"5.10.81 Policy SS6 would have a minor positive effect on SA Objective 4 'Cultural heritage' due to there being a 300 dwelling scheme already permitted on the site and the requirement in the policy for development to demonstrate appropriate mitigation to minimise any adverse impacts on nearby heritage assets and their settings and the need for a masterplan to consider the potential for any further impacts on the setting of the designated heritage features. It has been assumed that the remaining 500 dwellings allowed on the site would have conditions that would protect local heritage assets. Policy SS8 would also have a minor positive effect due to Neighbourhood Plans being a good source of local knowledge and often seeking to protect local Heritage Assets."

- 3.8.10 MM 59 modifies Policy SS7 'Chesterfield Railway Station' with two additional criteria proposed: the first requiring appropriate assessment, evaluation and, if necessary, recording of archaeological remains within the affected area; and the second relating to improved inclusive accessibility. Neither change affects the assessment of effects in the SA Report (January 2019) but the appraisal matrix has been amended at **Appendix D** to acknowledge the positive contribution that both criteria would make to relevant objectives. The main text has been updated below.

"5.10.78 All of the policies are judged to make a significant contribution towards SA objectives 2 'Health' and 3 'Sustainable Communities'. They will help address existing deprivation by providing homes, employment, community facilities, leisure facilities, improved connectivity (including inclusive accessibility in and around Chesterfield Railway Station) enhanced public transport, tackling flood risk and provision of open spaces."

"5.10.82 ~~Policies~~ Policy SS3 was considered to have no relation to SA Objective 4 'Cultural heritage' and SS7 would have a neutral effect, reflecting the difficulties inherent to infrastructure developments on how to reduce their potential effects on their surroundings and the requirement for appropriate assessment, evaluation and, if necessary, recording of archaeological remains within the affected area."

3.9 Appraisal of Allocated Housing Sites

- 3.9.1 Section 5.12 and Table 5.13 of the SA Report (January 2019) summarise the significant effects associated with allocated housing sites and more detailed information is provided at Appendix O of the SA Report (January 2019). These have been updated to reflect the MMs (changes to site names and removal of sites that were previously identified as allocations in the Local Plan for the reasons set out in **Table 5.8** above). **Table 5.13** is updated below and **Appendix E** updates the matrices as necessary

Table 5.13 Summary of SA for allocated housing sites

Site ref	Site name	Objective 1	Objective 2	Objective 3	Objective 4	Objective 5	Objective 6	Objective 7	Objective 8	Objective 9	Objective 10	Objective 11	Objective 12	Summary Comment
17	Catherine Street Garages Court Bank Street Chesterfield	+	++	0	?	0	+	0	++	0	0	0	0	This is a small (0.257 hectare) previously developed site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) the site is within 800m of a GP surgery and leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play. The site is adjacent to a conservation area and within 500m of a number of listed buildings and conservation assets. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and at low risk of surface water flooding.
18	Land at Duewell Court (Land at), Station Road, Barrow Hill	+	+	+	?	0	+	0	--	0	0	0	0	This is a small (1.4348 hectare) previously developed site in a rural area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site intersects the Barrow Hill conservation area, is within 500m of a listed building and sits adjacent to a site that appears on the draft Local List. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the 'Estate Farmlands' landscape character area albeit within a settlement and redevelopment of an existing residential area. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there is some surface water flood risk.

Site ref	Site name	Objective 1	Objective 2	Objective 3	Objective 4	Objective 5	Objective 6	Objective 7	Objective 8	Objective 9	Objective 10	Objective 11	Objective 12	Summary Comment
23	Heaton Court (Former), Meynell Close, Chesterfield <u>Brampton</u>	+	+	0	?	0	+	0	-	0	0	0	0	This is a small (0.34 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as part of site is within 800m of a GP, and the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site is within 500m of a listed building, scheduled monument and conservation area. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a significant negative effect on climate change as there is surface water flood risk on site.
28	<u>Land North of Chesterfield Road (Land north of), Staveley</u>	+	+	0	0	0	0	0	++	0	0	0	0	This is a small (0.32 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of a recreational open space and therefore provides opportunities for exercise, sport and play. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and at low risk of surface water flooding.
32	Miller Avenue Mastin Moor	+	+	+	0	0	0	0	++	0	0	0	0	This is a small (0.41 hectare) previously developed site in a rural area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of a recreational open space and therefore provides opportunities for exercise, sport and play. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), although very small, the site is an extension of an existing settlement into open countryside and would require a landscape character and visual amenity assessment. It is considered to have a neutral effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and at low risk of surface water flooding.

Site ref	Site name	Objective 1	Objective 2	Objective 3	Objective 4	Objective 5	Objective 6	Objective 7	Objective 8	Objective 9	Objective 10	Objective 11	Objective 12	Summary Comment
35	Staveley Canal Basin, Eckington Road, Staveley	+	++	0	?	0	0	0	-	0	0	0	0	This is a small (2.99-3.22 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) the site is within 800m of a GP surgery and leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play. The site is within 500m of a listed building and conservation area, with potential impact on setting of canal. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls partly within the urban area and partly within the Riverside Meadows type. The site has the potential in terms of location and scale to have an adverse effect but mitigation is likely to be feasible therefore it is considered to have a neutral effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there is some flood risk although the canal infrastructure should reduce risk to an appropriate level for vulnerable uses.
47	Manor House Farm 118 The Green Hasland	+	++	0	?	0	0	0	++	0	0	0	0	This is a small (0.4 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) the site is within 800m of a GP surgery and leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play. The site is adjacent to the curtilage of a listed building. Development could affect the setting especially if access is taken from The Green. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site is within the urban area but does encroach on open land therefore it is considered to have a neutral effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 and at low risk of surface water flooding.

Site ref	Site name	Objective 1	Objective 2	Objective 3	Objective 4	Objective 5	Objective 6	Objective 7	Objective 8	Objective 9	Objective 10	Objective 11	Objective 12	Summary Comment
63	Walton Works (Former) Factory Street Chesterfield <u>Brampton</u>	++	++	0	--	0	+	0	-	0	0	0	0	This is a large (3.60 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of a leisure centre / recreational open space and therefore provides opportunities for exercise, sport and play, and the majority of the site is within 800m of a GP. The site contains a listed building which is at risk. The site's development could protect the listed building and enhance its setting; however, a detailed proposal has yet to be accepted on the site. The site is also partly within a conservation area and wholly within its 500m boundary. The effect on heritage (Objective 4) is considered to be potentially significant negative. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and therefore has a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as there are areas of flood risk on site although an adequate FRA was undertaken for a planning application.
91	Ashbrooke Centre (Former) Cuttholme Road Chesterfield <u>Loundsley Green</u>	+	+	0	0	0	+	0	++	0	0	0	0	This is a small (0.698 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 with low risk of surface water flooding.

Site ref	Site name	Objective 1	Objective 2	Objective 3	Objective 4	Objective 5	Objective 6	Objective 7	Objective 8	Objective 9	Objective 10	Objective 11	Objective 12	Summary Comment
94	Allen & Orr Timber Yard Saltergate, Marsden Street Chesterfield	+	++	0	?	0	+	0	++	0	0	0	0	This is a small (0.86 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) as the site is within 800 metres of GP and recreational open space and therefore provides opportunities for exercise, sport and play. Numerous Grade 2 Listed Buildings are near the site and the site itself is likely to contain undesignated heritage assets. The site lies within the 500m buffer zone of many listed buildings, the town centre conservation area buffer and the historic core buffer. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 with low risk of surface water flooding.
102	Swaddale Avenue (Land to the west of) Tapton	+	+	0	?	-	0	0	--	0	0	0	0	This is a small (0.88 hectare) greenfield site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site is within the 500m buffer zone of a scheduled monument, a historic park / garden and a listed building. The site has outline permission however without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). Part of site intersects a Local Wildlife Site's 100m buffer and therefore there could be a negative effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the Coalfield Village Farmlands landscape character area, and is within a residential area adjacent to a railway line therefore and its development is considered to have a neutral effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a significant negative effect on climate change as there is an area of high surface water flood risk running through the site.

108	Goldwell Rooms (Former) and 6 Ashgate Road Chesterfield	+	++	0	?	0	+	0	++	0	0	0	0	This is a small (0.6254 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) as the site is within 800 metres of a GP and recreational open space and therefore provides opportunities for exercise, sport and play. The site lies within the 500m buffer of the historic core and town centre conservation area. No.6 Ashgate Road has potential to be an undesignated heritage asset. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 with low risk of surface water flooding.
113	Bent Lane (land at) Staveley	++	+	0	?	-	-	0	--	0	0	0	0	This is a large (6.297.26 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of a recreational open space and therefore provides opportunities for exercise, sport and play. Parts of the site are within 500m of the Staveley conservation area and several listed buildings. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). Part of site intersects Local Wildlife Site's 100m buffer and therefore development of the site could have a negative effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the Riverside Meadows Landscape Type and is bordered by residential properties on three sides and the green belt on one. Landscape character will be adversely affected to some extent. No information has been submitted to demonstrate that the landscape and visual impact of development could be mitigated therefore there could be a negative effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a significant negative effect on climate change as there is an area of Flood zone 3 and risk of surface water flooding. <u>following comments from the Environment Agency the developable area was amended to avoid areas at flood risk and provide the opportunity for mitigation measures to be put in place.</u>

125	Poultry Farm (Former) Manor Road, Brimington	+	--	0	?	0	+	0	++	0	0	0	0	This is a small (0.887 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant negative impact on improving health (Objective 2) as the site is within 2KM of a GP but not within 800m of a GP or open space. Most of the site is within 500m of a listed building. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 with low risk of surface water flooding.
130	Linacre Road (Holme Hall)	++	+	+	?	0	-	0	--	0	0	0	0	This is a large (14.85 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) as the site is within 800 metres of GP and recreational open space and therefore provides opportunities for exercise, sport and play. Parts of the site are within 500m of a listed building. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the Urban landscape character type. However, the site is open fields and adjoins the wooded farmlands character type and will require careful layout and landscaping. No information has been submitted to demonstrate that the landscape and visual impact of development could be mitigated therefore there could be a negative effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a significant negative effect on climate change as there is an area of high risk of surface water flooding, mitigatable through effective site layout and SuDs.
145	Elm Street, (Land at), Hollingwood, Brimington,	+	+	0	0	0	+	0	--	0	0	0	0	This is a small (0.71 hectare) greenfield site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a significant negative effect on climate change as there is an area of high surface water flood risk running through the site although potential for mitigation through SuDs.

The site lies within a Regeneration Priority Area and therefore has potential for positive effects on Objective 3. A small part of the site is within 500m of a listed building. Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). Part of site intersects Local Wildlife Site's 100m buffer and therefore its development could have a negative effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), development of the site is likely to have a neutral effect on Objective 6. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a negative effect on climate change as the site is has an area at risk of surface water flooding.
317	Edale Road (Ggarage Ceourt), Mastin Moor	+	+	+	?	0	+	0	++	0	0	0	0	This is a small (0.20 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. The site lies within a Regeneration Priority Area and therefore has potential for positive effects on Objective 3. The site is within 500m of a listed building, and without further information the effect on Objective 4 is uncertain. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as is wholly within flood zone 1 with low risk of surface water flooding.

Site ref	Site name	Objective 1	Objective 2	Objective 3	Objective 4	Objective 5	Objective 6	Objective 7	Objective 8	Objective 9	Objective 10	Objective 11	Objective 12	Summary Comment
326	Varley Park, Staveley Road, Poolsbrook	++	+	+	0	0	-	0	++	0	0	0	0	This is a large (6 5.16 hectare) greenfield site in the rural area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800m of recreational open space and therefore provides opportunities for exercise, sport and play. The site lies within a Regeneration Priority Area and therefore has potential for positive effects on Objective 3. The site is not within 500m of any designated heritage asset and is unlikely to affect heritage assets or their settings, therefore having a neutral effect on Objective 4. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site is open space adjacent to a number of properties within the Estate Farmlands landscape character type. There is likely to be a negative effect on Objective 6. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 with low risk of surface water flooding.
338	Barker Lane (GK Group premises)	+	++	0	?	0	+	0	++	0	0	0	0	This is a small (1.1 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a significant positive impact on improving health (Objective 2) as the site is within 800 metres of a GP and recreational open space and therefore provides opportunities for exercise, sport and play. The site is adjacent to a conservation area and within 500m of a listed building. Without further information the effect on Objective 4 is uncertain. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 with low risk of surface water flooding.
407	Commerce Centre, Canal Wharf, Chesterfield;	+	+	0	?	0	+	0	++	0	0	0	0	This is a small (0.72 hectare) previously developed site within the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. Part of site is within 500m of a listed building and conservation area. Without further information the effect on Objective 4 is uncertain. The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site falls within the urban area and its development is considered to have a positive effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site would have a significant positive effect on climate change as the site is wholly within flood zone 1 with low risk of surface water flooding.

Site ref	Site name	Objective 1	Objective 2	Objective 3	Objective 4	Objective 5	Objective 6	Objective 7	Objective 8	Objective 9	Objective 10	Objective 11	Objective 12	Summary Comment
30 & 401	Land at Inkersall Road (Land at) Inkersall	++	+	0	?	0	-	0	-	0	0	0	0	This is a large (22.78 56 hectare) greenfield site on the edge of the urban area. Delivery of housing on this site will help to ensure that housing stock meets the needs of all communities in the Borough and therefore has a significant positive effect on Objective 1. Development of the site would have a positive impact on improving health (Objective 2) as the site is within 800 metres of recreational open space and therefore provides opportunities for exercise, sport and play. Part of the site is within 800m of a GP. The site is within 500m of a Listed Building (Grade II Inkersall Farmhouse). Without further information it is considered that development of the site would have an uncertain effect on heritage (Objective 4). The site is not within 100m of a locally designated wildlife site or within 500m of a nationally/internationally designated site and therefore has a neutral effect on biodiversity (Objective 5). In terms of impact on landscape (Objective 6), the site is a large extension into open farmland. The site is within the Coalfield Landscape Character Area and within the Estate Farmlands landscape character type. An adverse impact on landscape character is likely and therefore there could be a negative effect. The site is not within 500m of an Air Quality Management Area and is considered to have no effect on Objective 7. Development of the site could have a significant negative effect on climate change as there is an area of high risk of surface water flooding.

3.9.2 Significant effects associated with allocated housing sites are summarised in Section 5.12 of the SA Report (January 2019). Relevant paragraphs are updated below to reflect instances where sites have been added or deleted as allocations.

5.12.3 ~~Eleven~~ ~~Twelve~~ sites (17, 35, 47, 63, 94, 108, 150, 192, 193, 219 and 236, ~~and 338~~) also have significant positive effects for health, helping to improve health and reduce health inequalities (Objective 2) as they are close to both recreational open space/leisure centre and GP. One site (247) has a significant effect in relation to landscape (Objective 6).

5.12.4 ~~Sixteen~~ ~~Twenty~~ sites (17, 28, 32, 47, 91, 94, 108, 125, 150, 151, ~~155~~, 192, 193, 219, 236, 271, 317 ~~and~~, 326, ~~338~~, ~~407~~) have significant positive effects for climate change as they are located in Flood Zone 1 with no or low risk of surface water flooding (Objective 8).

5.12.5 Significant negative effects have been identified in relation to 3 ~~4~~ sites (125, 154, ~~155~~, and 156) on health (Objective 2) as they are not within 800m of an open space or 2km of a GP surgery.

- Site 125 is within 2km of a GP with capacity but not within 800m of a GP or open space. The site has planning permission for residential development.
- Sites 154, ~~155~~ and 156 are not within 800m of an open space or 2km of a GP surgery but are all on previously developed land.

5.12.7 Significant negative effects have been identified in relation to 11 ~~10~~ sites (18, 23, 30, 102, 113, 130, 145, 154, 156, 247 and 401) on climate change (Objective 8) due to flood risk, although in many cases the area of flood risk is only a small proportion of the whole site.

3.9.3 An additional bullet point should be added after paragraph 5.12.7 with regards to site 247:

- Site 247 includes areas of flood risk (so that mitigation would be within the application boundary), but the revised housing capacity figure for the site reflects a more comprehensive consideration of the site constraints, including areas of flood risk.

3.10 Cumulative Synergistic and Secondary Effects of Policies and Sites

3.10.1 Section 5.14 of the SA Report (January 2019) sets out the cumulative effects of policies and these are summarised in Table 5.15 of that report. Table 5.15 also considers the potential for in-combination effects associated with other plans and programmes. There are no changes to the assessment of cumulative effects as a result of the proposed modifications.

3.11 Compliance with the NPPF

- 3.11.1 The Ministry of Housing, Communities and Local Government (MHCLG) published the revised National Planning Policy Framework (NPPF) on 24th July 2018. This was the first revision of the NPPF since its publication in 2012. The SA Report and appendices (notably Appendix Q which contains a high level review of the Local Plan against the requirements of the NPPF, e.g. to identify any potential policy gaps) included references to the 2018 NPPF and cited specific paragraphs.
- 3.11.2 Following a technical consultation on updates to national planning policy, MHCLG made very minor changes to the text and published an updated Framework on 19th February 2019.
- 3.11.3 The various references in the SA Report to specific paragraph numbers in the NPPF were reviewed as part of the preparation of the Addendum to the SA Report dated June 2019 and the conclusion was that the various references remained valid. The MMs are partly driven by the Inspectors review of the Local Plan against the NPPF and where any additional modifications are proposed by the

Inspectors to make the Local Plan compliant with the NPPF these are indicated at **Appendix A** of this addendum.

3.12 Recommendations (including Mitigation)

- 3.12.1 Section 5.17 and Table 5.17 of the SA Report (January 2019) set out recommendations arising from the SA of the regulation 19 Local Plan. No additional recommendations have arisen following a review of the MMs.

3.13 Monitoring

- 3.13.1 Section 6.6 of the SA Report (January 2019) sets out the requirements for monitoring in relation to the SA and the opportunity to integrate monitoring of the Local Plan with the requirements for monitoring in relation to the SA. MM 66 sets out changes to the monitoring framework. The revised framework has been reviewed to assess the extent to which the proposed indicators align with the SA Objectives. The results of the exercise are set out at **Appendix F** of this addendum. This shows the monitoring framework, including changes proposed in the MM. The last column of the table has been added by Wood to highlight which SA objectives each of the proposed indicators would help monitor.
- 3.13.2 From the review at **Appendix F** no instances where a SA objective was not supported by at least one indicator were identified it is therefore concluded that the updated monitoring framework provides the basis for meeting monitoring requirements for the Local Plan associated with the SA and this will be confirmed in the Post Adoption Statement.

4. Conclusions and Next Steps

4.1 Conclusions

- 4.1.1 This addendum has presented the findings of the SA of the Post-Submission Modifications to the Chesterfield Borough Local Plan.
- 4.1.2 The appraisal has demonstrated that the proposed modifications do not impact on the previous conclusions of the SA.

4.2 Next Steps

- 4.2.1 This addendum to the SA report is a supporting document to the consultation on the Local Plan Modifications. Comments are invited on the findings and recommendations of this report.
- 4.2.2 The consultation runs from **Friday 6th March to Friday 17th April 5pm**.
- 4.2.3 Please note: the **consultation is only related to the content of the Modifications (soundness) and how they have been prepared (legal compliance)**. Other parts of the plan will not, however, be considered.
- 4.2.4 If you wish to make comments, please use one of the following methods:
- Email: Please complete the consultation response form and send it to Local.plan@chesterfield.gov.uk; or
 - Post: Please complete the consultation response form and send it to: Strategic Planning and Key Sites, Chesterfield Borough Council, Town Hall, Rose Hill, Chesterfield, S40 1LP
- 4.2.5 Please quote the relevant main modification reference, policy or paragraph to which your response relates.
- 4.2.6 Following the close of the consultation, the inspectors will complete and publish their final report, recommending any changes that are considered necessary to make the Local Plan sound.
- 4.2.7 After adoption of the Local Plan, a Post Adoption Statement will be completed, consistent with the requirements of the SEA regulations 16(4).

Appendix A

Screening of Main Modifications

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
Spatial Strategy			
MM1	Contents Page	Insert revised contents page. See Associated Figures, Tables and Diagrams (Proposed Modifications) for the proposed modification.	<p>No - The change to the contents page does not impact on the SA, e.g. there has been no re-ordering of the chapters that needs to be reflected in the SA Report. One policy has been deleted and this is noted in the appropriate modification relating to that.</p> <p>Where there are specific changes that are significant for the purposes of the SA, e.g. amendments to Table 4 'Housing Allocations' these are referred to under the modification that they relate to.</p>
MM2	Pages 14-15	Insert Key Diagram between pages 14 and 15. See Associated Figures, Tables and Diagrams (Proposed Modifications) for the proposed modification.	No – inclusion of a key diagram does not impact on the findings of the SA Report.
MM3	Paragraph 1.3 (page 9)	1.3 There will be 44 50 ha of land provided between 2018 and 2033 2035 for new high quality employment development so that together with existing employment areas, a range of jobs and training opportunities are easily accessible to those who need them. All this new development will be in areas with an established industrial character or areas of regeneration specifically designated for mixed use. Economic activity and employment opportunities are focussed where the regeneration benefits can be maximised, particularly in the Staveley and Rother Valley Corridor and along the A61 Corridor where there is significant need for work and training. High employment density uses such as	Yes – references to the amount of employment land to be provided and extension of the plan period to 2015 need to be updated in the SA Report. The change in the residual need for employment land is not considered to impact on the results of the SA, e.g. significant positive effects are already identified in relation to SA Objective 11 in relation to employment and the amendment simply reflects extension of the plan period to 2035.

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council			
Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		offices are located in the most accessible locations near to town and district centres.	
MM4	Paragraph 1.20 (page 12)	1.20 Sites are made available for at least 4374 4080 homes between 2018 and 2033 2035 to meet the Objectively Assessed Need (OAN), the majority of which are located within easy walking and cycling reach of the existing district and town centres. Some new housing development will be directed to areas suffering from deprivation to aid the regeneration of these communities. Some of this housing will need to be in well-designed, sensitive urban extensions on greenfield sites. Local centres and community facilities there will need to be improved. In addition, some housing is also concentrated around 'Local Service Centres'.	Yes – references to the number of homes provided and the plan period will need updating throughout the SA Report as appropriate. The revised number is not considered significant in terms of the findings of the SA, e.g. significant positive benefits are already identified in relation to SA Objective 1 on housing. The revised number reflects the LHN methodology. It is also noted under MM15 that the Local Plan can demonstrate a supply of 6,247 dwellings over the plan period against the minimum requirement of 4080 dwellings between 2018 and 2035.
MM5	Objective 2 (page 14)	S2 Provide sites for at least 4374 4080 homes to be built between 2018 and 2033 2035 to meet the housing requirement for Chesterfield borough	See comments at MM4
MM6	Objective S6 (page 14)	S6: Provide 44 at least 50 ha of new employment land between 2018 and 2033 2035 .	See comments at MM3
MM7	Paragraphs 2.2 to 2.6 and table 1	2.2. The Strategic Housing Market Assessment Update 2017 indicates an Objectively Assessed Need (OAN) of 265 net new dwellings per annum is required to meet the borough's housing needs. The Local Housing Need (LHN) methodology set out in the NPPF indicates a minimum housing need of 240 new dwellings per annum. No further adjustments to this figure are required to account for unmet need in neighbouring areas or other demographic or economic factors. 2.3. Between 2014- 2033 2035 , this equates to <u>a minimum housing requirement of 5035 4,080 new dwellings (240 dwellings per year).</u>	Yes – the SA should be updated to reflect the revised annual target and that this reflects the approach in the LHN. The fact that no further adjustments to the figure are deemed necessary should also be reflected in the SA commentary.

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?										
		<p>2.4. 661 net new dwellings were completed between 2014 and 2018.</p> <p>2.5. Because there has been an under delivery of homes since 2014 (the base date for the SHMA update projections), a shortfall of 399 dwellings is added which will be spread over the plan period.</p> <p>2.6. This gives a housing target of 292 net new dwellings per annum.</p> <p>Table 1</p> <table border="1"> <tr> <td>Objectively Assessed Need (OAN) OAN over plan period 2014 to 2033 (19 x 265)</td> <td>265 pa</td> </tr> <tr> <td>Net completions 2014 to 2018</td> <td>661 dwellings</td> </tr> <tr> <td>Outstanding need</td> <td>4374 net new dwellings</td> </tr> <tr> <td>Shortfall of dwellings from 2014 to 2018</td> <td>399 dwellings</td> </tr> <tr> <td>Revised OAN including shortfall</td> <td>292 net new dwellings pa</td> </tr> </table>	Objectively Assessed Need (OAN) OAN over plan period 2014 to 2033 (19 x 265)	265 pa	Net completions 2014 to 2018	661 dwellings	Outstanding need	4374 net new dwellings	Shortfall of dwellings from 2014 to 2018	399 dwellings	Revised OAN including shortfall	292 net new dwellings pa	
Objectively Assessed Need (OAN) OAN over plan period 2014 to 2033 (19 x 265)	265 pa												
Net completions 2014 to 2018	661 dwellings												
Outstanding need	4374 net new dwellings												
Shortfall of dwellings from 2014 to 2018	399 dwellings												
Revised OAN including shortfall	292 net new dwellings pa												
MM8	Paragraph 2.8 (page 16)	<p>2.8. This work concludes that 44 hectares of employment land are required between 2018-2033, split into B1 5.2 ha, B2 – 21 ha and B8 – 17.6 ha. <u>This equates to a minimum of 50ha across the Local Plan period of 2018 to 2035.</u> Chesterfield needs to be able to offer an appropriate range of employment sites, in terms of quantity, size and location. The quality of site provision is key, and the best employment sites must be protected.</p>	See comments at MM3										
MM9	Table 2 (page 16)	See Associated Figures, Tables and Diagrams (Proposed Modifications) for the proposed modification.	See comments at MM3										
MM10	Policy LP1	LP1 Spatial Strategy	No – the SA provides a high level appraisal of the policy and the proposed modification is not considered significant for the purposes of the SA.										

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		<p>The overall approach to growth will be to concentrate new development within walking distance of a range of Key Services as set out in policy LP2 centres, and to focus on areas that need regenerating, including the ‘place shaping’ areas set out in policies SS1 to SS6 and Regeneration Priority Areas.</p> <p><u>Regeneration Priority Areas</u></p> <p>The council will maximise regeneration benefits to existing communities offered by development opportunities in the following areas:</p> <ul style="list-style-type: none"> • Eastern Villages– Barrow Hill, Duckmanton, Mastin Moor, Poolsbrook, • Holme Hall • <u>Staveley and Rother Valley Corridor</u> <p><u>Housing Growth</u></p> <p>The council will make provision for the delivery of a minimum Objectively Assessed Need (OAN) of 240 new dwellings per year, (4,0804374 dwellings over the period 2018 to 20332035). New housing development will be in line with the strategy of ‘Concentration and Regeneration’.</p> <p><u>Economic Growth</u></p> <p>To maintain economic growth and quality of provision, the council will make provision for 44 50 hectares of new employment land (B1, B2 and B8 uses) over the period 2018 to 2033 2035. The key areas for employment land are at the already committed Markham Vale development, and at Staveley and Rother Valley Corridor.</p>	<p>No – the SA provides a high level appraisal of the policy and the proposed modification is not considered significant for the purposes of the SA.</p> <p>See comments at MM3 and MM5 in relation to the changes to the provision of employment and housing land provision and the plan period.</p>

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		The boundaries of Strategic Gaps and Green Wedges are identified on the Policies Map.	
MM11	Paragraph 2.15 and 2.17	<p>2.15. The Local Plan’s spatial strategy aims to support and encourage walking and cycling and the use of public transport by locating new development within reasonable walking distance of a range of key services in centres. The Local Plan’s spatial strategy also recognises the importance of convenient access on foot to key services for those on low incomes, including the health benefits of walkable neighbourhoods. The concept of a walkable neighbourhood is set out in the Council’s supplementary planning document: ‘Successful Places’.</p> <p>2.16. National Travel Survey data² continues to show walking as being the second highest mode of transport after private vehicles but only for short distances (i.e. 76% of walking trips being under 1 mile/1.6km), whilst people on low incomes are more likely to depend on walking to get around³. Guidance indicates that a walking distance of up to 800m is appropriate for accessibility to town centres and would achieve the aims of the Spatial Strategy with walking distance taken to be at maximum a ten minute walk or 800m distance⁴ on a safe route with no significant obvious ‘barriers to walking’. This is based on an average walking speed of approximately 1.4 m/s or 3 mph⁵</p> <p>2.17 What constitutes a reasonable walking distance is set out in various relevant guidance¹ including the Council’s adopted residential design guide supplementary planning document: ‘Successful Places’. When seeking to apply the spatial strategy and principles for the location of development the Council will have regard to the concept of a walkable neighbourhood and the walking distances described in its SPD: Successful Places. Regard will also be had to However, a “reasonable” walking distance is likely to be affected by the likely effect of factors such as location,</p>	No - modification is a change to supporting text explaining how the spatial strategy will be implemented.

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

		<p>New residential development will be expected to be within walking distance (800m) of an existing or proposed Local, District or Town Centre, via a safe, lit, convenient walking route, or demonstrate the ability to deliver appropriate provision on-site.</p> <p>¹ <u>DfT Accessibility Indicators:</u></p> <ul style="list-style-type: none"> • <u>Employment centres</u> • <u>Primary schools</u> • <u>Secondary schools</u> • <u>Further Education institutions</u> • <u>GPs</u> • <u>Hospitals</u> • <u>Food stores</u> • <u>Town Centres</u> 	
MM13	Policy LP3	<p>PRESUMPTION IN FAVOUR OF SUSTAINABLE DEVELOPMENT</p> <p>2.18. The NPPF (para 11) states that all plans should be based upon and reflect the presumption in favour of sustainable development. Policy LP3 sets out what this means in practice, and how the presumption will influence decisions on development proposals.</p> <p>LP3 Presumption in favour of sustainable development When considering development proposals the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. It will always work proactively with applicants jointly to find solutions which mean that proposals can be approved wherever possible, and to secure development</p>	Yes – all references to LP3 in the SA should be deleted. Deletion of the policy does not affect the overall conclusions of the SA, given that the policy mirrored the NPPF.

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

		<p>that improves the economic, social and environmental conditions in the area.</p> <p>Planning applications that accord with the policies in this Local Plan (and, where relevant, with policies in neighbourhood plans) will be approved without delay, unless material considerations indicate otherwise.</p> <p>Where there are no policies relevant to the application or relevant policies are out of date at the time of making the decision then the Council will grant permission unless material considerations indicate otherwise – taking into account whether:</p> <p>a) Any adverse impacts of granting permission would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework taken as a whole; or</p> <p>b) Specific policies in that Framework indicate that development should be restricted.</p>	
MM14	Paragraph 3.1	<p>3.1 To meet the housing needs of a growing population and a growing economy, a total of at least 4374 4,080 net new dwellings must be built in Chesterfield Borough between 2018 and 2033 2035. This is derived from the objectively assessed need figure Local Housing Need methodology derived housing requirement of 265 240 dwellings per annum plus the net level of completions since 2014. This requires the completion of, on average, 292 dwellings each year over the remaining 15-year period. This strategic housing requirement is not a ceiling, and may be exceeded provided that it is sustainable, it can be supported by existing or new infrastructure and it meets the objectives and policies in the Local Plan.</p>	No – modification is a change to supporting text explaining how the strategic housing requirement will be implemented.
MM15	Table 3	<p>Replace table 3 and add supporting text as additional paragraph. See Associated Figures, Tables and Diagrams (Proposed Modifications) for the proposed modification.</p>	No – modification is a change to supporting text explaining how the strategic housing requirement will be implemented.

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?																																			
		<p><u>The Local Plan must demonstrate a deliverable supply of housing sites sufficient for five years with a minimum buffer of 5% (20% in the case of evidence of persistent under-delivery via the Housing Delivery Test). As of 1st April 2019, there was an existing shortfall of 28 dwellings, to be resolved within the first five years. Monitoring indicates that the borough is currently on target to resolve the entirety of this shortfall by 1st April 2020. The council has therefore applied a 20% buffer for under-delivery to the five years from 1st April 2019 (the first four years of the plan based on an adoption date on April 2020). A 10% lapse rate has been applied to commitments.</u></p> <table border="1" data-bbox="539 778 1294 1327"> <thead> <tr> <th data-bbox="539 778 656 890">Year</th> <th data-bbox="656 778 775 890">LHN</th> <th data-bbox="775 778 958 890">Actual Completions</th> <th data-bbox="958 778 1077 890">LHN + Buffer</th> <th data-bbox="1077 778 1294 890">Trajectory Forecast</th> </tr> </thead> <tbody> <tr> <td data-bbox="539 890 656 963"><u>2018/19</u></td> <td data-bbox="656 890 775 963"><u>240</u></td> <td data-bbox="775 890 958 963"><u>212</u></td> <td data-bbox="958 890 1077 963"><u>240</u></td> <td data-bbox="1077 890 1294 963"><u>212</u></td> </tr> <tr> <td data-bbox="539 963 656 1037"><u>2019/20</u></td> <td data-bbox="656 963 775 1037"><u>240</u></td> <td data-bbox="775 963 958 1037"><u>N/A</u></td> <td data-bbox="958 963 1077 1037"><u>294</u></td> <td data-bbox="1077 963 1294 1037"><u>315</u></td> </tr> <tr> <td data-bbox="539 1037 656 1110"><u>2020/21</u></td> <td data-bbox="656 1037 775 1110"><u>240</u></td> <td data-bbox="775 1037 958 1110"><u>N/A</u></td> <td data-bbox="958 1037 1077 1110"><u>294</u></td> <td data-bbox="1077 1037 1294 1110"><u>516</u></td> </tr> <tr> <td data-bbox="539 1110 656 1184"><u>2021/22</u></td> <td data-bbox="656 1110 775 1184"><u>240</u></td> <td data-bbox="775 1110 958 1184"><u>N/A</u></td> <td data-bbox="958 1110 1077 1184"><u>294</u></td> <td data-bbox="1077 1110 1294 1184"><u>515</u></td> </tr> <tr> <td data-bbox="539 1184 656 1257"><u>2022/23</u></td> <td data-bbox="656 1184 775 1257"><u>240</u></td> <td data-bbox="775 1184 958 1257"><u>N/A</u></td> <td data-bbox="958 1184 1077 1257"><u>294</u></td> <td data-bbox="1077 1184 1294 1257"><u>659</u></td> </tr> <tr> <td data-bbox="539 1257 656 1327"><u>2023/24</u></td> <td data-bbox="656 1257 775 1327"><u>240</u></td> <td data-bbox="775 1257 958 1327"><u>N/A</u></td> <td data-bbox="958 1257 1077 1327"><u>295</u></td> <td data-bbox="1077 1257 1294 1327"><u>466</u></td> </tr> </tbody> </table>	Year	LHN	Actual Completions	LHN + Buffer	Trajectory Forecast	<u>2018/19</u>	<u>240</u>	<u>212</u>	<u>240</u>	<u>212</u>	<u>2019/20</u>	<u>240</u>	<u>N/A</u>	<u>294</u>	<u>315</u>	<u>2020/21</u>	<u>240</u>	<u>N/A</u>	<u>294</u>	<u>516</u>	<u>2021/22</u>	<u>240</u>	<u>N/A</u>	<u>294</u>	<u>515</u>	<u>2022/23</u>	<u>240</u>	<u>N/A</u>	<u>294</u>	<u>659</u>	<u>2023/24</u>	<u>240</u>	<u>N/A</u>	<u>295</u>	<u>466</u>

MM23	Paragraphs 3.20, to 3.24 and table 8	3.20. The Derbyshire Gypsy and Traveller Accommodation Assessment 2014 (GTAA) concluded that Chesterfield Borough has a pitch requirement of 4 over the period 2014 to 2019, with no requirement for the remainder of the plan period. Half All of this need has been met through planning permissions, <u>resulting in a surplus of one pitch.</u>	No – modification is a change to supporting text explaining the approach to the provision of accommodation for Gypsies and Travellers.

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		<p>3.21. The latest government published updated guidance on Planning Policy for Travellers in 2015. This policy takes ‘travellers’ to mean gypsies and travellers and travelling showpeople. This guidance requires local planning authorities to make a robust assessment of need for sites for travellers and to identify and update annually a supply of sites to meet pitch targets set to meet the need identified. Sites to address a five year supply are allocated in the Local Plan.</p> <p>3.22 The council undertook an exercise to identify potential sites for Gypsy and Traveller sites in late 2017 and early 2018. This considered 46 sites and included public consultation on six. At the end of this process it was concluded that none of the sites met the criteria of being available and suitable.</p> <p>Table 8</p> <p>There is an outstanding need for 2 pitches within the plan period. Based on historic delivery, it is anticipated that this will be delivered via a windfall.</p> <p>3.23. In the absence of suitable sites, and in the event of an unanticipated need for a site arising, the Local Plan sets out a criteria-based approach by which planning applications for Gypsy and Traveller sites can be assessed. When considering proposals, the council will take account of the most recent <u>national planning policy for traveller sites</u> including: Government guidance within ‘Planning Policy for Traveller Sites’</p> <ul style="list-style-type: none"> • The existing level of local provision and need for sites.

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		the types of eligible development and the rates which will be applied in each charging zone ¹ .	
MM34	Paragraph 5.4	5.4 As Infrastructure requirements are likely to change over time, the Infrastructure Study & Delivery Plan will be updated and reviewed regularly. It provides the starting point for Council to identify its priorities for the Community Infrastructure Levy (known as the CIL Regulation 123 list). Whilst over time the Community Infrastructure Levy may provide significant contributions to infrastructure delivery, the Levy is intended to fill the funding gaps that remain once existing sources of funding have been taken into account. Core public funding will continue to bear the main burden of infrastructure funding. The Levy is intended to fill the funding gaps that remain once existing sources of funding have been taken into account. To ensure efficient and effective negotiation, applicants are advised to engage with the Council and its partners in pre-application discussions to ensure provide clarity over assessments of infrastructure requirements in advance of applications being submitted	No – modification is a change to supporting text explaining the approach to the provision of infrastructure.
MM35	LP12	LP12 Infrastructure Delivery Developer contributions will be used to mitigate the impact of new development and ensure that appropriate infrastructure is in place to support growth. The Borough Council will normally require that on-site infrastructure requirements are met via planning conditions or a Section 106 agreement. Developers will be required to demonstrate that the necessary infrastructure (green, social and physical) will be	No - the SA provides a high level appraisal of the policy and the proposed modification is not considered significant for the purposes of the SA.

¹ Whilst the Community Infrastructure Levy Regulations 2010 (as amended) do not allow CIL Charging Authorities to exert discretion on whether payments should be made, the council has made provision for 'exceptional circumstances relief' and 'payment in kind' under specific circumstances allowed for in the Regulations.

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
MM56		Most up to date plan awaited from Chatsworth Settlement Trustees	No – modification to a figure in the Local Plan that is not significant for the purposes of the SA.
MM57	Policy SS6	<p>SS6 Land at Dunston</p> <p>Planning permission will be granted for residential development for approximately 800500 dwellings on land north of Dunston and south east of Dunston Road as allocated on the policies map and as set out in table 4 (Site reference SS6).</p> <p>Development should be carried out in accordance with a masterplan to be agreed with the Local Planning Authority prior to development that demonstrates:</p> <ul style="list-style-type: none"> i. Acceptable Access arrangements from Dunston Road and Dunston Lane ii. Appropriate provision Proposals for walking and cycling provision within the site iii. Appropriate transport mitigation to ensure an acceptable impact on the highway network for all users iv. Appropriate mitigation to minimise any adverse impacts on nearby heritage assets and their settings v. Provision of a new local centre to serve development vi. Provision of a site reserved for a new one form entry primary school (to be retained until such time as required or evidence can be provided of a lack of need) vii. A scheme of green infrastructure including landscaping, open space, play and sports provision including re-instatement of the former cricket pitch, and early implementation of a landscaping and planting scheme along Dunston Road 	<p>Yes – SA matrix referred to provision of 800 dwellings on site and should be updated to reflect the revised figure. The revised figure of 500 dwellings still has a significant effect on SA Objective 1 ‘Housing’ so no amendments to the assessment of the policy are considered necessary.</p> <p>In addition, the commentary to the SA could acknowledge the new criterion (iv) relating to mitigation to minimise adverse impacts on heritage assets and their settings and transport mitigation. A minor positive effect was identified in relation to SA Objective 4 ‘cultural heritage’ and the proposed change provides further reassurance, however as the emphasis is on mitigation, rather than enhancement a minor positive effect (rather than a significant positive) is still considered appropriate. Policy LP22 ‘Historic Environment’ encourages the enhancement of heritage assets and their setting wherever possible.</p> <p>A significant positive effect was identified previously in relation to SA Objective 9 ‘climate</p>

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		viii. A phasing plan for development phases and the provision of infrastructure	change’ because the policy provided for walking and cycling within the site and the provision of a new local centre (which would help reduce the need to travel and associated Greenhouse gas emissions). The proposed modification provides further re-assurance in relation to transport mitigation for all users but does not affect the outcome of the appraisal Yes – SA matrix referred to provision of 800 dwellings on site and should be updated to reflect the revised figure. The revised figure of 500 dwellings still has a significant effect on SA Objective 1 ‘Housing’ so no amendments to the assessment of the policy are considered necessary.
MM58	Paragraphs 11.32 and 1.36-11.37	<p>11.32. Chesterfield Railway Station is the first point of arrival or last point of departure for approximately 1.78 million passengers¹⁶., with usage growing by 3 - 5% per year. Over a million people live within a half hours drive time of the Station (AECOM research 2017). Currently three Train Operating Companies (East Midlands Trains, Northern Trains and the Cross Country franchise) call at the Station and it is the 6th busiest station in the East Midlands, with direct services available to London, Birmingham, Liverpool, the West Country and the North East and Scotland. The announcement in July 2017 that HS2 services to Sheffield will stop at the station when they commence in 2033 (subsequently revised as from 2035) creates the potential for further growth in services and investment.</p> <p>11.36. SCR has provided funding for further research and development of the Master Plan and its refinement, currently being prepared by Cushman & Wakefield,</p>	No - modification is a change to supporting text explaining how Policy SS7 will be implemented.

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		<p>Arup and Whittham Cox Architects This strategy should be in place by early 2019. <u>Consultation on the masterplan for the railway station area is expected to be undertaken in early 2020. This is likely to take the form of an overall concept masterplan and a more focused planning framework identifying appropriate uses, amounts of development and infrastructure requirements.</u> Funding for the Hollis Lane Link Road is to be has been set aside as part of the wider LGF funded A61 Corridor Project <u>and a planning application for the first phase of the road has been submitted.</u></p> <p>11.37. Key assets in the Station Master Plan area require Safeguarding. A new road alignment joining Crow Lane and Hollis Lane will improve access to the station from the south (and reduce traffic through Chesterfield Town Centre, see policy policies SS1 and LP24). There is also a need to ensure adequate land is safeguarded to allow for the development of an improved pedestrian bridge over the A61 to Corporation Street. The bridge would ideally be a statement piece of architecture and has been termed “Platform 4”: arrival to the Town Centre. Land has been also identified for and improved station forecourt, Multi-story car parks (to release development land), bus, taxi and cycling use, limited leisure and retail use, connected to station users and an area of public realm.</p>	
MM59	Policy SS7	<p>SS7 Chesterfield Railway Station</p> <p>Within land between Hollis Lane and Crow Lane, as shown on the policies map, the council will prepare an approved masterplan/development framework to maximise the regeneration benefits of future HS2 services and conventional rail services utilising the station. Within this area, and in accordance with the approved masterplan, <u>the council will support</u> development <u>based on the extent to which it that delivers</u> for:</p>	Yes – the new criterion relating to the assessment, evaluation and, if necessary, recording of archaeological remains should be acknowledged in the SA but overall a neutral impact is still considered appropriate given the nature of the proposals included in the policy (as explained in the SA matrix at Appendix B).

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		<ul style="list-style-type: none"> a) Improved access to Chesterfield Railway Station by all modes of transport including improved forecourt arrangements; b) Modernisation of Station facilities and electrification of the Midland Main Line through it; c) A new link road between Hollis Lane and Crow Lane and related road alignments; d) Improvements to the A61 Corporation Street footbridge, including its replacement with a new bridge; e) mixed use development to include residential dwellings (C3), commercial office space (B1), car parking; f) limited retail and leisure uses (A1 to A5 and D1 and D2) in association with the Station; g) Pedestrian and cycle links to Chesterfield Waterside, Chesterfield Town Centre and the; h) Essential infrastructure required to deliver the improvements set out in the approved masterplan. i) <u>Appropriate assessment, evaluation and, if necessary, recording of archaeological remains</u> j) <u>Improved inclusive accessibility to Chesterfield Railway Station and within the masterplan/development framework area.</u> <p>Planning Permission will not be granted for development that would prevent the delivery of the above improvements.</p>	<p>The criterion relating to increased inclusive accessibility will also contribute to SA Objectives 3 'Sustainable communities' and 12 'Accessibility.' However significant positive effects have already been identified for the policy so there is no impact on the previous appraisal.</p>
MM60	Policy SS8	<p>SS8 Neighbourhood Plans</p> <p>Where the views of a community are expressed in a Neighbourhood Plan they will be taken into account in the planning system provided that the plan:</p>	<p>No - the SA provides a high level appraisal of the policy and the proposed modification is not considered significant for the purposes of the SA.</p>

Note this is the table of Main Modifications that has been adapted for the purposes of the SA. For a full copy of the MMs, including the reason for each MM and appendices, with updates to background material, please refer to the original document published by the Council

Modification Reference	Policy/ Paragraph/ Page	Proposed Modification	Are there implications for the SA arising from the Main Modification?
		<ul style="list-style-type: none"> • has been endorsed adopted by Chesterfield Borough Council; and • is in conformity with the strategic policies of the Local Plan; and • can be regularly updated if necessary 	
MM62	Master Plan Diagram, p. 98	Deletion of master plan diagram on page 98 Chesterfield Waterside Illustrative Masterplan and replace with most recent illustrative master plan. See Associated Figures, Tables and Diagrams (Proposed Modifications) for the proposed modification.	No – update to supporting material not considered significant for the purposes of the SA.
MM64	Appendix ‘X’ Superseded development plan policies	See Appendices (Proposed Modifications) for the proposed modification.	No – update to list of superseded policies not considered significant for the purposes of the SA.
MM65	Appendix B – Open Space Standards, Quantitative Standards	See Appendices (Proposed Modifications) for the proposed modification.	No – update to open space standards not considered significant for the purposes of the SA.

Monitoring Framework			
MM66	Monitoring framework	See Appendices (Proposed Modifications) for the proposed modification.	Yes – modifications to the monitoring framework need to be acknowledged in the SA and the extent to which they will help meet monitoring requirements for the Strategic Environmental Assessment reviewed.
MM67	Monitoring framework	Housing Trajectory See Appendices (Proposed Modifications) for the proposed modification.	See comment at MM66
MM68	Monitoring framework	Employment Trajectory See Appendices (Proposed Modifications) for the proposed modification.	See comment at MM66

Appendix B

Housing numbers

SA Objective	Commentary	1: SHMA OAN 244 (270 allowing for under delivery)	2: Option 2 - CA/LEP aspirational growth 345 homes per annum	Option 3 – Option 1 plus Reserve Sites	<u>LHN (minimum 240 dwellings per annum)</u>
1. To ensure that housing stock meets the needs of all communities in the Borough	<p><u>Likely Significant Effects</u></p> <p>All of the options would make a significant contribution towards this objective.</p> <p>Option 3 provides more flexibility than Option 1 <u>and provision based on LHN</u>.</p> <p>Option 2 includes an element of aspirational (job-led) growth so would not just be about meeting needs in the Borough.</p> <p><u>Mitigation</u></p> <p>None identified</p> <p><u>Assumptions</u></p> <p>It is assumed that all options would optimise the use of previously developed land.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>	++	++	++	++
2. To improve health and reduce health inequalities	<p><u>Likely Significant Effects</u></p> <p>Additional housing could help support existing health infrastructure but also create demand for new facilities. The Local Plan would need to assess the need for new facilities and plan accordingly. There would also be health benefits associated with the provision of good quality affordable housing that would be delivered under each option.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>	++	++	++	++
3. To create sustainable communities	<p><u>Likely Significant Effects</u></p> <p>All of the options would make a significant contribution towards this objective.</p>	++	++	++	++

	<p>Mitigation</p> <p>None identified</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>				
<p>4. To enhance and conserve the cultural heritage of the borough</p>	<p>Likely Significant Effects</p> <p>All of the options could potentially impact on this objective but the impacts are uncertain and would depend on how development was accommodated.</p> <p>Mitigation</p> <p>None identified.</p> <p>Assumptions</p> <p>It is assumed that all options would optimise the use of previously developed land and buildings.</p> <p>Uncertainties</p> <p>See comments above.</p>	?	?	?	?
<p>5. To protect and enhance biodiversity</p>	<p>Likely Significant Effects</p> <p>All of the options could potentially impact on this objective but the impacts are uncertain and would depend on how development was accommodated.</p> <p>Option 2 involves the greater number of dwellings and is more likely to involve the use of the most greenfield land and could therefore have the greater potential for adverse impacts on biodiversity but this is uncertain.</p> <p>Mitigation</p> <p>None identified.</p> <p>Assumptions</p> <p>It is assumed that all options would optimise the use of previously developed land and buildings.</p> <p>Uncertainties</p> <p>See comments above.</p>	?	-/?	?	?

<p>6. Protect and manage the landscape of North East Derbyshire</p>	<p><u>Likely Significant Effects</u></p> <p>All of the options could potentially impact on this objective but the impacts are uncertain and would depend on how development was accommodated.</p> <p>Option 2 involves the greater number of dwellings and is more likely to involve the use of the most greenfield land and could therefore have the greater potential for adverse impacts on landscape but this is uncertain.</p> <p><u>Mitigation</u></p> <p>None identified.</p> <p><u>Assumptions</u></p> <p>Assumed that Option 2 would require more greenfield land than the other options.</p> <p><u>Uncertainties</u></p> <p>See comments above.</p>	?	-/?	?	?
<p>7. To manage prudently the natural resources of the region including water, air quality, soil and minerals</p>	<p><u>Likely Significant Effects</u></p> <p>All of the options could impact on this objective. Option 2 would involve the most development and has been assessed on that basis.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>	-/?	--/?	-/?	-/?
<p>8. Plan for the anticipated different levels of climate change</p>	<p><u>Likely Significant Effects</u></p> <p>Performance against this objective is considered to be neutral as it is assumed that all options would adopt a sequential approach to the identification of sites for housing.</p> <p><u>Mitigation</u></p> <p>None identified.</p> <p><u>Assumptions</u></p>	0	0	0	0

	See comment above. Uncertainties None identified.				
9. Minimise the borough's contribution to climate change	Likely Significant Effects All of the options could impact on this objective. Option 2 would involve the most development and has been assessed on that basis. Mitigation None required. Assumptions None identified. Uncertainties None identified.	-/?	--/?	-/?	-/?
10. Minimise the environmental impacts of waste and pollution	Likely Significant Effects All of the options could impact on this objective. Option 2 would involve the most development and has been assessed on that basis. Mitigation None identified. Assumptions None identified. Uncertainties None identified.	-/?	--/?	-/?	-/?
11. Develop a strong culture of enterprise and innovation	Likely Significant Effects Performance against this objective is considered to be neutral given the focus of the options on housing growth. Mitigation None required.	0	0	0	0

	<p><u>Assumptions</u> None identified.</p> <p><u>Uncertainties</u> None identified.</p>				
<p>12. Improve the accessibility to jobs and services</p>	<p><u>Likely Significant Effects</u> It is assumed that housing and employment growth would be balanced under all options. Option 2 performs better because it is linked to job-led growth. If housing growth were to take place under this scenario in the absence of growth in employment opportunities then access to employment could worsen, hence the uncertain score.</p> <p><u>Mitigation</u> None required.</p> <p><u>Assumptions</u> None identified.</p> <p><u>Uncertainties</u> See comments above.</p>	<p>+/?</p>	<p>++/?</p>	<p>+/?</p>	<p>+/?</p>

An adverse impact on landscape character and visual amenity is likely.	0		-	The site has areas of low- high SWFR. All of site is in FZ1.	0		0		0		0	

Appendix D

Appraisal of Policies

SA Objective	Commentary	LP1 Spatial Strategy	LP2 Principles for Location of Development	LP3 Presumption in Favour of Sustainable Development	Cumulative Effect of the Draft Policies
<p>1. To ensure that housing stock meets the needs of all communities in the Borough</p>	<p><u>Likely Significant Effects</u></p> <p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>These policies would all contribute towards ensuring the Borough has sufficient housing stock. Policy LP1 sets out the Council's intent to make provision for 4,374 dwellings over the period 2018 to 2033. This policy is also concerned with regenerating certain areas, potentially ensuring more people have access to a range of housing better suited to their needs.</p> <p>Policy LP2 and LP3 would both ensure that new housing developments will contribute to the distinctiveness of the area and improve the local environment. Policy LP2 achieves this through requiring developments to be sited in sustainable locations, whilst policy LP3 sets out presumption in favour of sustainable development in accordance with national policy.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>	++	++	++	++
<p>2. To improve health and reduce health inequalities</p>	<p><u>Likely Significant Effects</u></p> <p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>These policies would all contribute towards improving the health and reducing health inequalities of residents across the Borough. Policy LP1 seeks to regenerate certain areas within the Borough, which has the potential improve people's access to health facilities and healthy leisure activities. This policy also affords protection to important</p>	++	++	++	++

SA Objective	Commentary	LP1 Spatial Strategy	LP2 Principles for Location of Development	LP3 Presumption in Favour of Sustainable Development	Cumulative Effect of the Draft Policies
	<p>strategic gaps and green wedges/spaces, which residents of the Borough use for healthy leisure activities.</p> <p>Policy LP2 requires developments to be sited in sustainable locations, ensuring the surrounding area has enough facilities and services to accommodate new residents. This policy also requires new developments to maximise opportunities for walking, cycling and public transport and new residential developments are expected <u>to be accessible to a range of key services, to be within 800m of important services/a centre.</u></p> <p>Policy LP3 creates a presumption in favour of sustainable development, seeking to secure development that realises economic, social and environmental benefits.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>				
3. To create sustainable communities	<p><u>Likely Significant Effects</u></p> <p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>These policies would all contribute towards the creation and maintenance of sustainable communities. Policy LP1 would result in the regeneration of certain areas in need, potentially creating new sustainable communities alongside strengthening existing communities in those areas. This policy also protects strategic gaps and green wedges, which are important for ensuring residents of the borough can access the countryside.</p>	++	++	++	++

SA Objective	Commentary	LP1 Spatial Strategy	LP2 Principles for Location of Development	LP3 Presumption in Favour of Sustainable Development	Cumulative Effect of the Draft Policies
	<p>Policy LP2 requires developments to be carefully sited to ensure they are integrated and connected to their surroundings and that transport options are available.</p> <p>Policy LP3 creates a presumption in favour of sustainable development, encouraging developments to improve the economic, social and environmental conditions of an area.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None identified</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>				
4. To enhance and conserve the cultural heritage of the borough	<p><u>Likely Significant Effects</u></p> <p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>Some of these Both policies would contribute to the Borough's ability to enhance and conserve its cultural heritage. Policy LP1 achieves this through protecting the green belt, strategic gaps and green wedges which are often important to the character and setting of the Borough's existing cultural heritage. Policy LP2 goes further, requiring developments to be carefully sited and not negatively impact upon their surrounding area. Policy LP3 provides a presumption in favour of sustainable development, affording some protection to the Boroughs cultural heritage.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p>	++	++	++	++

SA Objective	Commentary	LP1 Spatial Strategy	LP2 Principles for Location of Development	LP3 Presumption in Favour of Sustainable Development	Cumulative Effect of the Draft Policies
	<p><u>Assumptions</u></p> <p>It has been assumed that the design requirements established in LP21 will be followed in the creation of new developments resulting from these policies to ensure they are in keeping with the surrounding area.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>				
5. To protect and enhance biodiversity	<p><u>Likely Significant Effects</u></p> <p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>These policies would all have an impact on the Borough's ability to protect and enhance its biodiversity. These policies would encourage new development within the Borough which could result in a loss of biodiversity.</p> <p>However, policy LP1 affords protection to strategic gaps and green wedges which are often valuable sources of biodiversity. LP1 also protects Chesterfield's existing Green Belt. Policy LP2 requires developments to be carefully sited to ensure they do not impact upon biodiversity significantly. Policy LP3 creates a presumption in favour of sustainable development and requires developments to improve the environmental conditions of an area.</p> <p>It is therefore considered that these <u>both</u> policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>	++	++	++	++

SA Objective	Commentary	LP1 Spatial Strategy	LP2 Principles for Location of Development	LP3 Presumption in Favour of Sustainable Development	Cumulative Effect of the Draft Policies
6. Protect and manage the landscape of North East Derbyshire	<p><u>Likely Significant Effects</u></p> <p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>These policies would all have an impact on the Borough's ability to manage its landscapes. These policies would encourage new development within the Borough which could result in an impact on the Borough's landscapes. Policies LP1 <u>and LP2</u> to LP3 provide protection to the Borough's landscapes through requiring new developments to be carefully sited, in keeping with their surroundings and sustainable.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>It has been assumed that the design requirements established in LP21 will be followed in the creation of new developments resulting from these policies to ensure they are in keeping with the surrounding area.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>	++	++	++	++
7. To manage prudently the natural resources of the region including water, air quality, soil and minerals	<p><u>Likely Significant Effects</u></p> <p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>These policies would all have an impact on the Borough's ability to manage its resources. These policies would encourage new development within the Borough which could result in a loss of the Borough's resources. However, these policies all provide protection to the resources of the Borough through requiring new developments to be carefully sited in sustainable locations. These policies also protect</p>	+	+	+	+

SA Objective	Commentary	LP1 Spatial Strategy	LP2 Principles for Location of Development	LP3 Presumption in Favour of Sustainable Development	Cumulative Effect of the Draft Policies
	<p>important sources of the Borough resources such as strategic gaps, green wedges and Green Belt.</p> <p>It is therefore considered that these policies would all have a minor positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>				
8. Plan for the anticipated different levels of climate change	<p><u>Likely Significant Effects</u></p> <p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>Green Wedges and Strategic Gaps could assist with cooling during warmer periods although the nature of the area means that the urban heat island effect may be less of an issue when compared to more urbanised areas.</p> <p>These policies are not directly concerned with dealing with the predicted levels of climate change. However, through requiring developments to be carefully sited and in sustainable locations, new developments are more likely to be able to withstand the effects climate change. These policies also afford protection to important sources of biodiversity present within the Borough.</p> <p>It is therefore considered that these policies would all have a minor positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p>	+	+	+	+

SA Objective	Commentary	LP1 Spatial Strategy	LP2 Principles for Location of Development	LP3 Presumption in Favour of Sustainable Development	Cumulative Effect of the Draft Policies
	<p>These policies seek to encourage new development within the Borough, alongside ensuring developments are sustainable and sited in appropriate locations.</p> <p>These policies would require new developments to be sited carefully and in sustainable locations. Developments resulting from these policies will be better connected to their surrounding area, improving accessibility to jobs and services. These policies also have the potential to aid in the creation of a wide range of jobs and services.</p> <p>It is therefore considered that these policies would all have a major positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>				

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
1. To ensure that housing stock meets the needs of all communities in the Borough	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>Policy LP7, alongside policy LP2, does provide stringent criteria which provides an allowance for business and industrial sites to be re-purposed to non-employment uses. However, LP7 states that re-use should not inhibit the use of adjacent sites and would not lead to a deficiency in supply of employment land. Uncertainty exists with regard to how likely that part of the policy is likely to be used.</p> <p>Policy LP7 does enable the provision of live/work units but the scale of provision is uncertain hence an uncertain minor positive effect is identified.</p> <p>There is no relationship between policies LP8, LP10 and LP11 and this objective.</p> <p>Policy LP9 <u>could allow residential development where this accords with other criteria in the policy.</u> does make some provision for new housing to be permitted above ground floors or in locations that are not prime retail frontages and adequate access would be available for both uses. A minor positive effect is therefore anticipated.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>Uncertainties</p> <p>None identified.</p>	+/?	~	+	~	~	+/?
2. To improve health and reduce health inequalities	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p>	+	+	++	+	++	++

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
	<p>Policy LP7 supports existing jobs and business and employment growth. It will have an indirect minor positive effect in relation to health because of the health benefits associated with employment.</p> <p>Policy LP8 encourages tourist developments in locations that are accessible by walking and cycling and that that encourage physical activity and a minor positive effect is therefore identified.</p> <p>Policies LP9 and LP11 contribute in some way to ensuring the population of the Borough are healthier and aid in the reduction of health inequalities. Policy LP9 would ensure that the centres located across the Borough are inclusive, offering a wide range of health, leisure and entertainment services. Policy LP9 would therefore have a significant positive effect on this objective.</p> <p>Policy LP11 encourages new social infrastructure developments to be located in easily accessible locations and affords protection to existing social infrastructure. Social infrastructure development often contain services that are crucial to the health and wellbeing of a community, alongside providing potential healthy leisure activities e.g. sports centres etc. LP11 also allows for future expansion of facilities at Chesterfield Royal Hospital, Walton Hospital and Chesterfield College. Policy LP11 would therefore have a significant positive effect on this objective.</p> <p>Policy LP10 could help contribute to this objective by protecting existing centres and local shops and allowing new local shops. This could help ensure access to healthy and fresh food locally. Policy LP10 would therefore have a minor positive effect on this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>						

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
3. To create sustainable communities	<p><u>Likely Significant Effects</u></p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>Jobs and local services are important to creating and maintaining sustainable communities. Policy LP7 supports this objective through supporting existing businesses/services, alongside supporting the creation of new businesses/services. This would lead to more local services and jobs available to the people of Chesterfield and reduce the need for people to work outside of the area.</p> <p>Policy LP8 contributes to this objective by helping to enhance the offer of existing centres in the area, helping to enhance their vitality and viability.</p> <p>The Borough's Centre's, retail and social infrastructure all play an important role in ensuring communities are sustainable. Policy LP9 achieves this through ensuring the Centre's located across the Borough provide a wide range of services to support the nearby local communities.</p> <p>Policy LP10 ensures that new retail developments are located in suitable areas where there is a need for it. Furthermore, it allows for the creation of individual small shops which can service the day to day needs of the Borough's communities.</p> <p>Finally, Policy LP11 allows for the creation or improving of new and existing social infrastructure. Local community or recreational facilities are fundamental to maintaining a strong and sustainable community. LP11 also affords protection to existing social infrastructure.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None identified</p> <p><u>Assumptions</u></p>	++	++	++	++	++	++

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
	None identified. Uncertainties None identified.						
4. To enhance and conserve the cultural heritage of the borough	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>Tourists and visitors play an important role in contributing to and maintain the heritage of the borough. Policy LP8 promotes new tourist attractions that are located close to other tourist destinations, such as important heritage locations. Through attracting more tourists to the area, there is potential for the Borough's cultural heritage spots to be enjoyed by more people. Policy LP8 is clear that tourism development will only be encouraged in areas that can accommodate further visitor numbers. This would reduce the likelihood of damage being caused to the Borough's existing heritage assets from over-visitiation.</p> <p>It is therefore considered that policy LP8 would have a significant positive impact upon the council's ability to achieve this objective, whilst the remaining policies are considered to be unrelated.</p> <p>Mitigation</p> <p>The design of any developments must be in keeping with the surrounding area to ensure they do not negatively impact upon the cultural heritage of the area, as required by policy CS18.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>	~	++	~	~	~	0
5. To protect and enhance biodiversity	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor</p>	?	0	0	0	0	0

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
	<p>economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>Policy LP7 allows for the creation of new business and industrial developments which could have an impact upon the Borough's biodiversity. It is noted that the policy only supports rural developments where they are an appropriate size and scale.</p> <p>Policy LP8 only supports tourism developments where they are appropriate to the local environment and context.</p> <p>It is therefore considered that policy LP7 has an uncertain impact at this stage and other policies would have a neutral impact on the council's ability to achieve this objective. This is in contrast to Objective 6 below where the reference to landscape considerations in the policies is considered to be stronger.</p> <p>Mitigation</p> <p>None required. Any development would be considered against all policies in the Local Plan, including Policy LP17 which seeks to protect and enhance biodiversity.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>						
6. Protect and manage the landscape of North East Derbyshire	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>All policies would allow for the creation of new developments which has the potential to impact upon the landscapes of the Borough. However, policies LP7 and LP8 have criteria to minimise said developments impact on their surrounding landscape by being suitable to the surrounding area. LP9 would direct development to existing built up areas, especially when combined with policy LP2.</p>	+	+	+	+	+	+

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
	<p>It is therefore considered that these policies would all have a minor positive impact on the council's ability to achieve this objective.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>						
7. To manage prudently the natural resources of the region including water, air quality, soil and minerals	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>Both policies LP7 and LP8 could result in the loss of the Borough's soil resources as a result of development. However, policy LP2 seeks to direct development to previously developed land and avoid best and most versatile agricultural land. A minor negative to uncertain effect is therefore identified for policies LP7 and LP8.</p> <p>Policies LP9 to LP11 seek to direct development towards existing centres (potentially reducing impact on soils but could increase the use of other resources, though this should be mitigated by policies LP2 and LP21. A mixture of minor positive, minor negative and uncertain effects are therefore anticipated.</p> <p>Mitigation</p> <p>Policy LP2 creates a presumption in favour of developments located upon previously developed land.</p> <p>Assumptions</p> <p>It is assumed that policy LP2 will be able to ensure most new development is located outside of areas containing the best and most versatile agricultural land and other resources.</p>	-/?	-/?	+/-/?	+/-/?	+/-/?	+/-/?

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
	<p>It is also assumed that policy LP3 will ensure new developments are sustainable and sustainably constructed.</p> <p>Policy LP21 would aid policy LP3 by requiring new developments to be well designed, potentially reducing the amount of materials new developments need, reduce land-take and the environmental impacts of development.</p> <p>Uncertainties</p> <p>None identified.</p>						
8. Plan for the anticipated different levels of climate change	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>Given the focus of these policies, it is considered that these policies are unrelated to this objective.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p>	~	~	~	~	~	~
9. Minimise the borough's contribution to climate change	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>New employment and tourism related development will contribute to the borough's carbon footprint with increased emissions associated with the construction and operational phases, including transport related emissions.</p> <p>However, the new buildings resulting from these policies would be more energy efficient than older industrial and general</p>	-	-/?	+/-/?	+/-/?	+/-/?	+/-/?

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
	<p>business buildings. Furthermore, the policies require new developments to be sited carefully to ensure that they provide transport choice and reduce the need to travel.</p> <p>It is therefore considered that policy LP7 would have a minor negative impact on the council's ability to achieve this objective, whilst policy LP8 would have a minor negative to uncertain impact because the scale and location of development is uncertain.</p> <p>Policies LP9 to LP11 will have an effect on the Borough's ability to minimise its contribution to climate change through creating new developments which will all have some form of carbon footprint. However, the policies also seek to site their respective developments carefully, ensuring they are in prime locations to meet the needs of the surrounding community. This would result in people having better access to services and needing to not travel as far. These policies could achieve this to such a degree as to cause a modal shift towards walking or public transport. It is therefore considered that policies LP9 to LP11 would have a mixture of minor positive and minor negative effects with some uncertainty on how likely these outcomes are.</p> <p><u>Mitigation</u></p> <p>Policy LP21 needs to be maintained to ensure that developments are well designed and are mindful of their CO2 production. Policy LP21 could be strengthened to require commercial buildings to achieve BREEAM standards.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>						
10. Minimise the environmental impacts of waste and pollution	<p><u>Likely Significant Effects</u></p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p>	-	-	-	-	-	-

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
	<p>Employment related development is likely to result in more waste being produced in the area, as is tourism related development. Other policies in the plan seek to reduce waste and minimise pollution, therefore overall a minor negative effect is identified in relation to Policy LP7 and Policy LP8.</p> <p>Retail related development enabled by policy LP10 will generate waste but the scale of the amount of waste that would be produced is uncertain. It is therefore considered to have a minor negative effect on this objective.</p> <p>Policy LP9 would see the creation of waste and pollution during the construction and operation of new developments within Centres. Similarly; Policy LP11 would see the creation of waste during the construction and operation of social infrastructure developments. Minor negative effects are identified on this basis.</p> <p>Mitigation</p> <p>Policy LP21 requires developments to demonstrate that they minimise waste and Policy LP15 seeks to minimise pollution.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>						
11. Develop a strong culture of enterprise and innovation	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>Policy LP7 allows for a wide range of industrial and business developments. Policy LP8 permits the creation of tourist developments. Freedom to create new industrial, tourist and service developments is important for fostering a strong culture of enterprise and innovation.</p> <p>The retail sector and community, leisure, cultural, religious education and health facilities will provide opportunities for employment and Policy LP9 in particular provides the flexibility</p>	++	++	+	+	+	++

SA Objective	Commentary	LP7 Economic Growth	LP8 Tourism and the Visitor Economy	LP9 Vitality and Viability of Centres	LP10 Retail	LP11 Social Infrastructure	Cumulative Effect of the Draft Policies
	<p>for some innovation in centres, subject to the retail function of centres being maintained. These policies will help safeguard existing employment and create new employment opportunities associated with new development.</p> <p>It is therefore considered that policies LP7 and LP8 would have a significant positive impact on this objective.</p> <p>Policies LP9 to LP10 would all have a minor positive impact on the council's ability to achieve this objective.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>						
12. Improve the accessibility to jobs and services	<p>Likely Significant Effects</p> <p>These policies seek to create flexible and sustainable economic growth alongside supporting the Borough's tourism and visitor economy and maintain the vitality and viability of Chesterfield's Centres, retail and social infrastructure.</p> <p>Policies LP7 and LP8 allow for the development in sustainable locations.</p> <p>Policies LP9 to LP11 seek to create new developments ranging from small scale retail stores to potentially big social infrastructure developments. New developments resulting from these policies will be located in appropriate areas and Centre's, ensuring the public have increased access to jobs and services.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p>Mitigation</p> <p>None required.</p>	++	++	++	++	++	++

SA Objective	Commentary	LP15 A Healthy Environment	LP16 Green Infrastructure and Biodiversity	LP17 Biodiversity, Geodiversity and the Ecological Network	LP18 Open Space, Play Provision, Sports and Recreational Facilities and Allotments	LP19 Chesterfield Canal	LP20 River Corridors	Cumulative Effect of the Draft Policies
1. To ensure that housing stock meets the needs of all communities in the Borough	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors.</p> <p>Policy LP15 requires new housing developments to consider the local environment and the amenity of those around them.</p> <p>Policy LP16 encourages developments to utilise green infrastructure to improve the connectivity of a development and requires a clear plan on how green infrastructure would be maintained.</p> <p>Policy LP17 ensures that new housing developments are permitted so long as they protect, enhance and mitigate their effects on local biodiversity/natural assets that are important for existing and future local residents.</p> <p>Policy LP18 makes a significant positive contribution to the achievement of this objective by ensuring that new housing includes access to public open space, sports and recreation facilities.</p> <p>Policy LP19 'Chesterfield Canal' includes provision for residential development at Staveley Basin and will make a minor positive contribution to this objective.</p> <p>No relationship identified between Policy LP20 'River Corridors' and this objective.</p> <p>These policies would help ensure that new homes are in a good environment and include green infrastructure which meet the needs of the Boroughs current and future residents.</p>	++	++	++	++	+	~	++

	<p>It is therefore considered that these policies would all have a significant positive effect on the council's ability to achieve this objective, besides policies LP19 and LP20 which would have a minor positive and no relation effect respectively.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>							
<p>2. To improve health and reduce health inequalities</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors.</p> <p>Policy LP15 seeks to protect the natural environment of the Borough, which is important for the day to day health of its residents. Furthermore, developments must not have an unacceptable impact upon the amenity on the existing built environment.</p> <p>Policy LP16 affords protection to the green spaces and infrastructure of the Borough, ensuring there is ample opportunity for residents to enjoy a healthy lifestyle.</p> <p>Policy LP17 affords protection to the important biodiversity and natural assets of the region which would contribute to achieving this objective by ensuring current open sites that are used by existing and future residents are not compromised. Natural places are important for the health of residents and make for better places to live.</p> <p>Policy LP18 will make a significant positive contribution to this objective by ensuring that development has access to open space, play provision, sports and recreational facilities and allotments, providing opportunities for exercise, walking and access to healthy food.</p> <p>Policy LP19 'Chesterfield Canal' encourages walking and cycling and use of the canal for recreation and leisure</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>

	<p>where this is consistent with public health considerations, making a significant positive contribution towards this objective.</p> <p>Policy LP20 'River Corridors' also encourages walking, cycling and access for recreation and has been appraised on the same basis as LP19.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>							
<p>3. To create sustainable communities</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors.</p> <p>Policy LP15 requires new developments to contribute to their local environment. This protect extends to ensuring the amenity of existing developments is not sacrificed by new developments, protecting existing and future residents from such issues as noise and air pollutions that can severely hamper the cohesiveness of a local community.</p> <p>Policy LP16 seeks to improve how connected developments are, allowing for communities to better mingle and integrate.</p> <p>The protection afforded to biodiversity and other natural assets in policy LP17 is important to this objective as it means new communities created by new developments do not compromise these natural assets. Natural places often form an important part of local communities and can</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>+</p>	<p>+</p>	<p>++</p>

	<p>act as melting pots where people from different communities interact.</p> <p>The open spaces and facilities required by policy LP18 can aid in the creation and strengthening of local communities.</p> <p>Both policies LP19 and LP20 seek to ensure that new development preserves and enhances access to and from the canal and rivers, which will contribute towards this objective.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective, besides policies LP19 and LP20 which would have a minor positive effect.</p> <p>Mitigation</p> <p>None identified</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>							
<p>4. To enhance and conserve the cultural heritage of the borough</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors.</p> <p>Policy LP15 ensures that local heritage assets are not negatively affected by new developments located nearby through creating unreasonable amount of noise, pollution and other similar effects.</p> <p>Policy LP16 is not directly related to this objective, though well maintained green infrastructure can help to enhance local heritage assets. A minor positive effect is therefore anticipated.</p> <p>Policy LP17 directly protects existing ancient woodlands from development.</p>	<p>++</p>	<p>+</p>	<p>++</p>	<p>+</p>	<p>++</p>	<p>+</p>	<p>++</p>

	<p>Policy LP18 makes a minor positive contribution to the objective, as some open spaces can also contribute to cultural heritage.</p> <p>Policy LP19 'Chesterfield Canal' makes a significant positive contribution towards this objective as the Canal is a key heritage asset within the borough.</p> <p>Policy LP20 'River Corridors' seeks to protect the existing character of the environment of rivers and could therefore contribute to this objective, a minor positive effect is identified.</p> <p>It is therefore considered that policies LP15, LP17 and LP19 would have a significant positive impact on the council's ability to achieve this objective, whilst policy LP18 could have an indirect positive impact on this objective, e.g. if open spaces contribute to the setting of heritage features but are not themselves designated as such.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>							
<p>5. To protect and enhance biodiversity</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors. These policies are directly related to the protection and enhancement of biodiversity. The policies require new developments to consider and reduce their impact on the local environment and biodiversity of the area (especially policy LP17).</p> <p>Where necessary, policy LP18 can require the creation of new open spaces which could become important sources of biodiversity.</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>+</p>	<p>±±</p>	<p>++</p>

	<p>Policy LP19 'Chesterfield Canal' makes a minor positive contribution towards this objective by requiring that proposals do not have an adverse impact on habitats.</p> <p>Policy LP20 'River Corridors' <u>seeks to protect existing biodiversity and ecological value and habitat connectivity. It also requires new development proposals on or adjacent to the river corridor to investigate the creation and management, of ecological buffer strips and corridors to preserve and enhance the biodiversity of the area. The policy also seeks to remove or enhance weirs to improve fish passage which will make a minor contribution towards this objective. A significant positive effect is therefore identified.</u></p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective, besides policies LP19 and Policy LP20 which would have a minor positive effect.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>							
<p>6. Protect and manage the landscape of North East Derbyshire</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors. These policies would protect the landscapes of the Borough by requiring developments to consider and reduce their impact upon the local environment.</p> <p>Policy LP15 protects the air quality and water resources of the Borough, both of which are important to its landscape character.</p> <p>Policy LP16 specifically requires developments to protect or enhance the landscape character of the Borough and</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>+</p>	<p>++</p>

	<p>to increase the tree coverage of the region where possible to help protect and preserve local amenity and character.</p> <p>Policy LP17 protects important areas of biodiversity and natural assets. Such places often form an important part of local landscapes. Therefore, their protection helps to preserve the landscapes of the Borough.</p> <p>Policy LP18 allows for the creation of new open spaces and seeks to protect and enhance existing open spaces. Similar to policy LP17, such open spaces often form more important aspects of the local landscape character and their protection, or the creation of new open spaces, would conserve and potentially enhance the Borough's landscapes.</p> <p>Policy LP19 'Chesterfield Canal' makes a significant positive contribution towards this objective by seeking to secure improvement and enhancement of the Canal.</p> <p>Policy LP20 'River Corridors' seeks to avoid development which would prejudice the existing character of and/or the future potential for the improvement and enhancement of the environment of rivers which will make a minor contribution towards this objective.</p> <p>Besides policy LP20, the other policies of this section of the Local Plan would have a significant positive effect on this objective.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>							
<p>7. To manage prudently the natural resources of the region including water, air quality, soil and minerals</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors.</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>

	<p>Policy LP15 will protect the Borough's resources through requiring developments to minimise their impact upon the Borough's air quality, water resources and unstable and contaminated land. New developments would also be advised to have regard for the measures set out in any Air Quality Action Plan.</p> <p>Policy LP16 provides protection to the Borough's important green infrastructure and seeks to create new green infrastructure which could expand the amount of natural resources being protected in the future.</p> <p>Policy LP17 affords protection to important areas of biodiversity and other natural assets which are often areas of important soil resources and/or water resources.</p> <p>Policy LP18 has the potential to create new open spaces free from development and thus act to safeguard the Borough's soil resources to some degree.</p> <p>Policy LP19 'Chesterfield Canal' makes a significant positive contribution towards this objective because it prevents development that would prejudice the environment (including the water environment).</p> <p>Policy LP20 'River Corridors' could contribute to this objective by helping to maintain/enhance water quality in rivers, although this is not an explicit objective of the policy.</p> <p>It is therefore considered that these policies would all have a significant positive impact on the council's ability to achieve this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>							
8. Plan for the anticipated different levels of	<p><u>Likely Significant Effects</u></p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green</p>	++	++	++	+	+	+	++

climate change	<p>infrastructure and biodiversity of the Borough and protect important canal and river corridors.</p> <p>Policies LP15 and LP17 would protect important sources of biodiversity and landscape character across the borough, through making new developments unlikely where they impact severely upon these assets. A significant positive effect is therefore identified.</p> <p>Policy LP16 could see the creation of new green infrastructure that increase its local areas resilience to the primary effect of climate change (flooding) and would ensure green infrastructures maintenance. A significant positive effect is therefore identified.</p> <p>Policy LP18 could contribute to climate change adaptation by helping to mitigate the urban heat island effect. Minor positive effects is therefore identified.</p> <p>The role of the Canal in helping to manage water is not acknowledged in Policy LP19 'Chesterfield Canal' but clearly the Canal could have a role in doing so. A minor positive contribution towards the achievement of this objective is therefore identified. Policy LP20 'River Corridors' is appraised on the same basis.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p>							
9. Minimise the borough's contribution to climate change	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors. Policy LP15 seeks to ensure that new developments do not contribute to reducing the air quality of an area, which could have a minor positive effect on this objective by reducing the amount of greenhouse gases and other pollutants produced.</p> <p>Policy LP16 seeks to increase tree coverage across the Borough and also seeks to provide new green</p>	+	++	~	~	+	+	+

	<p>infrastructure which could encourage more sustainable forms of transport. A significant positive effect is therefore identified.</p> <p>LP17 and LP18 are considered to be unrelated to this objective.</p> <p>Both policies LP19 and LP20 will encourage the use of walking and cycling, helping to reduce greenhouse gas emissions. Policy LP20 'River Corridors' also seeks to enable hydroelectric power schemes.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>							
<p>10. Minimise the environmental impacts of waste and pollution</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors. Policy LP15 requires developments to mitigate any impact they could have upon the water resources of the Borough, including groundwater. The policy also seeks to protect air quality and ensure the appropriate remediation of contaminated and unstable land and therefore would have a significant positive effect on this objective.</p> <p>LP16 could have a minor positive effect through increase the tree coverage and green infrastructure found within the Borough.</p> <p>LP17 would have a significant positive effect on this objective by seeking to protect the important biodiversity and natural assets of the Borough through requiring developments to mitigate their potential effects on them. This could result in new developments producing less waste and pollutants.</p>	<p>++</p>	<p>+</p>	<p>++</p>	<p>+</p>	<p>+</p>	<p>+</p>	<p>++</p>

	<p>Policies LP18, LP19 and LP20 make a minor positive contribution towards this objective because it prevents development that would prejudice the environment.</p> <p>Mitigation</p> <p>None identified.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>							
<p>11. Develop a strong culture of enterprise and innovation</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green infrastructure and biodiversity of the Borough and protect important canal and river corridors. These policies would foster a culture of innovation and enterprise through encouraging developers to be creative in how they mitigate their impact on the local environment and biodiversity, whilst also continuing to grow the Boroughs economy and provide important outdoor facilities i.e. open spaces, sports facilities etc.</p> <p>It is therefore considered that these policies would all have a minor positive impact on the council's ability to achieve this objective.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>	+	+	+	+	+	+	+
<p>12. Improve the accessibility to jobs and services</p>	<p>Likely Significant Effects</p> <p>These policies seek to ensure that development takes account of flood risk, improve the drainage network and maintain and enhance the environment, green</p>	~	~	~	~	+	~	~

	<p>infrastructure and biodiversity of the Borough and protect important canal and river corridors. Policy LP19 'Chesterfield Canal' makes a minor positive contribution towards this objective because it provides for employment related uses at Staveley Basin and also seeks to ensure that other developments are accessible from the Canal.</p> <p>Given the focus of the remaining policies, it is considered that these policies are unrelated to this objective.</p> <p><u>Mitigation</u></p> <p>None required.</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>							
--	--	--	--	--	--	--	--	--

SA Objective	Commentary	SS1 Chesterfield Town Centre	SS2 Chatsworth Road Corridor	SS3 Chesterfield Waterside and the Potteries	SS4 Markham Vale	SS5 Staveley and Rother Valley Corridor	SS6 Land at Dunston	SS7 Chesterfield Railway Station	SS8 Neighbourhood Plans	Cumulative effect of policies
1. To ensure that housing stock meets the needs of all communities in the Borough	<p>Likely Significant Effects</p> <p>Policy SS1 Chesterfield town centre reflects proposals in the Town Centre Masterplan. The area is anticipated to include some housing development, e.g. in the Spire neighbourhood, contributing towards the achievement of this objective.</p> <p>Policy SS2 allows for development along the Chatsworth Road corridor.</p> <p>Policy SS3 – outline planning consent was granted in 2011 for the comprehensive redevelopment of the Chesterfield Waterside Area including provision of up to 1550 new dwellings. A significant positive contribution towards this objective is therefore anticipated.</p> <p>Policy SS4 – Markham Vale is an employment site and does not therefore impact on this objective.</p> <p>Policy SS5- the Staveley and Rother Valley Corridor includes provision for residential development (approximately 1500 new dwellings). A significant positive contribution towards this objective is therefore anticipated.</p> <p>Policy SS6 – The Land at Dunston site is expected to provide approximately 800 <u>500</u> new dwellings (in addition to 300 that are under construction) and has therefore been scored as having a significant positive effect on this objective for this reason.</p> <p>Policy SS7 – This policy allows for the creation of some mixed used development that could provide some amount of new dwellings, though the policy is primarily concerned with infrastructure improvements. A minor positive effect is therefore identified.</p>									
		+	+	++	~	++	++	+	?	++

	<p>SS8 – This policy relates to Neighbourhood Plans which could both aid or hinder the creation of new housing, though they do have to accord with the Local Plan. An uncertain effect is therefore identified.</p> <p>Mitigation</p> <p>It was previously suggested that Policies SS1 and SS2 could confirm the anticipated number of dwellings to be provided in the plan period and beyond – the revised Local Plan does that.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>									
2. To improve health and reduce health inequalities	<p>Likely Significant Effects</p> <p>All of the policies are judged to make a significant contribution towards this objective. They will help address existing deprivation by providing homes, employment, community facilities, leisure facilities, improved connectivity and enhanced public transport, tackling flood risk and provision of open spaces. Policy SS8 could further contribute to the above by identifying local needs and working to meeting these needs through continuously updated Neighbourhood Plans.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>	++	++	++	++	++	++	++	++	++
3. To create sustainable communities	<p>Likely Significant Effects</p> <p>All of the policies are judged to make a significant contribution towards this objective. They will help address existing deprivation by providing homes, employment, community</p>	++	++	++	++	++	++	++	++	++

	<p>facilities, leisure facilities, improved connectivity and enhanced public transport <u>improved inclusive accessibility to Chesterfield Railway station and wider area</u>, tackling flood risk and provision of open spaces. Policy SS8 could further contribute to the above by identifying local needs and working to meeting these needs through continuously updated Neighbourhood Plans. It could also help to create more sustainable communities.</p> <p><u>Mitigation</u></p> <p>None identified</p> <p><u>Assumptions</u></p> <p>None identified.</p> <p><u>Uncertainties</u></p> <p>None identified.</p>									
<p>4. To enhance and conserve the cultural heritage of the borough</p>	<p><u>Likely Significant Effects</u></p> <p>Policy SS1 in relation to Chesterfield Town Centre identifies the need to protect and enhance the historic character of the centre and the role of the Historic market and Market Hall, a significant positive effect.</p> <p>Policy SS2 Chatsworth Rd corridor includes proposals for the use of the Walton Works, which includes a Grade II Listed Building and Griffin Mill/Wheatbridge Mill, which includes the Grade II Listed Building, Cannon Mil, a significant positive effect.</p> <p>Policy SS3 Chesterfield Waterside and the Potteries has received outline planning consent, no significant effects are anticipated in relation to cultural heritage, Chesterfield Canal and its setting is an important non-designated asset.</p> <p>Policy SS4 in relation to development at Markham Vale identifies the need for development to have no unacceptable impacts upon heritage assets, their settings and key views outside of the Borough at Bolsover Castle and Sutton Scarsdale Hill, given the way the policy is couched a minor positive effect is</p>	<p>++</p>	<p>++</p>	<p>~</p>	<p>+</p>	<p>++</p>	<p>+</p>	<p>0</p>	<p>+</p>	<p>++</p>

	<p>identified. Significant elements of the original planning permission have already been implemented.</p> <p>Policy SS5 includes provision for development of a masterplan that will conserve and enhance the quality of the historic environment, taking account of designated and non-designated heritage assets within and closely related to the site. Relevant features include Barrow Hill Conservation Area, Staveley Conservation Area and its setting, Grade II listed Cavandish Place: 1, 2 and 3 Barrow Hall, these form the earliest surviving components of the industrial settlement of Barrow Hill, potential for non-designated archaeology, particularly from the former industrial use of the site. A significant positive effect is identified on this basis.</p> <p>Policy SS6 – the site includes several Grade II Listed buildings and a registered park and garden which forms part of Dunston Hall. Whilst not specifically mentioning the protection of heritage assets, there is already planning permission for a 300 dwelling scheme and the 800 500 additional dwellings proposed over the lifetime of the plan should not have a negative effect on local heritage assets. <u>This is due to the requirement for a masterplan, which would consider the potential for any further impacts on the setting of the designated heritage features. Policy SS6 requires development proposals to demonstrate appropriate mitigation to minimise any adverse impacts on nearby heritage assets and their settings and the production of a masterplan which would consider the potential for any further impacts on the setting of the designated heritage features. A minor positive effect is identified on this basis, given that the emphasis is on mitigation rather than enhancement.</u></p> <p>Policy SS7 – Allows for the creation of a range of developments but predominantly focuses upon providing infrastructure improvements. Through the masterplan, local heritage assets should not be compromised, though it is harder to integrate infrastructure into the built environment than it is housing or employment developments. <u>The policy also includes a requirement for appropriate assessment.</u></p>									
--	--	--	--	--	--	--	--	--	--	--

	<p><u>evaluation and, if necessary, recording of archaeological remains.</u> A neutral effect is therefore identified.</p> <p>Policy SS8 – This policy relates to Neighbourhood Plans which could aid in the protection of heritage assets that are located in areas that have/will have a neighbourhood plan that seeks to preserve local heritage assets. A minor positive effect is therefore identified.</p> <p>Mitigation</p> <p>Amend Policy SS5 criterion l) to include reference to designated and non-designated heritage assets <u>and their settings</u> within and closely related to the site. The policy could reference the role of green infrastructure in preserving their setting.</p> <p>Assumptions</p> <p><u>Policy LP22 ‘Historic Environment’ encourages the enhancement of heritage assets and their setting wherever possible.</u></p> <p>Uncertainties</p> <p>None identified.</p>									
<p>5. To protect and enhance biodiversity</p>	<p>Likely Significant Effects</p> <p>Policy SS1 – No significant effects are anticipated in relation to this objective.</p> <p>Policy SS2 – is adjacent to the River Hipper which could be important for bats and water voles. The policy is silent on the need to address ecological issues. It will also be important to provide stepping stone habitats on the site boundary using native species to enhance the biodiversity value of the river corridor.</p> <p>Policy SS3 – Chesterfield Waterside has outline planning permission and phased development has commenced. The policy is silent on the need to address ecological issues associated with the River Rother and Chesterfield canal. The potential for a minor negative effect has therefore been identified. The policy does highlight the need to provide a</p>	~	-	-/+	~	-/+	-/+	-/?	+	-/+/?

	<p>green corridor, which could have ecological benefits, a mixed score of minor negative / positive has therefore been identified.</p> <p>Policy SS4 – Markham Vale – The outline planning consent for Markham vale includes a condition relating to ecological surveys of phases, protected species translocation, methods for protecting existing features in-situ and principles of ongoing long-term management. The Local Plan is silent in respect of ecology but the existing consent provides protection, in terms of assessing the effects of the policy in the plan no significant effect is anticipated as the plan is not adding anything beyond the outline consent. The policy does mention that it is required to meet the requirements of other relevant planning policies which should ensure the Markham Vale is sustainable.</p> <p>Policy SS5 – Staveley and Rother Valley Corridor identifies the opportunity to enhance wetland habitats in appropriate areas, this could be a significant positive benefit, however there is also a potential for development to impact on existing sites of importance for biodiversity, these include Norbriggs Flash Local Nature Reserve and Pinnock North Flash Local Wildlife Site, Ashgate Plantation Local Wildlife Site and Bluebank Pools Local Nature Reserve. Chesterfield Canal is also designated as a Local Wildlife Site and could support water voles. The potential for a minor negative effect has also been identified, resulting in a mixed score.</p> <p>Policy SS6 – The Land at Dunston policy would see the creation of new developments that could have an effect on local biodiversity. However, developments are required to conform to a master plan that requires the implementation of green infrastructure, open spaces and landscape planting scheme, which could potentially reduce any of the developments potential negative effects on local biodiversity assets. A mixture of minor positive and minor negative effects are therefore identified.</p>									
--	--	--	--	--	--	--	--	--	--	--

	<p>Policy SS7 – This policy encourages considerable development in and around the Chesterfield Railway Station and does not consider biodiversity. New developments would naturally have an effect on the biodiversity of an area (minor negative) though uncertainty exists as it is unknown if the built up area of the site contains many/if any biodiversity assets.</p> <p>Policy SS8 – Up to date Neighbourhood Plans could provide protection to important biodiversity assets and even provide more detailed local information about the biodiversity of an area. A minor positive effect is therefore identified.</p> <p>Mitigation</p> <p>Policy SS2 should highlight the need to consider ecological issues associated with the River Hipper and provide new habitats to enhance the river corridor. It could also highlight the need for a mitigation strategy in relation to bats, e.g. associated with lighting.</p> <p>Policy SS3 could highlight the need to enhance biodiversity along the River Rother corridor and canal.</p> <p>Policy SS5 should highlight the need for development proposals to protect and enhance existing ecological designations and linkages between the corridor of designated sites that link the River Doe Lea to the River Rother.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>None identified.</p>									
<p>6. Protect and manage the landscape of North East Derbyshire</p>	<p>Likely Significant Effects</p> <p>All of the sites involve the use of previously developed land to some degree, which will help improve the wider landscape.</p> <p>Policy SS1 Identifies the need to enhance gateways into the town which is judged to</p>	+	+	+	0	-/+	+	+/-	+	+

	<p>make a minor positive contribution to this objective.</p> <p>Policy SS2 identifies the need to integrate the site into a network of green spaces, such as Walton Dam and the River Hipper corridor which is judged to make a minor positive contribution to this objective.</p> <p>Policy SS3 involves the redevelopment of a site on the edge of the built up area, redevelopment will benefit the wider landscape and a minor positive effect is identified.</p> <p>The Markham Vale site (Policy SS4) has an approved design framework associated with the outline planning consent and development is required to accord with this. No real significant effects arising from the Local Plan policy are therefore anticipated.</p> <p>The Staveley and Rother Valley Corridor (Policy SS5) is the largest regeneration opportunity in the borough, covering approximately 150ha. The site consists mostly of vacant former industrial land. The quality of the wider landscape is high as the sites within the valley of the River Rother, with open countryside close by. The Local Plan requires a comprehensive Master Plan approach to development of the area.</p> <p>Given that the Local Plan requires a Master Plan for the area as a whole there is uncertainty as to the impact of development on the wider landscape, so while benefits will arise from the redevelopment of previously developed land and buildings there is the potential for negative effects on the wider landscape.</p> <p>Policy SS6 – The Land at Dunston policy allows for the creation of new development in keeping with a masterplan and for the site to reduce its effects on the landscape though good design by requiring the implementation of a carefully designed landscape treatment. A minor positive effect is therefore identified.</p> <p>Policy SS7 – The policy allows for the creation of a wide range of developments but is primarily focused on providing new</p>									
--	--	--	--	--	--	--	--	--	--	--

	<p>infrastructure in line with a masterplan. A mixture of minor positive and minor negative effect is therefore identified as it can be harder to integrate infrastructure developments into a landscape and built environment.</p> <p>Policy SS8 – Neighbourhood Plans can aid in protecting local landscapes and identifying what makes landscapes special through local knowledge. A minor positive effect is therefore identified.</p> <p>Mitigation</p> <p>Policies SS5, SS6 and SS& should all include a criterion to ensure that the comprehensive Master Plan and development proposals demonstrate how development would sit within the wider landscape.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p> <p>Given that some of the policies of the Local Plan requires a Master Plan for their respective areas as a whole there is uncertainty as to the impact of development on the wider landscape.</p>									
<p>7. To manage prudently the natural resources of the region including water, air quality, soil and minerals</p>	<p>Likely Significant Effects</p> <p>All of the proposals involve the re-use of previously developed land and buildings, helping to reduce the need for greenfield development in the borough.</p> <p>The Markham Vale outline consent includes a condition requiring the use of soil management plans.</p> <p>Policy SS8 has no relationship to this objective.</p> <p>Mitigation</p> <p>None required.</p> <p>Assumptions</p> <p>None identified.</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>~</p>	<p>++</p>	<p>++</p>

	<u>Uncertainties</u>									
8. Plan for the anticipated different levels of climate change	<p><u>Likely Significant Effects</u></p> <p>Policy SS1 is assessed on the basis that the proposed area of residential development at St Mary's Gate and the A61 is not within an area of flood risk.</p> <p>Policy SS2 is assessed on the basis that the area south of Chatsworth Rd, which includes residential development is outside of a flood risk area.</p> <p>Policy SS3 is within a flood risk area but the policy identifies the need to manage flood risk, a minor positive effect is therefore anticipated.</p> <p>The principle of development at Markham Vale has been established through an outline consent and significant elements of the original permission have been implemented. No significant effects arising from the Local Plan Policy SS4 are anticipated.</p> <p>Policy SS5 identifies the need for development at the Staveley and Rother Valley Corridor to address issues associated with flood risk where they are relevant, e.g. the River Rother / Works Road Bridge area, a minor positive effect is identified.</p> <p>Policy SS6 – Any development that takes place within this site would need to accord with a masterplan and policy LP14 that would require development to be located outside of areas at risk of flood and/or is suitably resilient to flooding, resulting in a more resilient built environment.</p> <p>Policy SS7 – Any development that takes place within this site would need to accord with a masterplan and policy LP14 that would require development to be located outside of areas at risk of flood and/or is suitably resilient to flooding, resulting in a more resilient built environment.</p>	~	~	+	~	+	+	+	~	+

	<p>Policy SS8 – Is not considered to be related to this objective.</p> <p>Mitigation</p> <p>Policy LP14 relates to development in flood risk areas and also encourages the use of sustainable drainage systems.</p> <p>Assumptions</p> <p>None identified.</p> <p>Uncertainties</p>									
<p>9. Minimise the borough's contribution to climate change</p>	<p>Likely Significant Effects</p> <p>Policies SS1-SS3 contribute to this objective by seeking to secure development in a relatively sustainable location within the borough.</p> <p>Policy SS4 relates to Markham Vale where the principle for a large employment site has already been established and development is proceeding. The outline consent includes provision for improved public transport provision and a park and ride facility. The Local Plan policy does not have any additional effects over and above those associated with the outline consent.</p> <p>Policy SS5 relates to the Staveley and Rother Valley Corridor and promotes a range of facilities that will reduce the need to travel and associated Greenhouse Gas emissions. The policy also requires Travel Plans for specific areas within the corridor and a comprehensive approach to transport planning.</p> <p>Policy SS6 would encourage the use of more sustainable forms of transport, <u>transport mitigation for all users</u> and would provide a new local centre, potentially cutting down on the need for people to travel long distances for services and use a private car. A significant positive effect is therefore identified.</p> <p>Policy SS7 would provide new infrastructure improvements that would encourage the use of public transport and other more sustainable</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>~</p>	<p>++</p>	<p>++</p>	<p>++/-</p>	<p>+/?</p>	<p>++</p>

	<p>forms of transport (significant positive), alongside likely encouraging the use of private car (minor negative).</p> <p>Policy SS8 Neighbourhood Plans could try to encourage developments to adopt design practices or be in locations that would aid in achieving this objective, though the ability of Neighbourhood Plans to achieve this is uncertain.</p> <p>Mitigation None required.</p> <p>Assumptions None identified.</p> <p>Uncertainties None identified.</p>									
<p>10. Minimise the environmental impacts of waste and pollution</p>	<p>Likely Significant Effects</p> <p>With the exception of Policies SS4 and SS8, all of the sites provide an opportunity to address land contamination and, in the case of the Staveley and Rother Valley corridor, land instability.</p> <p>Mitigation None identified.</p> <p>Assumptions None identified.</p> <p>Uncertainties None identified.</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>~</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>~</p>	<p>++</p>
<p>11. Develop a strong culture of enterprise and innovation</p>	<p>Likely Significant Effects</p> <p>All of the policies include an employment element that could contribute towards this objective. The policy in relation to Policy SS4 Markham Vale includes a commitment to supporting uses in the advanced manufacturing sector and therefore a major positive effect is</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>

	<p>identified in this instance as well. Policy SS7 would allow for increased economic activity in the area due to all of the infrastructure improvements it seeks to achieve.</p> <p>Mitigation None required.</p> <p>Assumptions None identified.</p> <p>Uncertainties None identified.</p>									
<p>12. Improve the accessibility to jobs and services</p>	<p>Likely Significant Effects All of the policies include an employment element that could contribute towards this objective.</p> <p>Mitigation None required.</p> <p>Assumptions None identified.</p> <p>Uncertainties None identified.</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>	<p>++</p>

17	Catherine Street Garages Court Bank Street and Catherine Street Chesterfield	0.257	+		++		0		?	Adjacent to conservation area - design must respect setting. The site is also within 500m of a number of listed buildings and conservation assets. Impact of development is uncertain without further information.	0		+	Within an urban area	0		++		0		0		0		0	
18	Land at Duewell Court (Land at), Station Road, Barrow Hill	1.43	+		+	Site is within 800m of a recreational open space.	+		?	Site intersects the Barrow Hill conservation area, is within 500m of a listed building and sits adjacent to a site that appears on the draft Local List. Impact of development is uncertain without further information.	0		+	Within the 'Estate Farmlands' landscape character type albeit within a settlement and redevelopment of an existing residential area.	0		--	Surface water flooding risk but likely to be mitigable using SuDS.	0		0		0		0	
23	Heaton Court (Former), Meynell Close, Chesterfield Brampton	0.34	+		+	Only part of site is within 800m of a GP. All of site is within 800m of a recreational open space.	0		?	Site is within 500m of a listed building, scheduled monument and conservation area. Impact of development is uncertain without further information.	0		+	Within an urban area	0		--	Risk from surface water flooding requires FRA and potentially mitigation.	0		0		0		0	
28	Land North of Chesterfield Road (Land north of), Staveley	0.32	+		+	Site is within 800m of a leisure centre.	0		0	Site is not within 500m of any designated heritage asset.	0		0	An assessment of impact on landscape character and visual amenity unlikely to be required given its small size and its location next to the urban area.	0		++	In FZ1 and has very low risk of surface water flooding.	0		0		0		0	

Site ref	Site name	Site Area	1 score	1 comment	2 score	2 comment	3 score	3 comment	4 score	4 comment	5 score	5 comment	6 score	6 comment	7 score	7 comment	8 score	8 comment	9 score	9 comment	10 score	10 comment	11 score	11 comment	12 score	12 comment
32	Miller Avenue Mastin Moor	0.41	+		+	Site is within 800m of a recreational open space.	+		0	Site is not within 500m of any designated heritage asset.	0		0	A landscape character and visual amenity impact assessment is required given that the site is an extension of an existing settlement into open countryside. However, it is likely that effective mitigation could be provided.	0		++	In FZ1 and very low risk of surface water flooding.	0		0		0		0	
35	Staveley Canal Basin, Eckington Road, Staveley	2.99 3.22	+		++	Site is within 800m of a GP and Sports Centre.	0		?	Potential impact on setting of canal and nearby grade II Listed Building and Staveley Conservation Area. Site is within 500m of a listed building and conservation area. Impact of development is uncertain without further information.	0		0	Part of the site is within an urban character type and the western part is within Riverside Meadows. The site has the potential in terms of location and scale to have an adverse effect, but mitigation is likely to be feasible.	0		-	Regeneration site where canal infrastructure should reduce risk to an appropriate level for vulnerable uses.	0		0		0		0	
47	Manor House Farm 118 The Green Hasland Chesterfield S41 0JU	0.40	+	-	++	-	0	-	?	Site is adjacent to the curtilage of a listed building. Development could affect setting especially if access taken from the green. Impact of development is uncertain without further information.	0	-	0	Encroaches onto currently open land	0	-	++	Flood zone 1. Low risk surface water flooding.	0	-	0	-	0	-	0	-

Site ref	Site name	Site Area	1 score	1 comment	2 score	2 comment	3 score	3 comment	4 score	4 comment	5 score	5 comment	6 score	6 comment	7 score	7 comment	8 score	8 comment	9 score	9 comment	10 score	10 comment	11 score	11 comment	12 score	12 comment
63	Walton Works (Former) Factory Street Chesterfield Brampton	3.60	++		++	Small part of site is not within 800m of a GP.	0		-	The site contains a listed building which is at risk. The site's development could protect the listed building and enhance its setting; however, a detailed proposal has yet to be accepted on the site. The site is also partly within a conservation area and wholly within its 500m boundary.	0		+	Within an urban area	0		-	Adequate FRA undertaken for CHE/15/00832/FUL to demonstrate policy compliance.	0		0		0		0	
91	Ashbrooke Centre (Former) Cuttholme Road Chesterfield Loundsley Green	0.698	+		+	Site is within 800m of a recreational open space.	0		0	Site is not within 500m of any designated heritage asset.	0		+	Within residential area - no significant impact on landscape character.	0		++	In FZ1 and majority of site has a low risk of surface water flooding.	0		0		0		0	
94	Allen & Orr Timber Yard, Saltergate, Chesterfield	0.86	+		++		0		?	Numerous Grade 2 Listed Buildings are near the site and the site itself is likely to contain undesignated heritage assets. The site lies within the 500m buffer zone of many listed buildings, the town centre conservation area buffer and the historic core buffer. Mitigation is likely to be feasible although the impact on heritage assets is unknown at this stage.	0		+	Within an urban area	0		++	In FZ1 and majority of site has a low risk of surface water flooding.	0		0		0		0	

Site ref	Site name	Site Area	1 score	1 comment	2 score	2 comment	3 score	3 comment	4 score	4 comment	5 score	5 comment	6 score	6 comment	7 score	7 comment	8 score	8 comment	9 score	9 comment	10 score	10 comment	11 score	11 comment	12 score	12 comment
102	Swaddale Avenue (Land to the west of) Allotments (Former) Swaddale Avenue Tapton	0.88	+		+	Site is within 800m of a recreational open space.	0		?	The site is within the 500m buffer zone of a scheduled monument, a historic park / garden and a listed building. The site has outline permission however the impact of the development on heritage assets and their settings would need to be established.	-	Part of site intersects Local Wildlife Site's 100m buffer.	0	Site is within Coalfield Village Farmlands character type. However as the site is within a residential area and adjacent to a rail line no significant impacts are likely although there may be a localised adverse effect.	0		-	Area of high SWFR runs through site (West to East), mitigatable through SuDs	0		0		0		0	
108	Goldwell Rooms (Former) and 6 Ashgate Road Chesterfield	0.62 54	+		++		0		?	No.6 Ashgate Road has potential to be an undesignated heritage asset. Whilst the site could be developed retaining the building and also without detriment to views into the Ashgate Road Conservation Area the precise impact of development on heritage assets is unknown at this stage. The site is scored '?' as it contains a building on the draft local list (which presently carries little weight). The site is also within the 500m buffer zones of the historic core and town centre conservation area.	0		+	Within an urban area	0		++	Small areas of low SWFR at Northern boundary of site.	0		0		0		0	

Site ref	Site name	Site Area	1 score	1 comment	2 score	2 comment	3 score	3 comment	4 score	4 comment	5 score	5 comment	6 score	6 comment	7 score	7 comment	8 score	8 comment	9 score	9 comment	10 score	10 comment	11 score	11 comment	12 score	12 comment
113	Bent Lane, Staveley	7.26 6.29	++		+	Site is within 800m of a recreational open space.	0		?	Parts of the site are within 500m of the Staveley conservation area and several listed buildings. Impact of development is uncertain without further information.	-	Part of site intersects Local Wildlife Site's 100m buffer.	-	Site is covered by the Riverside Meadows Landscape Type and is bordered by residential properties on three sides and the green belt on one. Landscape character will be adversely affected to some extent. Likely to require a full landscape character assessment.	0		-	Flood zone 3. Risk of surface water flooding. Flood risk can be mitigated by site layout avoiding higher risk areas. Development of the site could have a significant negative effect on climate change as there is an area of Flood zone 3 and risk of surface water flooding, following comments from the Environment Agency the developable area was amended to avoid areas at flood risk and provide the opportunity for mitigation measures to be put in place.	0		0		0		0	
125	Poultry Farm (Former) Manor Road Brimington	0.887	+		--	Site is within 2KM of a GP with capacity but not within 800m of a GP or open space.	0		?	Most of the site is within 500m of a listed building. Impact of development is uncertain without further information.	0		+	Within an urban area	0		++	In FZ1 and majority of site has a low risk of surface water flooding.	0		0		0		0

30 & 401	Inkersall Road (Land west of), Staveley (Site A)	22.56	++		+	Site is within 800m of a recreational open space. Only small portion of site is within 800m of a GP surgery.	0		?	A Listed Building (Grade II) lies to the south east of the site (Inkersall Farmhouse) and approx. half of the site is within the 500m buffer zone. Impact of development is uncertain without further information.	0		-	Large urban extension into an area of undulating open farmland. The site is within the South Yorkshire, Notts & Derbyshire Coalfield Landscape Character Area and within the Estate Farmlands landscape character type. An adverse impact on landscape character and visual amenity is likely.	0		-	The site has areas of low- high SWFR. All of site is in FZ1.	0		0		0		0	

Site Name	Duckmanton		
Site Reference	247/248		
Site Area (ha)	23.39 57.2 ha		
Sustainability Objective	Basis for Appraising Sites	Score	Commentary
1. To ensure that housing stock meets the needs of all communities in the Borough	++ Site provides a net gain of 100+ dwellings	++	Site could provide up to 500 275 homes subject to future development applications. Furthermore a <u>A</u> planning application for 400 homes on this site has been submitted.
	+ Site provides a net gain of 99 or fewer dwellings		
	0 No housing provide, e.g. an employment led scheme or other proposal		
	- Not used (on basis that the plan will lead to an overall gain in housing, including affordable housing).		
	-- Not used (on basis that the plan will lead to an overall gain in housing, including affordable housing).		
	? Effects on housing are uncertain		
2. To improve health and reduce health inequalities	++ Site is within 800m of a GP surgery <u>and</u> leisure centre / recreational open space.		Sports pitches / playing fields adjacent to Duckmanton school located within 800m to the north of the site. Furthermore, the regeneration priority areas policy sets out that for Duckmanton regeneration is expected to provide safe and convenient walking and cycling access to job opportunities at Markham Vale and connections to Poolsbrook and Poolsbrook country park. This would help to increase opportunities for walking and cycling with associated health benefits.
	+ Site is within 800m of a GP surgery <u>or</u> leisure centre / recreational open space.	+	
	0 Nature of proposal not anticipated to give rise to effects.		
	- Site is within 800m of a GP surgery but it does not currently have capacity.		
	-- Site is within 2km of a GP surgery that does not currently have capacity.		
3. To create sustainable communities	++ Site is within a regeneration area as defined in the Local Plan and provides housing and employment opportunities		Site identified within Policy LP1 as regeneration priority area and will provide housing
	+ site is within a regeneration area and provides housing or employment opportunities	+	
	0 Site is outside of a regeneration area		
	- Not used for sites (the score against this objective is only positive to identify development that contributes to addressing deprivation)		
	++ Potential for a Listed Building to be brought back into beneficial use		

Site Name	Duckmanton		
Site Reference	247/248		
Site Area (ha)	23.39-57.2ha		
Sustainability Objective	Basis for Appraising Sites	Score	Commentary
4. To enhance and conserve the cultural heritage of the borough	+ Potential for locally Listed Building to be brought back into beneficial use		There is one Grade II listed building adjoining the eastern boundary and three Listed Buildings to the south of the site. However, a well-designed site is unlikely to adversely affect these listed buildings or their settings
	0 Site is unlikely to affect heritage assets or their settings.		
	? Site is within 500m of a heritage asset and effects on the setting of heritage asset are uncertain.	?	
	- Site includes or is within a heritage asset of local / regional importance (Conservation areas, Locally Listed buildings and undesignated assets)		
	-- site includes a heritage asset of national importance(Grade I, II* and II listed buildings, grade I, II* and II registered parks and gardens, <u>scheduled monuments</u> and World Heritage Sites)		
5. To protect and enhance biodiversity	++ Not used for sites (evaluation of any positive effects requires a level of detail absent at this stage of site appraisal and assessment).		Local wildlife site (Ireland Wildlife Area) adjoins north western boundary of the site. There are no nationally / internationally designated sites within 500m of the site.
	+ Not used for sites (evaluation of any positive effects requires a level of detail absent at this stage of site appraisal and assessment)	-	
	0 if criteria identified for other scores do not apply.		
	- Site is within 100m of a locally designated site.		
	-- Site is within 500m of a nationally/internationally designated site.		
6. Protect and manage the landscape of North East Derbyshire	++ Site of 5ha or more scoring plus (green) in the LAA against landscape and local character		Development of this site would extend existing settlement into the countryside and involve loss of greenfield land which would have negative landscape impacts. It is however recognised that there are policies in the plan which require good design which would help to mitigate adverse impacts. Furthermore, the regeneration priority areas policy sets out in relation to Duckmanton that development is expected to promote building designs that positively contribute to the surrounding area which would also help to mitigate adverse impacts.
	+ site of less than 5ha scoring plus (green) in the LAA against landscape and local character		
	0 site is less than 5 hectares and scores amber in the LAA against landscape and local character.		
	- Site of less than 5ha scoring negative (red) in the LAA against landscape and local character or - Site of more than 5ha scoring amber in the LAA against landscape and local character	--	

Site Name	Duckmanton		
Site Reference	247/248		
Site Area (ha)	23.39-57.2ha		
Sustainability Objective	Basis for Appraising Sites	Score	Commentary
	-- Site of 5ha or more scoring negative in the LAA against landscape and local character.		
7. To manage prudently the natural resources of the region including water, air quality, soil and minerals	++ Not used for sites (evaluation of any effects requires a level of detail absent at this stage of site appraisal and assessment).		No effect – site not within or close to Chesterfields one Air Quality Management Area
	+ Not used (evaluation of any effects requires a level of detail absent at this stage of site appraisal and assessment).		
	0 no effect	0	
	- Site is within 500m of Air Quality Management Area		
	-- Site is within Air Quality Management Area		
8. Plan for the anticipated different levels of climate change	++ Site is wholly within flood zone 1 and at low risk of surface water flooding		Western boundary of the site in flood zone 3, (although in reality only a small slither of the site).
	+ Majority of site is within flood zone 1, with remainder in flood zone 2 and majority of site at low risk of surface water flooding		
	0 not used		
	- Majority of site is within flood zone 2, with remainder in flood zone 1 and/or		
	- Site is at medium risk of surface water flooding		
	-- Site is partially or wholly within flood zone 3a or 3b and/or -- Site is at high risk of surface water flooding	--	
9. Minimise the borough's contribution to climate change	++ Considered to be neutral across projects as all projects could contribute to this objective to some degree		Effects considered to be neutral as all development could contribute to this to a greater or lesser extent.
	+ Considered to be neutral across projects as all projects could contribute to this objective to some degree		
	0 Considered to be neutral across projects as all projects could contribute to this objective to some degree	0	

Site Name	Duckmanton		
Site Reference	247/248		
Site Area (ha)	23.39-57.2ha		
Sustainability Objective	Basis for Appraising Sites	Score	Commentary
	- Considered to be neutral across projects as all projects could contribute to this objective to some degree		
	-- Considered to be neutral across sites as all projects could contribute to this objective to some degree.		
10. Minimise the environmental impacts of waste and pollution	++ Considered to be neutral across sites as all projects could contribute to this objective to some degree		Effects considered to be neutral as all development could contribute to this to a greater or lesser extent.
	+ Considered to be neutral across sites as all projects could contribute to this objective to some degree		
	0 Considered to be neutral across projects as all projects could contribute to this objective to some degree	0	
	- Considered to be neutral across sites as all projects could contribute to this objective to some degree		
	-- Considered to be neutral across sites as all projects could contribute to this objective to some degree		
11. Develop a strong culture of enterprise and innovation	++ site provides 5ha or more of employment land		Site does not provide any employment land.
	+ site provides less than 5ha of employment land		
	0 site does not provide employment land	0	
	- not used as at the site level as assume overall growth in employment at the borough level		
	- - not used at the site level as assume overall growth in employment at the borough level		
12. Improve the accessibility to jobs and services	++ Employment site within walking distance of a centre (LAA criterion 800 metres)		Site does not include any employment uses. However, Duckmanton centre is within walking / cycling distance of the site. The Markham Vale industrial park lies to the east of the site approximately 1.5 km (0.9 miles)
	+ Employment site within 15 minutes bus or bicycle ride of a centre (LAA criterion)		
	Policy improves access to employment at the local level		

Site Name	Duckmanton		
Site Reference	247/248		
Site Area (ha)	23.39 57.2 ha		
Sustainability Objective	Basis for Appraising Sites	Score	Commentary
	0 site does not include an employment use	0	
	- Employment site over 30 minute bus ride of a town centre as defined in the LAA		
	-- Employment site over 45 minute bus ride of a town centre as defined in the LAA		

Appendix F

Monitoring Framework

Monitoring and Review Framework and relationship to the SA Objectives

LP1 Spatial Strategy & LP2	Strategic Objectives	Target	Indicator	Frequency	Trigger	Action and Contingencies	SA Objective(s) that each indicator is considered to relates to
LP1 Housing Growth	S2 S3	4374 4080 dwellings up to 2033 2035	Net new dwellings built each year as monitored in the AMR. HDT	Annual	1. <u>Persistent under delivery</u> as set out in the HDT 2. <u>Unmet need identified in HMA</u>	1. <u>Apply 20% buffer to five year supply</u> as set out in the NPPF. 2. Take into account as part of five year plan review	1. 'Housing' 2. 'Health' 3. 'Sustainable communities'
LP1 Economic Growth	S3 S6	44 50 hectares up to 2033 2035	Net new employment land developed each year as monitored in the AMR	Annual	Percentage of delivery across five year period	Take into account as part of five year plan review	3. 'Sustainable communities' 11. 'Enterprise' 12. 'Accessibility'
LP1 Green Belt	S11	No net loss of, or inappropriate development on green belt	Loss of, or inappropriate development on green belt	As required	More than one appeal allowed for development on Green Belt on basis of land supply issues	Review reasons for decision Take into account as part of five year plan review Possible Green Belt Review as part of Local Plan Review	2. 'Health' 4. 'Cultural heritage' 5. 'Biodiversity' 6. 'Landscape'

LP1 Strategic Gaps / Green Wedges & LP16	S7	No net loss of, or inappropriate development	Loss of, or inappropriate development within Strategic Gaps / Green Wedges	As required	More than one appeal allowed for development within Strategic Gaps / Green Wedges	Review reasons for decision Take into account as part of five year plan review	2. 'Health' 4. 'Cultural heritage' 5. 'Biodiversity' 6. 'Landscape'
<u>LP2 Principles for Location of Development</u>	<u>S1</u> <u>S9</u> <u>S10</u> <u>S13</u>	<u>The location of new residential development to maximise opportunities for walking access to a range of key services.</u> <u>The location of new residential development to maximise opportunities for cycling and the use of public transport to</u>	<u>The travel times from major residential development to a range of key services by non-car based modes of transport.</u>	<u>As required and through the monitoring of planning permissions.</u>	<u>Majority of new homes within major developments not being within a walkable distance to a range of key services and not being within the lower accessibility threshold times to a range of key services.</u>	<u>Take into account as part of five year plan review</u>	2. 'Health' 3. 'Sustainable communities' 7. 'Natural resources' 8. 'Climate change adaptation' 9. 'Climate change mitigation' 12. 'Accessibility'

		<u>access a range of key services.</u>					
Policy LP3	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	
LP3 Presumption in favour of Sustainable Development	All	Delivery of sustainable development in accordance with the spatial strategy	Application of the Local Plan		See triggers for LP1 and LP2	See contingencies for LP1 and LP2	
Policy LP4	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP4 Flexibility in the delivery of Housing	S2	Maintain five year housing supply of deliverable sites	Five Year Housing Land Supply <u>Performance against trajectory (see table xxxx)</u>	Annual	Inability to demonstrate five year housing supply	Application of presumption in favour of sustainable development as required by NPPF when determining Planning Applications Take into account as part of five year plan review	1. 'Housing' 2. 'Health'

Policy LP5	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP5 Range of Housing	S5	<p>20% affordable homes (90% social rented and 10% intermediate) on sites of 10 dwellings or more.</p> <p>High – 20%. Medium 10%. Low 5%</p> <p>25% of adaptable and accessible housing</p> <p>10% of affordable should be built as wheelchair user homes</p>	<p>Number of affordable housing completions (net)</p> <p>Social rented and Intermediate</p> <p>No. of adaptable and accessible housing completions</p>	Annual	Shortfall of 25% of cumulative 3 year target	<p>Discuss with Housing Team the reasons for performance to and review the affordable housing pipeline,</p> <p>Take into account as part of five year plan review</p>	<p>1 'Housing'</p> <p>3. 'Sustainable communities'</p>

Policy LP6	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP6 Sites for Travellers		Strategic Target met up to 2019	Net additional pitches granted planning permission Frequency and size of unauthorised pitches	Annual	Submission of a planning application for a travellers site or an unauthorised site within the borough. <u>Receipt of the GTAA review</u>	Review and update evidence in light of need with neighbouring authorities. Take into account as part of five year plan review	1. 'Housing' 2. 'Health' 3. 'Sustainable communities' 12. 'Accessibility'
Policy LP7	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP7 Employment land	S6	44 50 ha of additional employment land (B1, B2 and B8) between 2011-2018 and 2033-2035	Net new employment land developed each year as monitored in the AMR <u>Performance against trajectory (see table xxx)</u>	Annual	Percentage of delivery across five year period	Take into account as part of five year plan review	3. 'Sustainable communities' 11. 'Enterprise' 12. 'Accessibility'

Policy LP8	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP8 Tourism and Visitor Economy	S3 S12	Increase in D2 floorspace	Total amount of new D2 floorspace		No new D2 floorspace	Discussions with tourism teams to identify reasons for fall in visitor numbers to the town. Take into account as part of five year plan review	11. 'Enterprise' 12. 'Accessibility'
Policy LP9	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP9 Viability and Vitality of Centres	S3	Vacancy rate below national and regional average for Town and District Centres	Total amount of new floor space for town centre uses Total amount of new floor space for town centre use completed outside of centres or allocated sites Town and District Centre Health Checks	Annual	Persistent increase in vacancy rates	Consider revision of centre boundaries and/or hierarchy Review reasons for decision and reevaluate evidence and allocations if necessary. Examine reasons for decline in performance of town and district centre. Long-term, potential to review policies and allocations Take into account as part of five year plan review	3. 'Sustainable communities' 11. 'Enterprise' 12. 'Accessibility'

Policy LP10	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP10 Retail	S3	No new retail floorspace (except Small Shops under threshold) outside of existing defined centres or allocated site	Total amount of new floor space for town centre use completed outside of centres or allocated sites	Annual	Approval of large format retail outside of town centre boundary not allocated in Local Plan.	Review reasons for decision and reevaluate evidence Take into account as part of five year plan review	3. 'Sustainable communities' 11. 'Enterprise' 12. 'Accessibility'
Policy LP11	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
<u>LP11 Social Infrastructure</u>	<u>S3 & S13</u>	<u>Maintain appropriate provision of Community Facilities</u>	<u>Monitor changes of use and Assets of Community Value</u>	<u>Annual</u>	<u>Loss of asset of community value</u>	<u>Take into account as part of five year plan review</u>	2. 'Health' 3. 'Sustainable communities' 12. 'Accessibility'
Policy LP12	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP12 Infrastructure Delivery	S10	Delivery of Strategic Infrastructure highlighted in Infrastructure Delivery Plan	Delivery in accordance with CIL Expenditure Strategy	Annual <u>review of S106 and CIL</u>	Non delivery of infrastructure in expenditure strategy	Review funding allocations Take into account as part of five year plan review	1 'Housing' 2. 'Health' 3. 'Sustainable communities' 12. 'Accessibility'

						Review effectiveness of CIL	
Policy LP13	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP13 Renewable heat Energy	S1	No target	Monitor applications for renewable energy	Five years		Take into account as part of five year plan review	7. 'Natural resources' 9. 'Climate change mitigation'
Policy LP14	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP14 Managing the Water Cycle	S4	All development in line with Environment Agency Advice <u>All development according with the advice of the Lead Local Flood Authority</u>	Development approved contrary to Environment Agency advice <u>Development approved contrary to Lead Local Flood Authority advice</u>	Annual	More than five applications approved contrary to advice over a rolling five year period.	Identify reasons for decision, and if necessary take into account as part of five year plan review	7. 'Natural resources' 8. 'Climate change adaptation' 10. 'Waste and pollution'

Policy LP15	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP15 A Healthy Environment	S9	No new AQMA, Removal of existing AQMA	Air Quality Monitoring Report <u>Progress against Air Quality Action Plan Objectives</u>	Annual	The designation of an Air Quality Management Area	Consultation with Environmental Health and DCC to identify mitigation measures to address impacts of air quality. Take into account as part of five year plan review	2. 'Health' 7. 'Natural resources'
Policy LP16	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP16 Green Infrastructure							
LP16 Green Infrastructure	S7 & S11	No net loss of, or inappropriate development in Green Belt, Green Wedges or Strategic Gaps	Loss of, or inappropriate development within Strategic Gaps / Green Wedges/Green Bely	As required	More than one appeal allowed for development within Strategic Gaps / Green Wedges	Review reasons for decision Take into account as part of five year plan review	2. 'Health' 3. 'Sustainable communities' 5. 'Biodiversity' 6. 'Landscape' 12. 'Accessibility'
Policy LP17	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP17 Biodiversity, Geodiversity &	S7	Net gain in biodiversity	Monitoring of conditions in Planning approvals	Annual	Proposed losses <u>and gains</u> of <u>identified</u> habitat	Investigate reasons for loss of habitat Take into account as part of five year plan review	5. 'Biodiversity' 7. 'Natural resources' 8. 'Climate change adaptation'

<p>the Ecological Network</p>		<p><u>Increase in tree cover within the Borough</u></p>	<p><u>Monitoring of gains and losses in identified habitat through planning approvals for the development housing and employment allocations including strategic sites and other major developments</u></p> <p><u>Monitoring of the area of land covered by woodland identified as priority habitat</u></p>				
-------------------------------	--	--	---	--	--	--	--

<p>Sites of International & National Importance</p>		<p><u>Develop a suitable monitoring programme in liason with neighbouring authorities including the PDNP and Natural England in relation to the SAC's and SPA's identified in the SA to help ensure that a likely significant effect on these European sites does not arise unexpectedly.</u></p>	<ul style="list-style-type: none"> • <u>Post plan adoption Changes in the AADT on roads within 200m of the European Sites</u> • <u>Post plan changes in rates of atmospheric nitrogen deposition at the European sites</u> • <u>Ecological condition of qualifying features of each European site; and</u> • <u>Cooperation with</u> 	<p><u>As per the programme to be agreed between authorities and Natural England</u></p>	<p>Increases in traffic and consequential effects on air quality</p>	<p>Take into account as part of five year plan review</p>	<p>5. 'Biodiversity' 7. 'Natural resources'</p>

Policy LP18	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP18 Open Space, Play provision, Sports facilities & Allotments	S10 S13	No net loss of open space, play provision and sports facilities <u>unless identified as surplus to need.</u>	<u>neighbouring authorities, including the PDNPA,</u> Loss of open space, play provision and sports facilities <u>where this is not identified as surplus to need.</u>	As required	Net loss of open space, play provision and sports facilities over a three year period <u>where this is not identified as surplus to need.</u>	Review reasons for decision to release of open space etc. Take into account as part of five year plan review	2. 'Health' 3 'Sustainable communities' 12. 'Accessibility'
Policy LP19	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP19 Chesterfield Canal	S12	Restoration of the Chesterfield Canal within the borough to a navigable state <u>by 2027</u>	Remaining length of un-navigable stretch of Chesterfield Canal in Chesterfield	Annual via CCT annual report	No additional restoration of canal in rolling three year period	Discussion with Chesterfield Canal Trust and Derbyshire County Council to facilitate further restoration work. Review use of CIL funding	2. 'Health' 3 'Sustainable communities' 4. 'Cultural heritage' 5. 'Biodiversity' 6. 'Landscape' 11 'Enterprise' 12. Accessibility

			Borough (Chesterfield Canal Trust)			Take into account as part of five year plan review	
Policy LP20	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP20 River Corridors	S7	None	<u>Number of applications that fall within River Corridors</u>	<u>Annual</u>	<u>None</u>	<u>Take into account as part of five year plan review</u>	5. 'Biodiversity' 6. 'Landscape'
Policy LP21	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP21 Design	S8	75% of major new residential development to achieve a score of 12 on Building for Life	Number of major residential developments achieving a score of 12 on Building for Life	Annual	Less than 75% of schemes over a two year period achieving a score of 12 on Building for Life	Discussion with applicants and agents to understand why higher levels of design are not being achieved. Potential to review and update supplementary planning guidance.	1. 'Housing' 2. 'Health' 3. 'Sustainable communities' 4. 'Cultural heritage' 5. 'Biodiversity' 6. 'Landscape' 7. 'Natural resources' 8. 'Climate change adaptation' 9. 'Climate change mitigation' 10. 'Waste and pollution'

Policy LP23	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP23 Influencing the Demand for Travel	S1 S9	Delivery of the Chesterfield Strategic Cycle Network	Delivery of new cycle network.	Five years from adoption	No new stretches delivered over a two year period	Discussion with Derbyshire County Council to ensure and aid delivery of strategic network. Potential source of funding from CIL.	2. 'Health' 3. 'Sustainable communities' 7. 'Natural resources' 9. 'Climate change mitigation' 12. 'Accessibility'
Policy LP24	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
LP24 Major Transport Infrastructure	S9	Safeguard land for Major Transport Infrastructure including the scheme for the Chesterfield- Staveley Regeneration Route	Planning permissions granted in areas safeguarded for major transport infrastructure	Annual	If planning permission is granted for development in safeguarded area.	Review reasons and impact for granting of planning permission in safeguarded areas.	11. 'Enterprise' 12. 'Accessibility'

Policy RP1	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
RP1 Regeneration Priority Areas	S2 S3	Improvement on IMD ranking	IMD ranking	Five years from adoption	A Decline in IMD Ranking	Work with local community and external agencies to support regeneration projects Take into account as part of five year plan review	2. 'Health' 3. 'Sustainable communities' 11. 'Enterprise'
Policy SS1	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
SS1 Chesterfield Town Centre	S2 S3 S6 S8 S9	Vacancy Rate above national average Improvement in Retail Ranking	Vacancy Rate Retail ranking	Annual As published		Discussion with land owners and developers to bring to site(s) forward. Take into account as part of five year plan review	2. 'Health' 3. 'Sustainable communities' 11. 'Enterprise' 12. 'Accessibility'
Policy SS2	Strategic Objective	Target	Indicator	Frequency	Trigger	Contingencies	SA Objectives
SS2 Chatsworth Road Corridor	S2 S3 S4	Regeneration in the area 'Land South of Chatsworth Road' in line	Dwellings and Floorspace within the Land South of Chatsworth Road		Buildings remain on 'at risk' register post <u>2016-2025</u>	Discussion with land owners and developers to bring to site forward.	1. 'Housing' 2. 'Health' 3. 'Sustainable communities' 4. 'Cultural heritage' 11. 'Enterprise' 12. 'Accessibility'

	S6 S9	with adopted Masterplan.	Masterplan area. Area of vacant land.		Reduction in vacant land less than 50%.	Consideration to review of masterplan and policy.
