

CHESTERFIELD
BOROUGH COUNCIL

Chesterfield Borough Local Plan Submission Version

Schedule of Proposed Additional Modifications

February 2020

1. Introduction

- 1.1. The Chesterfield Borough Council Local Plan (the Plan) was submitted for examination in public on the 28th June 2019.
- 1.2. Following receipt of the correspondence 'Matters, Issues and Questions' from the Planning Inspectors examining the Local Plan, the Council has identified various changes to the Plan (known as Proposed Modifications), which it thinks will help make the Plan 'Sound' and also improve it. The changes which are not necessary to make the Plan sound but would 'improve it' are contained in the table within this document and are referred to as Additional Modifications. These modifications should assist with the presentation and comprehension of the Plan. These Additional Modifications are provided without prejudice to the final conclusions of the Planning Inspectors.
- 1.3. As far as possible these proposed Additional Modifications are set out in order of the parts of the Plan which they change. The text that is proposed to be deleted is struck through (~~example~~) and new text is shown underlined in bold text (**example**). The column headed 'Reason for Change' indicates the reason for the proposed modification. Main modifications are labelled with an AM e.g. AM1, AM2.
- 1.4. All types of modification will evolve whilst the Local Plan is being examined by the Planning Inspectors and will ultimately lead to a final set of modifications which can be consulted on. This document contains the additional modifications as proposed by the Council in February 2020.

Introduction – Additional Modifications

Modification Reference	Paragraph / Page No.	Proposed Additional Modification	Reason for Change	Representation/ MIQ
AM7	Introduction, Page 7	National planning policy, set out in the National Planning Policy Framework (NPPF), requires councils to prepare long-term development plans for their area. The Town and Country Planning (Local Planning) (England) Regulations 2012 prescribe processes that the council must follow when preparing the Local Plan. Work on the	To update the Local Plan in terms of the stage it has reached.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		<p>Local Plan is at Regulation 19 stage, which is the formal publication consultation. To date, the council consulted on a has consulted on a Draft Local Plan (January/February 2017) from January 2017, with a further consultation (January/February 2018) from January 2018 on Gypsy and Traveller sites. The responses to those consultations have been considered by the Council and this formal publication draft local plan takes account of the comments made during the previous stages of consultation.</p> <p><u>Representations made in respect of the earlier consultations were considered alongside updated evidence in preparing the Submission Draft.</u></p> <p><u>The Local Plan underwent a Regulation 19 consultation in early 2019, which was the final public consultation before the Local Plan was submitted to the Planning Inspectorate for examination. The examination Hearings were held in October and November 2019.</u></p>		
AM8	Introduction, Page 8	<p>It also includes proposed Site Allocations set out on an accompanying Policies Map. These are policies that only apply in specific locations in the borough, and include sites for new housing or economic development as well as areas to be safeguarded for their environmental, leisure or social benefits.</p>	To update the Local Plan in terms of the stage it has reached.	N/A
AM9	Introduction, Page 8	<p><u>How do I get involved?</u></p> <p>The submission plan will be available for anyone to comment on until 22nd February 2019. Details of how you can comment and what happens next are available on the council's website www.chesterfield.gov.uk/newlocalplan</p>	To update the Local Plan in terms of the stage it has reached. 1) Vision and Strategic Objectives, Additional Modifications

Modification Reference	Paragraph / Page No.	Proposed Additional Modification	Reason for Change	Representation/ MIQ
AM10	1.1, Page 9	Our approach to the Local Plan Vision is based on the Council’s Vision for Chesterfield Borough and is supported by a fuller, descriptive Spatial Strategy to provide clarity and detail. <u>Local Plan Vision</u>	To add appropriate title to vision statements.	N/A
AM11	1.4, Page 10	The borough has a strong economic role within the Sheffield C city R region, and the infrastructure needed to support business growth is secured.	To correct typographical errors.	N/A
AM12	1.7, Page 10	Green Belt, g Green w wedges and s Strategic g Gaps function as an integral part of the borough’s green infrastructure.	To correct typographical errors.	N/A
AM13	1.10, Page 11	Maximum use is made of s sustainable D Drainage S Systems (SuDs) so that new development is less at risk from risk of flooding and does not exacerbate flooding problems in existing developed areas both within the borough and downstream. SuDs and the management of floodplains present positive habitat opportunities and contribute to the wider network of g Green i infrastructure.	To improve clarity and correct typographical errors.	N/A
AM14	1.11, Page 11	Our buildings and spaces are designed to adapt to climate change, minimise ing energy use and planting is used to promote for a drier climate and urban cooling.	To improve clarity and correct typographical errors.	N/A

2) Spatial Strategy – Additional Modifications

Modification Reference	Paragraph / Page No.	Proposed Additional Modification	Reason for Change	Representation/ MIQ
AM15	2.1, Page 15	Regeneration including new development can address the needs of communities experiencing deprivation. The <u>Regeneration Priority Areas (RPAs)</u> reflect multiple deprivation and spatial concentrations of deprivation, expressed by the national <u>Index of Multiple Deprivation (IMD)</u> data.	For clarity.	N/A
AM16	2.13, Page 17	Strategic gaps give distinct identity to different areas, prevent neighbouring settlements from merging into one another, and maintain open space. Green wedges <u>Wedges</u> provide access to the countryside from urban areas. The boundaries are based on an independent assessment of the character of the proposed Green Wedge or Strategic Gap <u>green wedge or strategic gap</u> and its contribution to; the setting and identity of the borough and its urban areas; landscape character, habitat and biodiversity; access to countryside and recreation; the ability to connect areas of green infrastructure; and the impact that development would have on the function of the Green Wedge or Strategic Gap <u>green wedge or strategic gap</u> .	To correct typographical errors.	N/A

3) Homes and Housing – Additional Modifications

Modification Reference	Paragraph / Page No.	Proposed Additional Modification	Reason for Change	Representation/ MIQ
AM17	3.4, Page 21	In order to provide some flexibility for choice and the aspirations of the LEPS, and to account for potential lapses in sites or sites delivering less than the assumed housing figures, the plan allocates more sites than the minimum needed to meet the OAN, sufficient	Detail on buffer covered elsewhere.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		for a (20)% buffer (which would be at least 5250 net new dwellings).		
AM18	3.5, Page 21	The housing supply for the plan period consists of the housing allocations set out in Table 4 table 4, combined with committed planning permissions that do not have an allocation (either because they are below the size threshold for allocation or were substantially under construction at the time of writing). -, applying a 10% buffer for non-implementation.	Deletion of text made as Table 3 is considered to adequately cover all information regarding housing numbers.	N/A
AM19	3.7, Page 22	At the time of writing a bid to the government's Housing Infrastructure Fund is under consideration for key infrastructure to unlock this site, including the Chesterfield Staveley Regeneration Route (safeguarded under policy LP24). The HS2 Hybrid Bill is due to be submitted in early 2020 and this site will be kept under review and progress reflected in a future Local Plan review if necessary.	Removed as statement will quickly become outdated.	N/A
AM20	3.8, Page 22	Policy LP4, 'Flexibility in Delivery of Housing' is intended to ensure a supply of deliverable housing sites sufficient for five years as set out in the NPPF. The policy seeks to meet that meets the aims of the Local Plan's Spatial Strategy, and allows for some uncertainty in the timing of delivery of housing on allocated sites. It sets out the council's position on the development of unallocated sites in open countryside and outside of the built-up area for housing and how this relates to the principles for the location of development set out in policy LP2. The council will take action if monitoring is unable to demonstrate that the council has a supply of deliverable housing sites sufficient for 5 years (plus 5 or 20%, depending upon delivery rates) due to either under delivery increasing the shortfall requirement or improved delivery resulting in a reduced pool of remaining sites.	To improve readability and correct typographical errors.	N/A
AM21	3.15, Page 26	The 2011 Census data identified that a quarter of households in the	To correct a typographical error.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		b Borough contain older persons. In addition to this, the number of people aged 65 and above in Chesterfield is projected to grow rapidly:		
AM22	3.16, Page 26	The SHMA found that 28% of households in Chesterfield b Borough have support needs, projected to rise to 29.8% in 2031.	To correct a typographical error.	N/A

4) Jobs, Centres and Facilities – Additional Modifications

Modification Reference	Paragraph / Page No.	Proposed Additional Modification	Reason for Change	Representation/ MIQ
AM23	4.2, Page 30	<p><u>Chesterfield is a member of the ‘D2N2’ (Derbyshire and Nottinghamshire Local Enterprise Partnership) and a non-constituent member of the Sheffield City region Mayoral Combined Authority. From April 2020 Chesterfield Borough Council will only be a member of D2N2.</u></p> <p>Chesterfield sits within the extents of two Local Economic Partnerships (LEPs): Sheffield City Region (SCR), and the Derbyshire and Derby and Nottinghamshire and Nottingham (D2N2) partnership.</p>	To provide a factual update.	N/A
AM24	4.3, Page 30	The council has been working with jointly <u>with HS2 Ltd.</u> to contribute to both the SCR and East Midlands HS2 growth plans, including identifying opportunities for growth around the railway station (see policy SS7).	For clarity.	N/A
AM25	4.4, Page 30	A particularly high proportion are also in the public sector (35.8% of jobs as of 2014) in public administration, education and health, due to the presence of head offices for a borough <u>council</u> , Chesterfield College and the Walton and Chesterfield Royal hospitals.	To improve clarity.	N/A

Chesterfield Borough Local Plan: Additional Modifications

AM26	4.5, Page 30	However, it will remain important to maintain a supply of land suitable for a wide range of business and industrial use (within use classes B1, B2 and B8) in order to promote economic growth and a diverse and vibrant business sector.	To correct a typographical error.	N/A
AM27	4.9, page 31	As of April 1st 2018, Unimplemented planning permissions for employment land provided a potential supply of 24.3ha. <u>In the 2018/2019 monitoring year 3.38 hectares of employment land was developed, reducing the remaining target (to be developed between 2019-2035) to 46.62 ha. As of April 1st 2019, unimplemented planning permissions for employment land provided a potential supply of 19.2 hectares.</u>	To update the supporting text in line with the most recent monitoring data.	N/A
AM28	4.10, page 31	Other undeveloped land within established employment areas allocated on the policies map will provide an additional 24.3 ha <u>23.4 ha.</u>	To update the supporting text in line with the main modification to the Employment Land Supply Table (Table 9).	MIQ 4.20
AM29	4.11, Page 31	In addition, the Staveley Works and Rother Valley <u>Corridor</u> has the potential to deliver additional employment land, in the form of the proposed HS2 IMD <u>Infrastructure Maintenance Depot (IMD).</u>	To improve the accuracy and clarity of the supporting text.	N/A
AM30	4.12, Page 31	Land around Works Road will provide the opportunity to deliver a limited amount of employment floorspace from the Staveley and Rother Valley Corridor <u>Works</u> site in the short to medium term, primarily around land adjacent to the Chesterfield Canal.	To correct a factual error.	N/A
AM31	4.14, Page 32	Alongside this the 'Destination Chesterfield-' place-marketing project -is seeing the council, local employers and businesses work together to promote Chesterfield, strengthen existing businesses and attract new inward investment. The council is committed to ensuring the viable re-development of currently vacant and underused business and industrial land for a range of	To correct factual and typographical errors.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		uses. Delivery of employment sites will be monitored closely, working with the council's e Economic d Development team Unit and taking account of vacancy rates and the frequency of enquires about sites and premises.		
AM32	4.15, Page 35	Tourism is important to the e C hesterfield borough economy. In 2009, tourism brought £117m into the borough's economy and supported 1,836 jobs across a range of sectors (Derbyshire STEAM Model). The Core Strategy Local Plan seeks to maximise the potential of the major regeneration areas, particularly Waterside and the Staveley and Rother Valley Corridor.	To correct tyrographical and factual errors.	N/A
AM33	4.17, Page 35	The Casa hotel now provides the borough's first four_star provision, and there are planning permissions for further provision at the Peak Resort and Chesterfield Waterside. Within the town centre, the former Co-op department store is being has been converted to provide a new Premier Inn (to open by end of 2018) .	To provide factual updates and correct a typographical error.	N/A
AM34	4.18, Page 35	A more diverse and high er quality tourism offer will be encouraged that seeks to expand the tourism season, increase the number of people visiting, provide local job opportunities and help to regenerate the economy.	To correct a typographical error.	N/A
AM35	4.19, Page 36	Town, district and local centres lie at the heart of local communities and their primary role is to provide providing shopping and community services. These are critical to the future prosperity, quality of life and sustainability of the borough. A key aim of the Local Plan is to promote the vitality and viability of the borough's town, district and local centres. The borough council will achieve this by emphasizing focusing new economic growth and development of the main town centre uses including retailing, leisure, entertainment, offices, arts, culture, tourism facilities, towards existing centres. The outcomes of this focus will: <ul style="list-style-type: none"> • Encourage variety, choice and quality of retail provision 	To improve clarity and correct a typographical error.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		in the town centres and other district and local centres;		
AM36	4.28, Page 38	Small convenience shops outside of centres provide a vital day to day resource for residents of the borough, allowing for small scale, 'top-up' and 'out of hours' shopping within walking distance of home.	To correct a typographical error.	N/A
AM37	4.33, Page 40	Although the commitments indicate a degree of oversupply, it should be noted that they include some provision (in the Staveley Works and Rother Valley Corridor) that will be delivered later in the plan period or partially beyond).	To correct a factual and typographical error.	
AM38	4.34, Page 40	The commitments should not prevent proposals for additional floorspace being considered where they it would improve accessibility to local shopping facilities or would extend choice or quality.		N/A
AM39	4.35, Page 41	The retail sector (and comparison retail in particular) is likely to face continuing uncertainties facing the retail sector, and the comparison retail sector in particular, from new forms of trading and online sales in particular. For this reason, the Local Plan identifies specific provision in the form of commitments for the first five years only, and broad locations for the remainder of the plan period.	To improve clarity and correct typographical errors.	N/A
AM40	4.38, Page 41	The 2018 Retail Study made recommendations regarding pPrimary Shopping Areas and Primary and Secondary frontages. It does not recommend the inclusion of pPrimary or sSecondary frontages for Staveley Town Centre or the District and Local Centres. For Chesterfield Town Centre the Local Plan identifies a Primary Shopping Area (PSA) but, in line with the study's recommendations, does not include further frontage policies.	To correct typographical errors.	N/A

Chesterfield Borough Local Plan: Additional Modifications

AM41	4.39, Page 43	Where opportunities arise, the council will work with the third sector to explore opportunities for involvement in regeneration and development and identifying opportunities for new provision.	To correct a typographical error / improve clarity.	N/A
------	---------------	---	---	-----

5) Infrastructure Delivery - Additional Modifications

Modification Reference	Paragraph / Page No.	Proposed Additional Modification	Reason for Change	Representation/MIQ
AM42	5.1, Page 46	The definition of infrastructure is wide although most commonly thought of in terms of physical infrastructure (such as new roads and flood mitigation, electronic communications networks, including telecommunications and high speed broadband; -green infrastructure (such as parks, greenways and allotments), and -social infrastructure (including schools and health facilities).	To correct typographical errors.	N/A

6) A Changing Climate – Additional Modifications

Modification Reference	Paragraph / Page No.	Proposed Additional Modification	Reason for Change	Representation/MIQ
AM43	6.1, Page 48	One of the major issues facing the Borough Council and our partners is climate change; how best to adapt to the changes that are inevitable and how best to minimise our contribution to global warming. -Reducing our carbon footprint and being more resilient to changing climate conditions is a critical thread running through the whole Local Plan. <u>In 2019, the government set a target that will require the UK to bring all greenhouse gas emissions to net zero by 2050. Net zero signifies that any emissions would be balanced by</u>	To bring supporting text up to date with national policy changes.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		<u>schemes to offset an equivalent amount of greenhouse gases from the atmosphere, such as tree planting or using technologies such as carbon capture and storage.</u>		
AM44	6.1, Page 48	The the Borough the Council has signed the Nottingham Declaration on Climate Change a pledge <u>which pledges</u> to tackle the issue by addressing the causes of <u>climate change</u> and <u>prepare for the associated impacts.</u> preparing for the impacts of climate change. <u>The council also declared a Climate Change Emergency in July 2019 and is currently developing a Climate Change Action Plan.</u> Minimising carbon emissions associated with growth within the authority area is key to this objective <u>improving the resilience of the borough to climate change.</u>	To update supporting text in line with CBC's recent climate change emergency announcement.	N/A
AM45	6.2, Page 48	The government has a target to generate 15% of the UK's energy needs by 2020 (comprising 30% in electricity, 12% in heat, and 10% in transport). The Chesterfield Borough Renewable and Low Carbon Energy Study (2010) identified areas in the Borough where there is potential for different forms of renewable and low carbon energy generation. <u>The Study concluded that the wind speeds across the borough were relatively low, that the wind resource was highly constrained due to borough's urban nature, offering few opportunities for delivering large scale turbines.</u> Areas suitable for district heating are within Chesterfield town centre and on large development sites.	To remove repetition of paragraph 6.5	N/A
AM46	6.3, Page 48	National guidance acknowledges that the approach to assessing the landscape and visual impact of large scale solar farms is likely to be the same as assessing the impact of wind turbines.	Unnecessary repetition of national policy now covered by NPPF.	N/A
AM47	6.4, Page 48	National planning guidance on wind energy was revised in 2015¹² to take account of a ministerial statement¹³ stating that planning permission should only be granted for new proposals if the development site is in an area identified as suitable for wind energy development. Such areas need to be identified clearly in a Local or Neighbourhood Plan.	Unnecessary repetition of national policy now covered by NPPF.	N/A

Chesterfield Borough Local Plan: Additional Modifications

AM48	6.5, Page 48	The Renewable and Low Carbon Energy Study analysed the potential of a range of renewable technologies and their potential deployment in Chesterfield. The Study concluded that the wind speeds across the Borough were relatively low, that the wind resource was highly constrained due to Borough's urban nature, offering few opportunities for delivering large scale turbines.	To remove repetition of paragraph 6.2	N/A
AM49	6.6, Page 50	Flooding is a natural hazard which causes causing immeasurable stress to the people affected and can have serious economic impacts. Recent flood events in the h Borough have emphasised the possible extent and impact of flooding that can occur. Over the last century, pressures for development have resulted in the widespread development within floodplains, particularly in areas like Chesterfield h Borough which have a history of industrial development alongside rivers. -This has increased the risk of flooding and caused problems not only in the area developed on, but also in areas further downstream.	To improve clarity of supporting text.	N/A
AM50	6.7, Page 50	Development should not increase the risk of flooding to either the proposed site itself; or to third parties.	To correct a typographical error.	N/A
AM51	6.7, Page 50	However, as the SFRA represents only a snapshot in time, development proposals should always be considered against the best available flood risk information, such as the EA's Flood Map for Planning and flood risk modelling.	To correct a typographical error.	N/A
AM52	6.8, Page 50	A key objective of the Spatial Strategy is to focus development within existing urban areas or on large brownfield sites, particularly in Chesterfield town and Staveley, however, and a number of these sites fall within areas of flood risk. However, -i n order for the key objectives of the Spatial Strategy to be delivered flood mitigation measures will be required.	To improve the clarity of the supporting text.	N/A
AM53	6.9, Page 50	Derbyshire County Council is the lead local flood authority which is	To improve the clarity of the	N/A

Chesterfield Borough Local Plan: Additional Modifications

		<p>responsible for managing local flood risk across Derbyshire. It published a Flood Risk Management Strategy in 2015 (2015). <u>The council has contributed to an Environment Agency commissioned project called the Chesterfield Flood Risk Investigation involving comprehensive flood modelling of the River Rother and its tributaries. When completed the Chesterfield Flood Risk Investigation will provide the best available flooding information for Chesterfield and will test options for flood alleviation works to better protect the town from the devastating impacts of flooding. The Chesterfield Flood Risk Investigation will be used alongside all other sources as a combined evidence base to inform decision making and future Local Plan reviews.</u> Related guidance includes the Chesterfield Integrated Model, a project co-ordinated by the Environment Agency which recognises the nature and extent of flood risk in the Borough and identifies solutions to mitigate future flooding of development areas. Proposals should also consider the findings of the Environment Agency's Chesterfield Flood Risk Investigation (due to be published in September 2017), as this document will form the starting point for flood risk considerations across the area.</p>	supporting text.	
AM54	6.10, Page 51	<p>– This will include grey water recycling, rainwater harvesting, green roofs, permeable paving, infiltration areas and soakaways. Ultimately, developers are required to move towards an integrated approach, managing the runoff from new developments to hold back rainfall from reaching the drainage and river systems too quickly.</p>	To correct a typographical error.	N/A
AM55	6.11, Page 51	<p>The council's approach to water management complements the work of the Environment Agency as set out in the River Basin Management Plan for the Humber River Basin District. In particular, the Core Strategy <u>Local Plan</u> has an important role in the key actions of promoting water efficiency, SuDS, <u>the</u> re-use of water and the value of green infrastructure. The Borough Council will specifically require major development proposals to demonstrate that a</p>	To correct factual errors and improve clarity.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		sustainable urban drainage system SuDS will be put in place and that there are clear arrangements for on-going maintenance over the development's lifetime, unless SuDS are otherwise demonstrated to be inappropriate. On smaller development the Borough Council considers that SuDS are desirable and encourages their use by developers.		
--	--	---	--	--

7) Environmental Quality – Additional Modifications

Modification Reference	Paragraph / Page No.	Proposed Additional Modification	Reason for Change	Representation/MIQ
AM56	7.1, Page 53	Ensuring a safe and healthy environment is a challenge, taking into account areas of poor air quality and areas of unstable and contaminated land (which are often a legacy of mining and industrial development).	To improve readability.	N/A
AM57	7.2, Page 53	At the time of writing, the Borough has declared one Air Quality Management Area (AQMA) at Church Street in Brimington (which came into force on 1st September 2015). -An Air Quality Action Plan is currently being drafted. <u>was published for consultation in February 2020.</u>	To provide a factual update.	N/A
AM58	7.3, Page 53	Soil is a finite resource that fulfils many important functions and ecosystem services; for instance, Soil acts as a growing medium for food, timber and other crops, as a store for carbon and water, as a reservoir of biodiversity and as a buffer against pollution. It is therefore important that the soil resources are appropriately protected and used sustainably.	To improve readability.	N/A
AM59	7.4, Page 55	Green i nfrastucture is a strategic rural and urban network of multi-functional green and blue space, and the connections between them. It supports natural and ecological processes and is integral to	To correct typographical errors.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		the health, quality of life and economic success of sustainable communities. The g Green i nfrasturcture network refers to a wide variety of public and privately owned 'green assets' such as parks, open spaces, Green Belt, farmland, open countryside, woodlands, wildlife sites, allotments, private gardens, greenways (multi-user trails) and river/canal corridors.		
AM60	7.5, Page 55	Whilst thought of as an urban area, almost half of Chesterfield borough is relatively undeveloped land containing green infrastructure assets, many of which are firmly established and are key elements of the borough's identity, for example, the Chesterfield Canal corridor and Pools B -brook Country Park.	To correct typographical errors.	N/A
AM61	7.6, Page 55	<p>Green infrastructure offers a range of direct and indirect benefits, <u>which include:</u> including addressing climate change adaptation and mitigation, improving quality of place, improving physical and mental health and social wellbeing, sustaining economic growth and investment, protecting and enhancing biodiversity, providing opportunities for local food production and protecting and enhancing landscape character and the setting of heritage assets.</p> <ul style="list-style-type: none"> • <u>improved resilience to climate change;</u> • <u>enhanced quality of place;</u> • <u>benefits to physical and mental health and wellbeing;</u> • <u>sustained economic growth and investment;</u> • <u>opportunities for local food production;</u> • <u>enhanced landscape character and setting of heritage assets.</u> <p>Investment in gGreen infrasturcture via tourism, recreation and biodiversity improvements provides economic and health benefits for a Borough that is still in the process of economic ally restructuring away from a legacy of heavy industry.</p>	To improve readability and correct a typographical error.	N/A

Chesterfield Borough Local Plan: Additional Modifications

AM62	7.7, Page 55	The council will aim to maintain and improve the green infrastructure network in the borough on a landscape scale, by protecting, enhancing, creating, linking, and managing multifunctional greenspace within and around the urban area and settlements. This will ensure in order that everyone has access to high quality natural and semi-natural habitats, open space and sport and recreation facilities, and to assist in whilst providing resilience to the impacts of climate change.	To improve readability.	N/A
AM63	7.7, Page 55	Whilst individual elements of the green infrastructure network can serve a useful purpose without being connected. However, connectivity between different green infrastructure assets can help to maximise the benefits that they generate. For example, <u>Well-</u> connected green infrastructure assets create a network that allows and encourages the movement by of people and wildlife, helping to maximise the benefits ecosystem services provided whilst supporting and support adaptation and resilience to a changing climate, such as potentially dramatic increases in rainfall.	To improve readability.	N/A
AM64	7.9, Pages 55-56	The main components of green infrastructure in the borough were initially identified in the Chesterfield Borough Council Green Infrastructure Study (2009). Further studies have built on the initial study including a Green w W edge and s S trategic g G aps i I ndicative a A ssessment (2011) , and its subsequent review in 2016 and an updated Greenprint. Work has also been carried out with the Local Nature Partnership and Derbyshire Wildlife Trust to update information on the ecological network. The updated Greenprint for Chesterfield maps out the maps in diagrams ???? show the current extent and nature of the identified green infrastructure network.	For clarity and to improve readability.	N/A
AM65	7.11, Page 56	The purpose of the Green Wedges is to: <ul style="list-style-type: none"> mMaintain open areas between parts of settlements within the urban area of 	To improve readability.	N/A

Chesterfield Borough Local Plan: Additional Modifications

		alleviation, and as well as improve enhance biodiversity. It can also improve and levels of amenity, outdoor activity levels, and health and well-being.		
AM70	7.17, Page 60	In 2014 the Council adopted the Chesterfield Parks and Open Spaces Strategy (2015-2024) and the Chesterfield Playing Pitch and Outdoor Sports Strategy following public consultation. These Strategies considered supply and demand for open space, sport and recreation facilities and play provision and includes an assessment of the quantity, quality and accessibility of different types of open space within the borough . The Parks and Open Spaces Strategy found that the Borough has a more than adequate provision of publicly accessible parks and open spaces in relation to the size of its population. However, provision is unevenly distributed with some wards containing well above average and others falling significantly short. The existing Parks and Open Space Strategy is now currently under review with a A new assessment of Open Space and Play Provision was published by the council in 2019, with a having been carried out and a new strategy being prepared for adoption in 2019 20 . The Playing Pitch and Outdoor Sports Strategy requires the protection of the majority of sites but not all, with a need to reconfigure provision to better fit local need.	To improve readability, provide factual update and remove repetition of text within paragraph 7.22.	N/A
AM71	7.18, Page 60	The Local Plan strategy for public open space is to seek to ensure that everyone has access to a network of multifunctional public open spaces. It will aim to ensure that the network is accessible and of sufficient quality and size-quantity to meet a diverse range of needs within the Borough including people’s health and well-being and other ecosystem services.	To improve clarity.	N/A
AM72	7.18, Page 60	Investment will also be required to meet the open space needs of a growing population. This will be achieved through financial contributions from development to improve the capacity, accessibility and quality of the existing open space network; and if	To correct a typographical error. 		necessary, the provision of new open space.		
AM73	7.22, Page 61	The Council adopted the Chesterfield Playing Pitch and Outdoor Sports Strategy <u>in</u> 2014 following <u>a</u> public consultation. The Playing Pitch and Outdoor Sports Strategy is to be updated and currently requires the protection of the majority of sites but not all, with a need to reconfigure provision to better fit local need. The council also undertook compiled and adopted in 2014 a Sports Facilities Strategy in 2014 that aims for a high quality sporting infrastructure which meets the needs of residents at all levels and promotes participation and physical activity across the borough. Specifically, the Strategy looked at sports halls, swimming pools and artificial grass pitches and is focused on providing facilities for the most popular activities and which have the highest participation rate across the borough. The main conclusions of the Sports Facilities Strategy are that existing public swimming pools, sports halls and artificial grass pitches are to be protected up to 2028 with a need for a new full size '4G' -artificial grass pitch within the Borough.	To improve clarity.	N/A
AM74	7.23, Page 61	There are 33 allotments sites in the Borough (accounting for over 41ha). The adopted allotment strategy 2012-2016 contains an objective to protect all existing sites and identifies areas of deficiency in the wards of Linacre, -Loundsley Green, Dunston, Walton, South of Rother, South of Hasland, Hollingwood and Inkersall. The Strategy acknowledges a need for further work in order to consider options for statutory sites that are uncultivated and also to seek to provide additional allotments in areas of need. The Council is committed to reviewing and updating the allotments strategy in 2019 2021 in order to best meet the future need and demand for this type of open space.	For clarity and to provide a factual update.	N/A

AM134	11.33, Page 109	At present However the Station area is currently characterised by under-utilised land; which is predominantly used for surface car parking, and poor connections to the town, wider borough and region.	To improve readability.	N/A
AM135	11.35, Page 109	The area around Chesterfield Railway Station was identified in the Town Centre masterplan (May 2015) as a key character area for regeneration projects, and the route of a link road between Hollis Lane and Crow Lane has been reserved in the Local Plan since 2006. The Council has worked in partnership with both the East Midlands (EM) EM HS2 Growth Strategy Board and the Sheffield City Region Growth Programme Boards to generate an understanding of the future needs of the station area. There is an agreement with the Department for Transport DfT and MHCLG that the work on Chesterfield and the northern Derbyshire HS2 Growth Zone will be supported by both LEPs. In the period November 2016 – to June 2017 work was undertaken using HS2 Growth Fund support from D2N2 LEP to examine how the Station and its access could be improved, alongside Derbyshire County Council and AECOM. In July 2017, A Concept Vision Document was published, and incorporated into the EM HS2 Growth Strategy “World Class - Locally Driven.”	To improve readability.	N/A

Chesterfield Borough Local Plan: Additional Modifications

AM136	11.37, Page 110	Key assets in the Station Master Plan Masterplan area require Safeguarding. A new road alignment joining Crow Lane and Hollis Lane will improve access to the station from the south (and reduce traffic through Chesterfield Town Centre, see policy policies SS1 and LP24). There is also a need to ensure adequate land is safeguarded to allow for the development of an improved pedestrian bridge over the A61 to Corporation Street. The bridge would ideally be a statement piece of architecture and has been termed “Platform 4”: arrival to the Town Centre. Land has been also identified for and Options are being explored for: an improved station forecourt, m Multi-story car parks (to release development land), improved bus, taxi and cycling use access , limited leisure and retail use, connected to station users and an area of public realm.
