Housing Performance Report - Compliance – March 2025

This report shows our performance around landlord compliance relating to property safety, using key performance indicators (KPIs) and management information (MI).

The icons indicate whether we are on target and whether performance so far is on track to be better than last year.

Some figures might be updated (or corrected) a period of time after events have occurred, therefore some of the figures from previous months might change, which can affect the year to date figures. The figures are correct at the time of writing.

Targeted performance measures:	 Performance improving	 Performance static	 Performance deteriorating	
Non-targeted management info:	 Measure increasing	 Little/no change	 Measure decreasing	 Data only (no target)
