MR PETER ASHMORE,
110 BOYTHORPE ROAD,
CHESTERFIELD,
DERBY SHIRE S40 2LR.

TEL. [REDACTED]
Sunday 18TH NOVEMBER 2012.

Dear Richard,
I thank you for your communication dated 12TH NOVEMBER 2012, Staveley and Rother Valley Corridor Area Action Plan.

What a fantastic opportunity this is for Chesterfield Borough Council to lead the country if not the world in conjunction with the Department for Energy and Climate Change in the generation of Solar Power or Wind Power.

The former site of Staveley Works could be covered with an array of Solar Panels generating green electricity. Also the whole of the River Rother Valley Corridor could be covered with Wind Turbines generating green Electricity.

This must be a once in a generation chance to turn our back on our past industrial pollution and embrace a new and greener future for all our children. Go green my friend or forever regret it.

Peter Ashmore,
Reuse, Reduce, Recycle.
